FRUITGROWERS TO MEET.—The meeting of horticulturalists of the entire Northwest held at Spokane last February was intended to harmonize the fruit-growers of the entire region, and secure the best means for advancing their interests. An organization was effected to be preliminary, and an executive committee composed of Dr. N. C. Blalock, of Walla Walla, Pres. and a vice Pres. each from Idaho, Washington, Oregon and British Columbia. The convention was numerous attended and adjourned to meet at Portland in February next to effect a permanent organization. The Oregon State Horticultural society holds its annual meeting on the second Tuesday, the 8th, and it has been considered advisable to make this also the date for the meeting of the Northwest association and hold there at that time a grand convention of horticulturalists to represent the entire region north of California. Dr. Cardwell, as president of the state society, has extended to President Blalock, of the Northwest association, an invitation to make this the date for a united meeting of the horticulturalists of the Northwest, which invitation has been accepted.

SOME BUSINESS CHANGES.—Henry Cooke has disposed of his livery stable to W. J. Kidd and Fred Williams. Mr. Cooke will retain his truck teams and continue to carry on his draying business. Messrs. Kidd & Williams will keep the livery department of their stables up to the full requirements of the business, but during the winter months the feed department will be made a leading feature and farmers and others will find the best of accommodations at reasonable prices at their stable. As the new proprietors are well known in this city they will doubtless receive their full share of business. Another change is that of the transfer of the Star grocery by V. Harris to R. Staub. Mr. Harris has built up a good trade and leaves the business in such shape that Mr. Staub will be sure to meet with success. Mr. Staub is recently from Beaver Creek, but formerly was in business in Portland and has had a thorough training in his business. He will enlarge his stock, and proposes to give his patrons full value for their money.

ANOTHER WEST SIDE STORE.—The growth of West Oregon City has been such during the past year that it is becoming one of the most important suburbs of Oregon City and is developing into a business center of no small proportions. In addition to the well kept store of Mr. A. R. Doolittle this part of the city is to have another store. C. A. McMillan now conducting a general merchandise store on Main and Fourteenth streets will shortly remove his stock to the West Side where he will open up about December 10 with an enlarged stock of goods. Mr. McMillan has proven himself to be a capable business man and will be sure to build up a good trade in his new location.

AN EFFICIENT SCHOOL.—The ENTERPRISE is in receipt of a neat pamphlet of twenty-two pages gotten out under the auspices of the Oswego school board, giving the rules, regulations and course of study in the schools of that town, together with a roster of all the pupils in attendance and list of teachers. By it, it is seen that Oswego's school ranks with the best in the county, and will become one of the leading factors in bringing a desirable population to that enterprising town.

## EDUCATIONAL NOTES

All notes for this column should be sent to Mrs. H. S. Gibson, editor, Oregon City, Oregon.

TEACHERS' ASSOCIATION.  
The Teachers Association met at Canby, Nov. 24, 1894.

The session was held in the Canby school building, and the members were called to order by Superintendent H. S. Gibson at 11 o'clock.

Minutes of previous meeting were read and approved.

Miss Hattie Monroe and L. L. Moore were elected to membership in the association.

Moved and seconded, that we postpone the December meeting on account of the State Teachers' Association meeting in Portland at that time. The motion was carried.

Moved and seconded that we hold our next meeting at Paak Place on the last Saturday in January. The motion was carried and E. M. Ward, Hattie Monroe and Nellie Younger were appointed to prepare a suitable program for that occasion.

Several pupils of the Canby school greeted the association with a musical selection.

Next was a pleasing recitation by Alice Harris.

Writing and drawing were assigned Miss Bertha McDaniel, who had prepared a paper on the subject. She spoke of the great importance of teaching those branches thoroughly, and believes that they are neglected in the public schools. E. M. Ward, J. A. Freeman, T. J. Gary, and L. Stipp took part in the discussion which followed.

A cute song was sung by little Mabel Knight. Exercises in U. S. History by Miss Jennie Rowen was remarkably good. The pupils showed a surprising familiarity with the subject. Miss Rowen uses the lecture method as she thinks it draws out the child's mind, and necessitates reading and thinking.

Afternoon session was called to order at 1:30 by Superintendent Gibson.

The audience were favored by a choice song by four girls.

Rhetoric in schools by J. A. Freeman of the Oregon City school was very entertaining. He spoke at some length on the subject, and believes much in this line of work may be done by means of composition work in the school provided, that all such exercises are overlooked by the teacher. He believes in cultivating a taste for the beautiful and sublime.

The association was delighted to hear a beautiful song from Mrs. Cooper.

"How to Teach Geography," was handled by E. M. Ward. He begins with the globe and uses illustrations to make the work plain. He thinks that any homely illustration is more beneficial to the child than maps or charts.

An address by T. J. Gary, of Milwaukee, on "The Teacher's Position in Politics" was much appreciated by the teachers, holding the close attention of every one.

