M. F. Prindle, who was sentenced to one year's imprisonment in the county jail for indecent exposure, was examined as to his sanity before County Judge Hayes, and was pronounced of unsound mind. He was taken to the state insane asylum by Sheriff Maddock last Friday. Young Prindle was raised in this county and formerly lived at Stafford. He has always borne a good reputation, and it is unfortunate that his mind is affected. His parents live in this city and are estimable people.

Considerable time was taken up Tuesday with the case of W. A. Scoggan, charged with setting fire to his barber shop on Main street with malicious intent. There was no direct testimony to show that he had set fire to the building, and besides he was very much intoxicated at the time. There was a disposition on the part of some persons to send Scoggan to the penitentiary, if possible. His attorneys were George C. Brownell and G. G. Rinearson, and the former made an eloquent plea in his defense before the jury. Scoggan has an excellent family, and he was fortunate in escaping a probable seven years sentence in the Oregon penitentiary. He will probably profit by his narrow escape and be more careful in the future. The jury, after being out about twenty minutes, returned a verdict of not guilty.

The case of Oregon City vs The East Side Railway Company, came up for a hearing Tuesday. City Attorney E. F. Driggs had brought suit to forfeit the company's franchise in this city for the reason that they refused to pay their Main street assessment. The case was argued on a demurrer filed by the attorneys of the defendant corporation, and was taken under advisement by the judge. E. F. Driggs and L. L. Porter, represented Oregon City in the battle of argument against the corporation railway attorneys, Fred V. Holman and Cleland & Cleland.

J. A. Louismont was on trial yesterday, accused of the larceny of some tools from a shop. He was defended by G. C. Brownell and G. O. Rinearson. Tuesday Hannah Chapman filed a complaint, though her attorney, G. O. Rinearson, praying the bonds of matrimony existing between herself and E. C. Chapman be cut asunder by a decree from the circuit court for Clackamas county. The residence of the Chap-

mans is at Clackamas, but the defendant is at present employed in the state insane asylum. They have been married nine years, and she alleges infidelity on the part of the husband.

The court will probably adjourn tomorrow until June 3rd.

The Mechanics' Mill.

C. C. Robbins and T. S. Lawrence have purchased the Oregon City Door and Sash factory from the assignee, C. O. T. Williams, for the consideration of \$1000. The institution will be known hereafter as "The Mechanic's Mill." They are now running a force of five men, and manufacturing sash and doors of every style, mouldings, turning, and mill work of all kinds. Mr. Robbins has been foreman of the Oregon City Door and Sash factory for some time past, while Mr. Lawrence has been boss carpenter. Both gentlemen are well and favorably known to the citizens of Oregon City, and Mr. Robbins is almost an old resident, having been here for 16 years. They will no doubt succeed in building up a flourishing business, as they already have orders enough on their books to keep them busy for 30 days. They have orders for mill work for three cottages to be constructed by H. L. Kelly, and a dwelling for Frank Fushburg at Bolton.

John T. Myers and Clarence Swick, of Lacey, called at the ENTERPRISE office Tuesday. Mr. Swick is preparing to engage extensively in the manufacture of brick, and will open one yard at D. C. Howell's place, in Springwater, and the other one on the Epperson place, at Sandy. They state that H. C. Valentine has removed his sawmill to Mr. Myers' place, where he has facilities for making the best lumber in that section of the country. These gentlemen state that the fruit prospects were never better, and as yet there are no indications of caterpillars or other pests.

B. Hendrickson, of Mount Pleasant, left a specimen of black rye at this office last Tuesday that measures nearly six feet in length. This rye was sown last fall and has made a splendid growth. Mr. Hendrickson pastured his chickens on the rye all winter and no injurious results were observed. He now cuts the rye as required and chops it up fine and feeds it to his horses, hogs and chickens with the most favorable results. The specimen left at this office has not yet reached its full growth and the heads are not fully grown.

Horace C. Meserve, infant son of Charles and Louise C. Meserve, died in this city Monday morning, April 29, of spinal meningitis. The remains were taken to Clatskanie Tuesday for burial in the family burying grounds, accompanied by the sorrowing parents and Misses Mary and Nora Conyers. The child was aged 6 months and 29 days, and had only been seriously ill for about two weeks.

The Y's will give a parlor social at the home of Mrs. Clinton Latourette, next Saturday evening, May 4. A very entertaining program has been prepared and an enjoyable time is expected. The refreshments will consist of cake and cold water (with lemons). All the young people of the town are invited. Admission free.

Dr. S. F. Scott, Blue Ridge, Harrison county, Mo., says: "For whooping cough Chamberlain's Cough Remedy is excellent." By using it freely the disease is deprived of all dangerous consequences. There is no danger in giving the remedy to babies, as it contains nothing injurious. 50 cent bottles for sale by G. A. Harding, druggist.

