AS TO THE FLOOD, DOCTORS DIFFER.

Some Think It Local to the Euphrates, Oth-

ers the Melting of the Ice Age. Suess, in 'Das Antlitz der Erde,' and Neumayer, in "Erdesgeschichte, have attempted to show that the Mosaic account of the deluge was copied with little from an original Assyrian version, and that it was a local flood which took place in the plains of the Tigris and Euphrates, not in the valley of the Jordan. In a recent number of Natur Wochenschrift, however, Herr Richard Hennig tries to prove that a general flood took place in the ice age

during the quaternary period. Many facts, such as evidences of glaciation and lowering of temperature, found in the rocks and in sagas and myths, as well as the vast extension of a great lake in the far west of America, whose level was 1,000 feet above that of the Salt lake, go to prove that floods accompanied the retreat of the glaciers. Countries in warmer latitudes-for example, the Sahara-were converted into seas and swamps or were locally flooded. Isolated lands kept clear of the inundation—for instance, Egypt—but we may remind Herr Hennig that, according to Herodotus, Egypt was formerly in great part a marsh.

It is curious to note, in connection with the glacial theory, that an old Aryan tradition tells of the "Aryans" having been driven from their original seat by the country becoming colder and the winter longer. The German flood saga tells that "the floods of the north came far from their home and were turned into ice, and the ice stood still, and the mist which hung over it froze. The sun warmed the drops, however, and Ymir of Hrimthursen, the frost giant in the form of a man, was born. Bors killed the giant, and in his blood the county nearly one thousand dollars. drowned the race of Hrimthursen except Bergelmir, who, in a boat, saved himself and wife, and from them sprang the new race of Hrimthursen. - London

Deafness Cannot be Cured. By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube, When this tube is inflamed, you have a rumbling sound of imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflamation can be taken out and this tobe restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but in an in-

SUMMORS.

In the circuit court of the State of Oregon for the county of Clackames. +8. Adam Quick, plaintiff, vs. Annie E. Quick, de-fendant

To Annie E. Quick, said defendant:

In the name of the State of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled suit on the third Monday in April, A. D. 189 being the 18th day of said month, and said day being the first day of the next regular term of said court, fellowing the expiration of the time prescribed in the order of publication of this summons made by said court. And if you fall to appear and answer said complaint plaintiff will apply to the court for the relief, demanded in the complaint, to-wit. You advocated retrenchment previous to our election, now, all the taxpayers ask of you is that you keep your word good.

Begin with the governor and take all the state and county officials and reduce the salary of every one of them one-third, which would be about on a par with the reduction which has been made in the price paid for labor, farm products and wages of mechanics.

Some office seekers and some office holders will oppose any such reduction, but bear in mind that the "in's" have the popu and democrats watching in order to make political capital for future use and your acts may lead to a political avalanche instead of a landslide and in all probabity after the next election a large share of those who hold office now will be tax growlers instead of tax grabblers as at present.

Again, I am confident there would be no fiffculty in finding any quantity of equally reliable and competent aspirants for the various positions in the gift of the people and who would serve at the proposed reduction fully as well as the present incum-

Again, it seems very strange to me that or marts of industry can pay their hands wages and to their proprietors big dividends while our solons have to vote the taxpayer's hard earned money to support a lot of able bodged eranicals who require no compensation but their meager fare and striped clothing.

A large share of there probably never conributed a dollar to the support of the goverument in taxes, but according to the Clackamas county grand jury bill they cost TAX PAYER.
