CLACKAMAS COUNTY SCHOOLS.—Supt. Gibson has devoted the greater part of his time for the past two months in visiting the various schools of the county and has now nearly completed his tour of inspection for the fall. He finds that the schools of the county were never in a more satisfactory condition than at present. A deeper interest in the cause of education is apparent and an effort is being made in almost every district to raise the standard and efficiency of the schools. The superintendent finds that there is scarcely a district but what has supplied their school with more or less necessary apparatus to aid the teacher in doing good work. Supt. Gibson has done a great deal in the past two years toward building up the schools of the county. He has made it a point to visit, where possible, at least twice a year, every school in the county and observe the methods employed by the teachers and to give them such help and advice as would aid them to better carry on their work. He has also done efficient work with the directors of the various districts in counselling with them for the better discharge of their duties. The result being apparent in the harmony and thoroughness with which the school work of the county is carried on.

AN AFTERNOON PARTY.—The most important social event of the season for the little folks was the party given Tuesday by the Misses Ariene and Josephine Johnson at their home on the West Side from 2 to 5 P. M. to a few of their acquaintances during their stay in this city. The house was very tastefully decorated with chrysanthemums and smilax. The afternoon was rapidly spent in playing games and at 4 o'clock the party sat down to an elegant lunch. The refreshments were choice and the beautifully decorated table surrounded by the little ones presented a very pretty picture. Each member of the party was presented with a gift as a reminder of the day. Those present were Ariene and Josephine Johnson, Harriet Smith, Bertram Taylor, Dorothy Taylor, Edna Caulfield, Maud Morry, Clara Caulfield, Earl Walker, Mary Belle Cheney and Louise Walker.

TO JOIN A COLONY.—W. E. Johnson, of Mt. Pleasant, with his family, will leave the last of this week for California where he has bought land in a colony at Rio del Llano forty miles east of Los Angeles. This colony, or rather settlement, for it is not run on co-operative principles, was founded by a syndicate, organized through the efforts of the Farm, Field and Fireside, of Chicago, who bought up 20,000 acres of land and laid it out into twenty-acre tracts, selling only to actual settlers who are known to be of good moral character. All saloons are prohibited and it is the intention of the founders to make it an ideal home for the members. Mr. Johnson has chartered a car and will take his household effects, stock and implements through with him for use in his new home.

A VISITOR OF NOTE.—Elijah Smith, president of the O. R. & N. Co., and one of the great capitalists of New York, was in Oregon City Wednesday, the guest of President Morry of the Portland General Electric Co., spending the day looking over the company's works here and examining our great water power. Mr. Smith is a large holder of Pacific coast properties, but states that at the present time, Oregon City offers inducements to capital not equaled by any other place on the coast.

A PLEASANT SOCIAL.—The Mead Relief Corps No. 18, after their regular meeting Tuesday evening at the K. of P. hall, held a very pleasant social. An interesting program consisting of vocal and instrumental music, recitations etc., was rendered after which a sumptuous supper was served. The members of the U. A. R. and Sons of Veterans were all present and a pleasant evening was passed.

THE OREGON CITY LAUNDRY.—A change in the proprietorship of the Oregon City Laundry has lately taken place, H. B. Shannon having sold out to G. W. Gilbert and M. L. McNeil. The new owners have been working for some time in the laundry and fully understand their business.

Obituary.

Mrs. Martha Doores was born in Bates county, Missouri April the 18th, 1828, and died at her home in Marquam, Clackamas county, Oregon October, 1894. She moved first with her parents to Platt county Missouri, where she was married to Mr. John Murdock about 1845. With her husband and three children she came to Oregon in 1871 and settled on a part of her father's donation claim, (Mr. Robert Allen.) A part of the village of Marquam, is on her part of said claim, where she continued to live up to the time of her death. Mr. Murdock was killed August 14, 1874. Nearly five years later, on February she was married to Mr. J. W. Doores who, with a son and daughter by her first husband, survive her.

