All notes for this column should be sent to Mrs. H. S. Gibson, editor, Oregon City, Oregon.

### DISCIPLINE.

(Continued from last week.)

Teachers, prohibit whispering and prevent it as far as possible. Seat the pupils yourself so as to separate the chums. It will have a most salutary effect upon the school. First and most important, be systematic. The school work should be so thoroughly studied and mapped out that every factor of it works without friction, like a machine. The student should know the order of exercises and what is expected of him. It should be the effort of the teacher to interest him in the progress of the work. The parents' interest too, should be secured. It is well for the teacher to visit the parent before commencing school and try to gain their co-operation. Impress upon them the importance of punctuality and regularity of attendance. Make them feel that it is their school and it is their duty to visit it. It is true that some patrons must be handled with gloved hands, but your main effort should be to give all the idea that you will be industrious and impartial in the management of your school. Wearing such gloves, you will make a good impression. Don't be variable in your moods in the school room, having "blue spells," or their opposites. The teacher should remember the little courtesies from one to the other. Be polite to your pupils. Make the school room pleasant by adornment and cleanliness. Whipping should be the last resort and it is better even then to consult with the parents. A noted superintendent has said, "Much whipping, bad order, little whipping, good order, least whipping, best order." Never whip while angry and without explanation. The pupil should know why he is punished. It should be the teacher's effort to make his school govern itself. The object of the school work is to lead the pupil to investigate and think for himself, to be a self instructor, so the government of a school should be self-government. The secret of school government lies almost wholly in the ability of the teacher to give every pupil something to do suited to his capacity and the secret of self-government lies in the interesting of him in his work and the keeping him at it. It is easier to prevent an evil than to correct one. Say to the pupils only what you mean and keep your word. A stern and firm teacher never fails. Require unquestioning obedience. The average boy is but a small edition of the man and he admires power. He has a contempt for the weakness which a lax discipline shows but respect for decision. Never appear annoyed by disorder as there are pupils who will try to annoy you. Directors should remember that suitable buildings, good lighting, comfortable seats and the right kind of apparatus are potent factors in discipline. Tact is a very important factor in discipline. It is not best to punish for every offense but, when possible, turn the laugh on the refractory pupil; make him ashamed. That would take tact. To win the good will of an incorrigible, give him a favor to do for you. You will also win his respect and secure his obedience. Perfect silence is not desirable. "The school room is a workshop, not a funeral." At least it should be a workshop in which the teacher is the skilled workman. Never punish a pupil because of his mischief. Mischief is not meanness, but a surplus, overflowing energy. The robust child is naturally mischievous. The securing and holding of attention is an important factor in discipline. Never ask questions in rotation or point at or look fixedly at the pupil who is reciting. State the question to the class as a whole; ask one member for an answer. Do not look at the pupil who is reciting; he is orderly. Never repeat a question to oblige an inattentive pupil, but ask questions repeatedly of such pupils. Never lose sight of the class. Control demonstrates itself chiefly through the eye. If the pupil feels that the teacher's eye is constantly taking note of all that is going on, he cannot fail being conscious of the controlling power. Do not try to teach without attention. If there is a noise, stop all the work until there is quiet. Never try to drown the noise by making a noise yourself. Attention gained in this way can be but temporary. In conclusion I would say that there is no more essential element in a good school than thorough discipline and no teacher can hope to succeed without it.

### The Toledo Weekly Blade.

Of the now nearly twenty thousand publications in the United States, there are but two or three weekly newspapers published for general circulation in every state and territory, and of these the Toledo Weekly Blade is the best and most popular of them all. It is the oldest, best known and has the largest circulation. For more than twenty-five years it has been a regular visitor to every portion of the Union, and it is well-known at every one of the sixty thousand odd postoffices of the country. It is made especially for family reading. It gives the entire news of the world each week, in such condensed form as will save reading scores of pages of daily papers to get less information. Republican in politics, temperance in principle,

always on the side of justice and right, and is just the paper for the rising generation, and a great educator for the whole family. Serial stories, wit and humor, short stories, household department, camp fire, question bureau, farm department, Sunday school and young folks, are a few of the many other prominent features of this great paper. A specimen copy will be mailed free to any address on application, and the publishers invite any person to send in a long list of addresses to whom they will mail sample copies. They would be glad to mail a couple of hundred specimens to readers of this county. The Weekly Blade is a very large paper, and the price is only one dollar a year. Address, The Blade, Toledo, Ohio.

## Overland Monthly.

From a purely artistic point of view the Christmas Overland Monthly is the most attractive number that has been issued under Mr. Wildman's management. The outside cover will be in gold, green and brown, on pure white. The famous old Overland Grizzly seems almost out of place in his modern setting. Mr. Wildman contributes a pathetic little Christmas story in his charming department—"As Talked in the Sanctum." It is in fact, other than the cover, the only distinctly Christmas feature, although a number of other contributions might be so classed.

Mr. Joaquin Miller's great masterpiece, "The Song of the Balboa Sea," grows in interest from month to month. It will be completed in the January number, and Mr. Faul's remarkable narrative of the doings of the "Vigilance Committee of '96" is brought to a close with this number.

Professor Annot's beautifully illustrated article of "Fencing on the Pacific Coast," cannot but be of more than passing interest to all lovers of the manly art of self defense throughout the United States.

Under the caption, "The Decline of the Mission Indians," Messrs Scanland and E. P. Clark throw some light on the much mooted question.

As a chronicler of Pacific Coast history the Overland will begin a series of biographical sketches in this number on "Famous Californians of Other Days." The subjects treated in the first article are Senator Henry S. Foote, Gwin and Broderick, Doctor Durant and Colonel Jack Hayes.

Mr. Wildman has another Malayan sketch, "The Rivals," and Mr. Reed a story of Indian life in the Southwest. Mrs. E. S. Marshall is responsible for a timely article, well illustrated, on "Prickly Plants of California," and Charles S. Greene for a unique little poem, "Taking Toll."

SHILOH'S CURE is sold on a guarantee. It cures Incipient Consumption. It is the best Cough cure. Only one cent a dose. 25 cts., 50 cts. and \$1.00. For sale by G. A. Harding.

## Jones to Hotchkiss.

I'll be switched if that St. Louis Shoe Store does not take the cake. I have bought a good many shoes, but there is no store that can reach them. They are very polite and attentive and their trade seems to grow wonderfully. Opened four and one-half months ago and had to enlarge to double its former size.

At this moment Mr. Jones produced list of their men's heavy shoes, all sizes, 95c to \$1.75; men's boots \$1.65 to \$3.45; ladies' shoes, lace and button \$1 to \$1.75; ladies' latest kid \$1.50 to \$2.50; children's and misses' 75c to \$1.50; men's dress shoes \$1.25 to \$4; boys' boots \$1 to \$1.50; babies' shoes, all sizes 25c each.

Then Mr. Hotchkiss cried out to his wife, "Mary Ann, get ready and let's go to town, but do not forget to mark down that order."