He believes in teaching principles, but not partisan policies. He would teach the duty of good citizenship and love for the stars and stripes. In our country we need men of conviction, men who will think on a subject, and when they make up their minds, stick to what they believe is right.

Miss Veva Knight recited a comical selection which caused much laughter, after which she sang a song.

The subject of "Graduating Exercises" was discussed by Supt. Gibson, who said that these should be held in the public schools, but that the course of study should be uniform throughout the state. He said that at the coming legislature, a move would be made in this line, and that all the superintendents were working for the same.

A vote of thanks was tendered the Canby people by the association, after which the meeting adjourned to meet at Park Place the last Saturday in January. The program will be published later.

## Kindly Remembered.

On Saturday last was the seventieth birthday of Mrs. E. M. Latourette, and her friends took it upon themselves to make the day one of pleasant remembrance to her. From early morning her friends who reside in the city, called at her home with her daughter, Mrs. L. C. Driggs, to extend congratulations and bring bouquets of beautiful flowers and other gifts of love.

For weeks previous, the mails from every part of the country bore loving messages, till her table was filled with over sixty letters from many different states. One from an aged friend who was the teacher of her girlhood, others from whom she had not heard for twenty years—all contributed to add to her surprise and delight. Through the stormy days of winter she will find warmth and brightness in answering these loving greetings. Of the many literary tokens of affection received none were more highly appreciated than the following poem from Mrs. McVean Adams, one of the bright writers of the East, and whose productions are found in many of the leading magazines:

Dear friend, accept our loving greeting,  
And tell us, does the time seem long  
Since early dawn, with wild bird's song,  
Spring flowers and diamond dewdrops gleaming  
Till now, when twilight shadows throng?

Three score and ten! The shadows lengthen,  
The sunset lingers in the air,  
The evening is the time for prayer,  
While faith and love the spirit strengthen,  
The stars shine out serene and fair.

O, when the long bright day is ended  
How sweet to fold the hands and rest  
While sunset glories gild the west,  
The work is done, the children tended,  
And God is good, and life is best,  
And precious memories thrill the breast.

Then what if Time's relentless fingers  
Silvers your hair and lines your face!  
The deepest furrows time can trace,  
But give a gentler, tenderer grace,  
Only stay with us, Linger—linger  
Thro' many a tranquil season's space,  
For no one else can fill your place.

The path of age slopes gently down the west,  
Each morn more bright, and eve more richly blest  
The grateful task be ours  
To strew that path with flowers,  
Nor wait to place our fragrant wreaths of bloom  
(Too late) to grace a cold unconscious tomb,  
Life is the time for blossoms, and in truth  
Age has more lovely flowers than careless youth.

Sweetly amid the snows  
Unfolds the Christmas Rose,  
And when the solemn requiem music swells  
Noisefully chime the Easter lily bells,  
Yours are love's amaranths and asphodels  
And, at the last, a crown of immortelles.

## \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.

## Are You Interested in Electricity?

At last we are to have an electrical magazine. The science of electricity has developed so rapidly that the publishers of Electric Power have decided to change their journal into the form of a monthly magazine after January 1st, 1895. This is an important move and will give the public the opportunity of keeping abreast of the times in matters electrical. They have already secured for the coming year a number of the best known writers in electrical literature and propose to be in the front rank on all points connected with electricity. There are numerous trade paper, and journals devoted to electricity, but as yet no one has had the courage to publish a magazine devoted to that science, and Electric Power will have the field to itself, and undoubtedly is making a wise move. The subscription price will remain the same, \$2.00 per year, 20 cents per copy.

The November issue is devoted to the papers, reports and general news of the Street Railway Convention in Atlanta, and contains quite a number of excellent portraits.

## Cheerful Winter Evenings.

Nothing brings so much joy and comfort to the fireside as a genial visitor—one that entertains and instructs every member of the family. The latch string is always out for the Prairie Farmer, for it always brings a big weekly hogdog. It is brighter than ever, with a host of new writers, this year. The Thanksgiving and Christmas numbers will be worth more than a year's subscription. \$1.00 gets 52 visits—The Prairie Farmer.

## Moore's Revealed Remedy.

ASTOUNDING in its Effects in the cure of Rheumatism, Asthma, Malaria, Biliousness or any other disease arising from deranged Liver, Stomach or Kidneys—It drives all impurities from the Blood.

Mrs. Chas. A. Russell, who is favorably known throughout the Northwest says: "For fifteen years I was a constant sufferer with asthma without any relief, except that obtained by constant change of locality. Two years ago I tried Moore's Revealed Remedy and the benefits received from it were most gratifying. It gave me relief from the first and prevented the terrible distress peculiar to the disease that made life almost unbearable. Any one who has ever had asthma can understand the gratitude I feel toward this remedy. Believing it has added pleasant years to my life I have not hesitated to recommend it to all like sufferers, and always with the same happy results."