Sister Doores had a partial stroke of paralysis some eight years ago since which time her health has been quite delicate. On the 28th she was as well as usual. Her only daughter had been with her part of the day and she seemed to be in excellent spirits. She was on the back porch of her house at 4:30 making some preparations for the breakfast for the coming day when she fell dead without a moments warning. Sister Doores was converted and joined the Missionary Baptist church in Missouri but when she came to Oregon she united with the Methodist Episcopal church at Marquam where she has been known as a consistent Christian for the past twenty-three years. This sister had much trouble in her pilgrimage on earth but found Jesus an all sufficient Savior. The one acre lot upon which the M. E. church of Marquam stands was a donation from this good sister. A brother and sister mourn, but are comforted.

The funeral sermon was preached by the writer from John 11:25-26. We bid all that was mortal of our sister in the cemetery with a strong hope of meeting her in heaven.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. TEACHERS' COLUMN.

Timely Hints to Teachers—Reports of Schools—Educational Notes.

All matter for this department should be sent to Mrs. H. S. Gibson, Oregon City.

All teachers and those interested in the cause of education are asked to contribute that the column may be made of material benefit to the schools of Clackamas county.

The following hints are taken from the Teachers' Institute and gives several good points that a progressive teacher should heed:

The stay-at-home teacher is one of the principal sources of rust in school machinery. A more rapid, and in every way superior, way of accomplishing certain work is discovered and proved in a town a hundred miles away. The stay-at-home teacher smiles with wise incredulity when she hears it and goes on waisting the energies, spoiling the tempers, and robbing the youth of her pupils. Some power may arrive on the scene that forces the new method upon her. She resists faintly, then applies herself conscientiously (for these teachers don't mean to be wicked), finds the method successful even boasts of the wonders it does, acknowledges that she has learned something, but smiles with the same wise incredulity as of old when you suggest that there may be something else to be learned, a hundred miles in some other direction.

Teachers whose heart and soul are in their work should never join in protesting against any criticism directed against their indifferent colleagues. There are only two things to be done with teachers who are satisfied to go on in the old lesson-bearing ruts. One is to reach their consciences and awaken their professional intelligence to the fact that the school world is moving all the time. The other is to dismiss them from their positions. This latter alternative will in time fall to the part of awakened school boards. The former is in the hands of earnest neighbor-teachers. Don't let the teachers in the next room go to sleep if you can help it. You are informing yourself constantly as to better methods and higher ideals. Share your information with her until you get her interested. There is no grander missionary work.

The sympathetic teacher will do all she can to relieve the monotony of the school room. A little variety wakes up brain action. The teacher herself becomes a victim of monotony if she follows the program from day to day and thinks of nothing else. It may be that there is lack of time, but are you sure, dear friend, that you economize time as much as is possible? How much do you think over your next day's work? Tired as you are, it will pay you to look over even the textbook lessons in advance and think up ways of brightening them—to study your program and find where you can unite two of the day's lessons in one, taking little more than half the time that they would demand if given separately, perhaps, and saving precious minutes for a class talk upon some pleasant topic, or a narration from your own experience as a traveler, or a bright bit of reading that you have picked up somewhere. Your scrap-book, your educational journal, the daily paper, are full of suggestions for such half hours of enjoyment with your pupils, and the school will soon feel the benefit of them. Break the monotony!

Report of Pleasant Hill district, No. 30 for the month ending November 2d. Number of pupils enrolled twenty-five; average daily attendance twenty-two; number of visitors nine. The following named pupils were neither absent nor tardy during the month: Lillie McConnell, Dora and Johnny Roberts, Alpha and Lula Weston, Melville, Audny and Elva Templem, Henry Barhart and George Macinau. Moore's Revealed Remedy.

ASTOUNDING in its Effects in the cure of Rheumatism, Asthma, Malaria, Biliousness or any other disease arising from deranged Liver, Stomach or Kidneys—It drives all impurities from the Blood.

Mrs. Chas. A. Russell, who is favorably known throughout the Northwest says:

"For fifteen years I was a constant sufferer with asthma without any relief, except that obtained by constant change of locality. Two years ago I tried MOORE'S REVEALED REMEDY and the benefit received from it was the most gratifying. It gave me relief from the first and prevented the terrible distress peculiar to the disease that made life almost unbearable. Any one who has ever had asthma can understand the gratitude I feel toward this remedy. Believing it has added pleasant years to my life I have not hesitated to recommend it to all like sufferers, and always with the same happy results."