The full bill of fare, well cooked and well served, is placed on the table at the Farmers' Home hotel. The best market affords is provided and Mr. and Mrs. Sumner endeavor to give full value in all meals served. Remember the place, opposite the court house.

County Judge Hayes went to Canby Tuesday and viewed the work being done on the road between Canby and the Good bridge. He states that they are doing an excellent job of graveling. Road Engineer Kinnaird is looking after the roads in the vicinity of Marquam.

Prof. L. W. McAdams, principal of the Eastham school, gives notice that he has appointed Wednesday as visiting day for parents or guardians of pupils attending the school, at which time the teachers and pupils will be pleased to see them.

Rev. J. W. Cowan, D. D., will discourse at the First Congregational church next Sunday evening on the subject, "The Armenian Massacre, and America's responsibility with reference thereto."

The program of the State Sunday school convention has been received at this office. Mrs. C. H. Dye conducts the devotional service on Wednesday evening, on the second day of the convention.

Work is slowly progressing on John Schram's new building, next to Krausse Bros. shoe store. The structure will be 56x22, two stories high, and will cost something near \$1000.

The 12-year-old son of P. F. Morey was thrown from a horse Saturday and trampled upon. Dr. Carl was summoned, but the injuries were discovered not to be serious.

Assessor Bradley informs the ENTERPRISE that he will complete the work of enumerating the inhabitants of Oregon City in about three days more.

OREGON CITY VICTORIOUS.

State Teachers' Association To Meet With the Chautauquans.

Oregon City has reason to congratulate herself and wake up to her opportunities. On Tuesday of this week State Superintendent Irwin and President Chapman, of the State University, were in the city conferring with the Chautauqua Association in regard to a joint meeting of the two associations at Gladstone Park, July 10-20. This decision was not reached hastily or without due consideration. A committee from the Chautauqua first presented the matter at the Teachers' Convention at Portland last winter and the suggestion was received with favor. But other places were in the race, notably Hood River, Yaquina Bay and Gearhart. At one time the case seemed lost but upon discovering the energetic action of the Chautauquans in marshalling an array of talent surpassing anything ever before attempted in Oregon, the subject came up again for consideration. One tremendous factor in favor of Gladstone Park was its proximity to the centers of population and the transportation facilities surpassing those of either of the other places.

Of the 2500 active teachers of the state it is estimated that nearly 800 of them will attend their annual meeting, perhaps more, now that the meeting will be in connection with the Chautauqua Assembly. The teachers here will have the benefit of the best talent on the Pacific coast.

The question of an auditorium is now of paramount importance as the old auditorium would be inadequate in case of a shower. It has been suggested that this be roofed over, but the plan that meets with most favor is that a light summer house of capacity to seat several thousand people on the raise overlooking the lake, to become the permanent property of the Chautauqua. The expense will not be great and the advantages are too numerous to be overlooked. Oregon City has an opportunity to outdo anything in her past history as the seat and center of the educational forces of a great state. Already inquiries are coming in for camping spaces, the cyclists of the state are planning for a great tournament in connection with the Assembly and the prospects are that tourists from every direction will make this their Rome in July. Conferences are in progress with all the transportation lines of Oregon, Washington and California. It is believed from the nature of the case that unusual terms will be granted.

City Council Meeting.

The city council met in regular session Wednesday evening, and spent a great deal of time discussing the collection of delinquent Main street assessments. Mayor Straight, Recorder Fouts, Chief of Police Burns and all the members of the council were present. In several instances it was decided to accept secured notes at three and six months time drawing ten per cent interest, subject to the approval of the mayor, recorder and treasurer. A motion was carried that matters of error pertaining to the Main street delinquent assessment, be referred to the committee on streets and public property. Motion carried that the finance committee prepare an ordinance declaring a rebate on the Fifth and Main street assessments when paid in full. Complaint was made that the sewer on Jackson street, leading from the Eastham school was broken, and the street committee ordered to have the same repaired. The usual grist of bills were allowed, and a committee reported that they had engaged L. L. Porter and J. U. Campbell as attorneys in the suit brought by A. G. White against the city. On motion the city engineer was instructed to submit plans for cleaning sewers.

Ordinances were passed to prevent loafers from hanging around the railroad depot, and fixing quarantine regulations for contagious diseases. An ordinance was ordered published against throwing glass or rubbish on the streets or sidewalks. The subject of the improvement of Seventh street was taken up and vitrified brick found to be too expensive. Some cheaper method of improvement will be considered.

The Overland for May will contain an historical paper of interest to all who study the political institutions of our country. It is from the pen of Col. E. Hofer, editor of the Salem Capital Journal, who contributed a paper to the Overland on the Oregon election. He now describes, from the standpoint of one who took part, one of the most exciting and hard fought contests for a senatorship recorded on the Pacific Coast.
