Warner Grange Prospering—A Debating Contest with a Supper as a Forfeit—Why Horses Have Stiffs.

New Era, March 24.—Rain again, but it can do no damage at present. If it continues cold and rainy for a long time it will certainly cause some gardens to be replanted.

Warner Grange 117 met at their hall in New Era Saturday. A small crowd was in attendance, there being only about twenty-five. The contest between the two literary leaders, George McArthur and Mary Waldron and their assistants, for the greatest number of credits to be gained was won by George McArthur and his followers. The side losing the contest is to furnish a grange dinner. The leaders for the next contest are Mary Waldron and H. A. Waldron, or the married people of the grange are to compete with the unmarried ones. The grange at this place is growing rapidly. The cause for the increase is the applicants for membership see the advantages to be gained. Eight new names were proposed for membership at the last meeting.

One of the ENTERPRISE correspondents asked last week for a cure for the "stiffs" in horses. I will here give my opinion of the disease or ailment. I have lived in Clackamas county ever since 1868, and my father was here sixteen years before me, and we have never yet had a horse with stiffs or staggers, and we never saw a horse with the stiffs in the summer time. So I lay the cause of the complaint to the condition of the stable and the lack of care and good treatment of the horse. In the first place the horse should have a good warm, clean, dry stable, with a good ventilation. He should have plenty of salt and water, and if fed on dry food should have potatoes or carrots three or four times a week. If a horse is driven until he gets warm and is then allowed to take cold when he stops that will help to bring on the stiffs as quickly as anything. When you hire a horse from a livery stable to drive out and be gone over night they always send blankets along to blanket him with. Did you ever hear of a livery stable horse dying with the stiffs? Carrying a horse saves considerable feeding and does him much good.

Thomas Blanchard has gone to work for a ranchman down on the Columbia for \$20 per month. Will be gone until harvest.

MILWAUKEE NEWS.

A Boy Killed by Being Thrown from a Horse—Work of Hoodlums—Successful Log Drive.

MILWAUKEE, March 25.—On the 18th instant the death of Johnnie Bogue, one of our esteemed rising young boys, mysteriously came about. It seems his pony had thrown him while riding to the near neighbors, but nothing could be noticed at the time of his return. Next morning he went to work as usual, but returned shortly, complaining about having the headache. Later on he was compelled to go to bed and began to have cramping spells in right knee and thigh, and by Sunday he was unconscious and could not tell what the difficulty was, but his limbs showed indications of having been bruised. He was assisted by the best medical aid obtainable, but in spite of all he was called away as a gem of the land to join the many who have gone before. His funeral services were conducted by Dr. Casto at the home residence. The doctor delivered an instructive address, full of pathos and sympathy. The body was laid to rest in the Graham cemetery on Wednesday, the 20th. Many friends were present, and they all extend the parents and family their kindest wishes and sympathy.

Sunnyside Smiles.

SUNNYSIDE, March 22.—Norris Davis had quite an exciting runaway last week coming down a hill a short distance from his home. The brake-pole broke throwing him from his wagon. The horses left him and ran past his home a short distance where they ran against a stump, breaking the wagon and harness, but it did not stop the horses; they ran on into the woods and stopped not the much worse for their run. Norris was not much hurt, but the wagon and harness were badly dilapidated.
