### FRIDAY, MARCH 29, 1895.

### ANOTHER RAFT FOR SAN FRANCISCO.

Another raft is being built at Stella on  
the lower Columbia for San Francisco,  
the intention being to try this trip in the  
summer time when storms are few and far  
between, and thus avoid the disaster-  
ous fate of the two previous rafts. This  
raft will be towed down by a powerful  
ocean steamer instead of a tug, and by  
having it extra strong it is expected that  
the trip can be made safely. Some sev-  
enty tons of cable will be used binding  
the raft which will be cigar shaped. It  
will be nearly 400 feet long and will  
draw about twenty feet. In building the  
raft a cradle is used which looks some-  
thing like the frame work for the hull of  
a ship. The piling is lifted into it by a  
cane and steam engine. This system  
of slipping piling and logs has been em-  
ployed on the Atlantic coast where the  
logs were brought from Nova Scotia to  
Boston and New York; but owing to the  
stormy character of the Atlantic ocean  
the rafts often went to pieces. It was  
expected that the Pacific, being  
more quiet, would offer less risk to this  
method of handling timber, but so far  
the storms have been too much for these  
rafts and they went to pieces the first  
day out.

### A HOLD-UP IMPOSSIBLE.

Under orders of the county court, Trea-  
surer M. L. Moore has had his office put in such  
a shape that a hold-up and robbery would  
be impossible. A heavy tall counter  
has been put in extending across the  
room with but a door way left to pass  
into the back of the room where the  
safe is kept. This doorway is guarded by  
a heavy grated iron door with a strong  
spring lock to hold it. Extending along the  
top of the counter is an iron lattice work  
which effectually prevents an intruder  
from getting behind the counter. A glass  
panel has been fitted into the door  
opening into the hallway and electric  
bells connecting the office with those of  
the sheriff and clerk so that help could  
be summoned instantly. The entire cost  
has been less than \$100 and it is money  
well spent for it gives absolute safety to  
the county funds from all danger of a  
robbery by a hold-up.

### WASHINGTON COUNTY CREAMERY—It

appears from the Hillsboro Independent  
that the South Tualatin creamery is do-  
ing a good business and is proving a  
great thing for the farmers of that sec-  
tion. This creamery for the month of  
February, made and marketed 6155  
of butter and supplied only two-thirds  
of the orders placed with the Portland  
agent. To make one pound of butter  
21.29 pounds of milk were required.  
From one pound of butter fat 1.24 pounds  
were made. The net value of the butter  
fat for the month was 25.54 cents per  
pound. The milk netted the dairy man  
\$1 per hundred weight.

### CHANGE IN OWNERSHIP—The friends

of Hon. F. L. Mintie in this city will be  
pleased to learn that he is now sole owner  
of the Oswego lumber yard, he having  
bought out Inman, Paulsen & Co. of  
Portland. Mr. Mintie is a rising busi-  
ness man, and the success in his business  
is merited and comes of hard work and  
upright dealing.

### NEW TELEPHONES.

Owing to the strong  
induction from the electric light and  
trolley wires, the electro-magnetic tele-  
phones lately put in by the Oregon Tele-  
phone and Telegraph Co., have not given  
satisfaction, and the company will soon  
replace these instruments with the best  
long distance Bell telephones. With  
these instruments no induction however  
heavy will interfere with their working,  
and no difficulty will be experienced in  
conversing with Seattle, Spokane, or any  
other distant place. With these ex-  
pensive long distance telephones, fur-  
nished to subscribers at only \$2.50 per  
month, and no charge for switching, Ore-  
gon City is given as cheap a telephone  
service as any town in the United States.  
With the perfect service the company  
will now be able to give it is expected  
the number of instruments will be more  
than doubled in this city. They are a  
convenience and necessity that cannot  
be dispensed with by business men or in  
a residence.

### THE COUNTY'S GROWTH.

The mail  
service of a section is a good criterion as  
to its growth of population and business.  
Judging from this basis, Clackamas  
county must be growing faster than is  
realized by our people for there is not a  
mail route in the county but what has  
had an increase in the amount of mail  
matter handled within the past year.  
The Molalla route is one that has shown  
the greatest increase and notwithstanding  
there is a daily service, it is all one  
horse can do to carry the mail each trip  
and frequently, as was the case last  
Monday, another horse has to be se-  
cured to take out the extra mail. With-  
out boasting, but probably no other  
county in the state has made the solid  
growth the past year that Clackamas  
county has. The coming year will see a  
still greater increase in the wealth and  
population of our county.

