Successful School Entertainment—A Ladies Aid Society and Sunday School Organized.

REDLAND, Feb. 18.—Rev. Gillett closed the revival meetings last Friday night. The ministers whom he expected to come and assist him during the meeting failed to arrive for some reason and so Mr. Gillett has labored alone. However, his labors have been crowned with greater success than any one expected, having gained thirty converts during the twelve meetings. He called a special meeting last Friday afternoon at one o'clock to organize a Sunday school at Redland hall. Wm. Stone was elected superintendent, W. D. Berkley assistant superintendent, Mrs. L. D. Johnson secretary, Mrs. A. Boylan librarian, W. J. Johnson treasurer. Sabbath school at the hall every Sabbath at 10 o'clock.

The bidding was spirited and \$10.60 was realized from the sale. Miss Taylor is entitled to great credit and to the gratitude of this school district for the care and painstaking labor she has bestowed in making this entertainment such a pleasing success. The money will be applied to building a woodshed on the school grounds. Miss Taylor desires us

to express her thanks to all who so kindly assisted her in this affair and especially to the boys who so kindly and successfully assumed the burden of arrangements. The school will continue another term of three months with Miss Taylor as teacher. Rustic.

Park Place Literary Society.

PARK PLACE, Feb. 18.—On the evening of Saturday last the upper rooms of the Park Place school house were filled with an interested audience to attend the exercises of the literary society. The first thing on the program was a duet by Miss Katie Smith and M. as Daisy Rivers. The debate then took place. The woman's suffrage question was discussed jointly between Cross' logging camp debaters consisting of Mr. King, Jack Frost and Frank White and the Park Place debaters consisting of James Matheson, Winnie Dauchy, Fred Smith and Jesse Faubian. The logging camp debaters if they were from the backwoods proved themselves able to withstand the Park Place students. The judges rendered a wise decision when they gave their verdict in favor of the affirmative, or the side of the logging camp debaters. Although some of the Park Place boys discussed the question with sound argument, most of them aimed merely to make fun and jokes out of the question which they did to satisfaction. We thank the loggers very much for their kindness in debating jointly with us and hope they will take the opportunity to do so again before long. After the debate an excellent program was given by the young people of Park Place and some from a distance who kindly volunteered to take part. The program being very long the election of officers was put off until next meeting. The question for next meeting is "Resolved, That the world is growing better morally and intellectually." The leader of the affirmative is Mr. Hargreaves and of the negative Mr. Morris. As the hour was growing late the people adjourned of their own free will before the leaders had time to choose their assistants so they are not yet known. The question for next meeting is one of which a thorough discussion will be of benefit to us all and a good program will undoubtedly be prepared so all be sure and come. Sec.

We wait with patience the final action of our representatives in this matter.

Springwater Spray.

SPRINGWATER, Feb. 18.—The present change of weather from cold and dry east winds to the present chinook of the south is very agreeably accepted, as this continued dry weather seems to be very unhealthy for horses, of which there has been quite a number sick and some lost. There has been an epidemic, a kind of sore throat prevailing among most of the neighborhood which was very unpleasant but all are now feeling quite well. J. T. Shannon had a severe attack of lung and heart trouble, but is now feeling better. Webfooters can not stand too much dry weather.

Farmers are quite busy of late clearing up and making repairs to their orchards caused by the heavy sleet storm of January 3d and 4th, which done an immense damage to the orchards of this locality. The fine prune orchard of C. H. Guttridge is badly damaged, also the apple orchard of James Dubois, Carl Howell and others, but they are of those enterprising class of people who do not stop to grieve over such losses but go to work making repairs.

The house was crowded and with the exception of a few minor events which took place during the progress of the same the entertainment was a success. Credit must be given to some of the boys who seemed to be well "filled" for their orderly conduct and the way in which they presented their good manner, and also special credit should be given to some of Highland's "fair sex" who were present, for the orderly manner in which they conducted themselves. Books on good manners are for sale cheap.
