The way to build up Oregon City is to give Oregon City people your patronage.

FOR CREAMERIES.

The question of how best to diversify the products of their farms is the leading question with the farmers of Clackamas county now that wheat has come so low and hops become so uncertain in price.

There are many localities in this county where creameries could be made profitable. Nearly the whole county is first class grass land, and no difficulty is encountered in securing pasturage or an ample hay crop.

It can be charged that nearly half the creameries started in this state have been failures. It is a fact and the reason is apparent. All the creameries that have failed have been started in or near large towns like Oregon City.

But to the farmers who are at a distance from a large town and can neither market their hay nor milk to advantage, the creamery is a boon, for it consolidates their products so that freight rates cut no figure and gives a steady market at a fair profit.

DUTY OF MOTORMEN.

The rights and duties of the drivers of vehicles and the managers of an electric car as respecting each other were fixed recently by a decision of the full bench of the supreme court of Massachusetts.

Mr. Ellis was riding in a buggy with his daughter along Beech street, Lynn, when his horse became frightened at the sound of the motor and continued sounding of the gong of an electric car and ran away throwing Mr. Ellis and his daughter from the buggy.

It is a well-known fact that most horses are frightened at their first view of a moving electric car, especially if they encounter it in a quiet place away from the distracting noises of a busy city street.

a horse in the street before him that is greatly frightened at the car, so as to endanger his driver or any other persons in the street, to do what he reasonably can in the management of his car to diminish the fright of the horse, and it is also his duty in running the car to look out and see whether, by frightening horses or otherwise, he is putting in peril other persons lawfully using the street, on foot or with teams.

The defendant's exception was overruled, and accordingly the verdict of \$2,000 for the plaintiff was sustained.

DEAD TOWNS.

One Corvallis business house moved to other and fresher pastures on last Monday, and two or three others are preparing to follow suit.

The foregoing is from the Corvallis Times, and is a frank admission of the dullness that is afflicting that town. Corvallis is no worse off than many other towns of the state that are simply waiting for something to turn up and times to get better.

THE mortality among horses in this county during the past winter has been very high, what is called the "stiffs" and "staggers" being the alleged cause of so many deaths. In regard to the cause of these diseases the New Era correspondent of the ENTERPRISE doubtless diagnoses it very closely when he states that there would be fewer sick horses if farmers would take better care of them.

THE damage suit of Malcolm Bradley against Clackamas county, now on trial in Portland, involves a principle that is of much interest to the taxpayers of this county. Should Bradley win the case the county would soon be overwhelmed with damage suits, and the entire revenues of the county would not suffice to pay off all the verdicts.

THE chivalry of Alabama have placed themselves on record again in refusing better protection to women. A bill was introduced into the late legislature of that state to raise the age of consent from ten years to fifteen years, but it had so few friends that it never got out of the committee's hands.

THE report that Capt. A. T. Mahan is to be relieved from active service and detailed for the duty of writing a naval history of the civil war will be received with general favor. He is unquestionably the most capable man in the country for such a task, and the task is one that ought to be performed, as none of the present histories of the war convey a proper idea of the part which the navy played in that momentous contest.

THE school board of St. Joseph, Missouri, have made a rule and are having it rigorously enforced, prohibiting the attendance at school of boys addicted to cigarette smoking. Their argument is that the cigarette smoker is rendered incapable of keeping up with his classes, besides his bad habits are demoralizing to the other scholars.

THE Sunday Welcome celebrated its twenty-first birthday last week. The Welcome was established in March, 1874, and is one of the few papers of Portland that have survived more than eight or ten years.

THE DALLES CHRONICLE, using the school census of the city as a basis, figures out that The Dalles now has a population of 6,000. This is a good showing and proves that The Dalles has a healthy growth, and with the opening of the Columbia its growth will still be more rapid, for it has a young empire in territory to draw trade from.

THE St. Louis Globe-Democrat puts party fealty in the following terse manner: Let it not be forgotten in this off year that Democrats live to vote and republicans vote to live.

CARUS CULLINGS.

Pleasant Surprise Party—Sheep Herder Burned—Debating Society Closed.

CARUS, March 25.—Splendid rain and what was needed. Most of the farmers in this section are through sowing grain. Wheat and oats look fine.

Henry Hunter, of this place, who is taking care of their sheep in Eastern Oregon, met with quite a mishap a few days ago. During the night the tent in which he was sleeping took fire and he was quite severely burned about the hands neck and face, by the tent falling on him. His brother, Eldorado, started immediately to his assistance.

Mrs. R. M. Jones, of Oswego, was visiting her Carus friends. H. O. Inskip has two children sick with scarlatina.

There was a large attendance at the literary and debating society held at Union hall last Wednesday night. The question under discussion was "Resolved, That the railroads should be owned and controlled by the U. S. government." The leaders were John Thomas affirmative, John Burns negative, followed by E. H. Mack, B. Officer, Bud Smith, C. E. Knotts and George Mallatt. Judges John Molran, Fred Madison and H. A. Waldron who decided in favor of the affirmative two to one. The literary exercises were as follows:

- Reading "Hezekiah Bedott" by Irvine Wheeler. Song "Ta-ra-boom-de-ay" Bud Smith. Reading, Bro. Gardner & Lime Kiln Club John Burns. Song "Aunt Jemima's Plaster" B. Officer. Recitation, "Education and the Church" George Mallatt. Song "The Drunkard's Lone Child" Emma Fisher. Reading, "Mr. Gon's Horse" Alvin Phelps. Duet, "Rock-a-hy-Baby" Miss Lone and Bud Smith.