### WASHINGTON TAXES.

Under the new  
law lately passed by the Washington  
legislature assessments will only be  
made on alternate years—the value to  
be estimated on the 1st day of April of  
the odd-numbered years. The penalty  
for delinquency in payment of taxes is  
reduced to two per cent, and the inter-  
est is placed at 12 per cent, per an-  
num, with the proviso that if one-half  
the tax be paid on the 31st day of May,  
then the remaining half may be paid on  
November 30th following, but if said re-  
maining half is not paid on or before  
that date, then such balance shall be  
subject to penalty and interest from the  
31st day of May preceding until paid.  
The delinquent taxes of 1892 and 1893  
may be paid on or before July 1st, 1895,  
with a rebate of penalty and interest,  
which amounts to 45 per cent, of taxes  
of '92 and 25 per cent, on those of the  
succeeding year.

### POTATOES FOR THE SOUTH.

Tuesday  
morning a carload of potatoes left Oregon  
City for Galveston, Texas. They were  
shipped by F. T. Barlow, the well known  
merchant of this city. He will ship  
another carload Monday, and at frequent  
intervals thereafter so long as the market  
will justify. This is the first potatoes  
ever exported out of the state other than  
to California from this city, and indicates  
the beginning of a new era to our farmers.  
When the people export as much as they  
import there will be fewer bankrupts  
among our farmers and a prosperity will  
come to Oregon that will be permanent.

### LEARN SHORTHAND AT HOME.

Miss  
Emma L. Dickenson, a graduate of the  
Portland Business college, will organize  
a class in shorthand at Mr. Dye's office  
on Monday, Apr. 1, at 7:30 p. m.  
Law and high school students, working  
people and teachers can join this class  
and by taking three lessons a week, soon  
master this valuable art. Miss Dicken-  
son is an expert stenographer and a  
first-class teacher. Terms to suit the  
times.

### The exposure to all sorts and conditions

of weather that a lumberman is  
called upon to endure in the camps, often  
produces severe colds which, if not  
promptly checked, result in congestion  
or pneumonia. Mr. J. O. Davenport,  
ex manager of the Fort Bragg Redwood  
Co., an immense institution at Fort  
Bragg, Cal., says they sell large quanti-  
ties of Chamberlain's Cough Remedy at  
the company's store and that he has  
himself used this remedy for a severe  
cold and obtained immediate relief. This  
medicine prevents any tendency of a cold  
toward pneumonia and insures a prompt  
recovery. For sale by G. A. Harding,  
druggist.

### Weather for April.

The following data, compiled from the  
weather bureau records in Portland  
cover a period of 23 years for the month

interest in anticipating the more impor-  
tant meteorological elements, and the  
range within which such variations may  
be expected to keep during the coming  
month:

### America's Greatest Humorist.

Eli Perkins is the most philosophical,  
the most humorous and the most enter-  
taining orator on the platform. He has  
lectured to hundreds of our great  
colleges, churches, Young Men's Chris-  
tian associations and star lecture associa-  
tions. The W. T. lecture bureau writes:  
"This lecture of Eli Perkins was the  
sensation of the year. It is full of  
philosophy, eloquent oratory and start-  
ling christian thought and keeps the  
audience thinking and screaming with  
laughter for two hours. It is indescrib-  
able." Mr. Perkins is a member of the  
American association for the advance-  
ment of science and has been elected  
vice president of the Corpus Christi  
Chautauqua assembly. Eli Perkins (Mel-  
ville D. Landon) will lecture at Shively's  
opera house, April 2d, subject, "Philo-  
sophy of Wit and Humor" and "How to

### When Ponce-de-Leon sought to find

The fountain giving back lost youth,  
It might be that he had in mind  
That draught which seems to make  
a truth,

### Out of the fable ages old,

For drinking of it the old grow young;  
It is indeed a draught of gold,  
Surpassing all by poets sung.  
The draught ment is Dr. Pierce's  
Golden Medical Discovery, of course.  
It is a most potent rejuvenator of the  
weakened and debilitated system. It  
drives out all poison, all impurity, en-  
riches the blood and makes the old and  
worn out feel young and vigorous.  
Ponce-de-Leon didn't discover it, but Dr.  
Pierce did, and he rightly named it when  
he called it a "Golden Discovery."

### Dr. Pierce's Pellets cure permanently

The physician who prescribes for  
you understands perfectly well that  
he cannot be too careful. The more  
thoroughly he understands the art  
of healing, the more thoroughly  
he appreciates the necessity for  
caution. It is almost superfluous  
to say that the druggist to whom  
you take your prescription, should  
exercise at least a corresponding  
degree of care. If he fails to do  
this, medical attendance may be  
rendered valueless. You can have  
as much confidence in the prescrip-  
tions we fill for you as you could if  
you were competent to fill them  
yourself and did it.
