main argument is the point that the old paper some valuable hints on the road quest grow of desolation. I saw many farmers English common law was so cruel that thou, and think that a word from a taxy cutting the dried-op core and handling it for judges then wisely held that an accused, payer would not come out of place on this todder, and I thought if these unfortunate

but now that the old law has been relaxed, to be what will the present county court do gon they would think they were well fixed. a criminal ought not to benefit by the with our road system. During the past two They have some irrigation directes in Westformer practice, and justice be thwarted by years I have talked with a large number of ern Nebraska which are fed by the North errors of judicial ruling. The court of five taxpayers on the subject of roads and road Platte river. This year the North Platte was judges was unanimous in the opinion which work. Two years ago the present system as dry as a floor, consequently there was no

ford. This theory that a man can only be tried once for the same offense is a relic of the middle ages and has no place in modern jurisprudence. By this pernicious practice many a criminal is enabled to escape a just punishment for his crimes owing to an in-sufficiency of evidence against him at the time of the trial; for it often occurs that time of the trial; for it often occurs that portion of road fax. Of course they would via Monmouth; from there to Chicago via after the accused has been released direct not complain, for the man that pays the Galesburg, and back via Mendola, and so evidence is to be had strong enough to see largest tax is the man that gives such sub- far as I could see the corn was not seriously cure a conviction. Legal technicalities and lects careful study, and they at once see injured anywhere. Potatoes, however, were late ripetting, and were not very good. Onotherwise would have to pay the penalty for To limstrate, Farmer A of Beaver Creek, ions are only about the size of hen's eggs.

their misdeeds could a second trial be had. With his two sons, aged respectively twenty and tail vegetables are not well developed. An instance occurred during the last ses-sion of the circuit court in this county 160 acres assessed at \$2000 under last years and thus showing the effect of the long sum-mer's drouth.

ston of the circuit court in this county invaces assessed at 2500 under hat years where a guilty man escaped on a technical-ity, he being charged with an assault with for the old have been d to having pl a dangerous weapon and the evidence system : \$2000 assessment meant two days will have a hard time getting it this winter The weather has been had all the fall against him was most positive, but an in-dictment for this offense must state that the accused is over the age of sixteen years. By an ovrsight this important fact was left out and the counsel for the defendant had the indictment thrown out and the man the indictment thrown out and the man the indictment thrown out and the man went free. With justice being constantly "kickers" in one breath, why not go back cheated it is little wonder that iynch law is work done. Simply because from the fact went free. With justice being constantly cheated it is little worder that iynch law is resorted to that criminals may be given the punishment they deserve. THE ROADS AGAIN. The ENTRIFRISK this week has four communications on the road question. All avon the new system of road work and opfavor the new system of road work and op-Burlington route. It seemed like old times to board a Burlington train, for that used are made by them that are well worth con-sidering. That of placing the roads of the entire county under the charge of an en-gineer and dispensing with the four super-visors has much to recommend its adoption. It would doubtless bring a saving to the quired to be regular in their time; not so visors has much to recommend its adoption. On a lating of the quired to be regular in their time; not so ion who I have so esteemed for twenty county both in salary and in efficiency of under the old. A supervisor warns out his sheldon at Portland, Oregon. I am inwork. Road building is a trade that cannot be picked up in a day, and it requires long practice and thorough training to construct a road that will fill every requires the on. The time of each runs from two fro a road that will fill every requirement in on. The time of each runs from two to six and I can recommend them to persons who days. The supervisor begins his work, his met Mr. Chase as per arrangement at line. OREGONIANS IN THE EAST.

SPIRIT OF THE PRESS.

A movement is on foot to organize a new Under the "new" the foreman, if he is county from that portion of Douglas and end gravel or macadam will have to be used beginning his work in the spring, starts with, Lane counties laying on the Coast. Of the and are the only covering that fills all the say ten men and soon finds that he can dismemberment of Lane county, the Guard, demands of a practicable road surface. In employ ten more. He knows every night published at Eugene, has the following to order to get the views of the taxpayers of just how many men to expect in the morn- say: If the coast sections of Lane and this county on this road question, the Ex- lug, so that when he comes on the road in Douglas counties ask for a new county we TERFENSE will publish all communications the morning his plans are all laid for the believe there will be no objections from the day, and he knows just where to place other portions of the counties. Florence is each man. Under the "new" it is made eighty miles from Eugene and persons at THAT inexorable law of the survival of possible to do more and better work, by the county seat are compelled to make this being able to place more work on a given long trip at considerable expense. In road, and if our supervisors do their duty, winter the roads are very bad and at times the worst roads will be fixed first. And in almost impassable, and at that season the taken up by the Post-Intelligencer of that favor of the present road tax system, let trip is one not to be sought even by a perme say there has been more good roads son of strong constitution. Gardiner in perfecting press, and an enlarged paper, the built in the last two years of its existence Douglas county, twenty miles south of Post-Intelligencer takes its place as one of than in the forty years previous under the Florence, has a considerable number of residence, and is about 100 miles from Rose-

And still I have thought possibly, it berg, the county seat. While the new would be better for our county court to county would have a limited population drop the five supervisors and put it all into and small tax list, it could be conducted state, but were Texas as thickly peopled her the hands of one man. Let him be an en- economically, hesides the population is inpopulation would be about 25,000,000. Were gineer and have some knowledge of roads creasing steadily, and a convenient county Texas as numerously peopled as Massachu- and road work. Such a one could doubtless seat would be a strong inducement to setsetts her population would exceed by 10,- be had for \$900 to \$1000, and let him de- tlerm. The political part of the county 000,000 the total population of the United vote his entire time to road work. But, go would cut no figure as the new county. would be safely republican and the old counties would be left with republican majorities. It is entirely a question of finance. The coast part of Lane county has cost the county ten dollars for every dollar received
