

# CLACKAMAS COUNTY

## THE ENTERPRISE CORRESPONDENTS SWEEP THE FIELD.

### Children's Day Will be Observed at Redland—Fruits and Grain Look Well—Neighborhood Sickness.

REDLAND, May 29.—Rain, rain, and still it rains, though the ground is soaked and certain garden stuff begins to have a bleached look. Farmers begin to cry "enough!" The ground is sufficiently wet for all plowing purposes and 'tis getting late.

Strawberries are beginning to ripen, Mr. Johnson taking the first to market yesterday. The crop promises to be a fair one, while all other small fruits promise an abundant yield.

Grain is looking well, and certainly there is moisture enough to insure a good hay crop.

Children's day will be appropriately observed at Bethel church on Sunday, the 9th inst. An elaborate program is being prepared, and a pleasant time is assured. The M. E. Sabbath school will join the other in the exercises, which will commence at 2 o'clock P. M. The pastor, Rev. Kirkhope, will be present to assist.

Last Monday being the sixteenth birthday of Miss Lydia Cutting, her young friends gave her a pleasant surprise party. With merry games the time sped quickly away till the wee small hours when the happy crowd departed with many good wishes for their young hostess.

There is still a good deal of sickness in the neighborhood. Dan Evans has been confined to his bed for some weeks with what he supposed was measles. Charles Cutting, Mrs. Mosher, and others, are also on the sick list.

Mr. Kretchevsky and family have moved back here from Portland. Rustic.

### STAFFORD STAFFS.

#### Frog Pond and Stafford Schools Will Give an Interesting Program Decoration Day.

STAFFORD, May 24.—"A little rain, now and then, is relished by the best of men," and it has come now, just between hay and grass, as it were, and the grass and grain are putting on an added green, and gardens are taking a step forward, while hops grow like weeds, and roses are coming into such full bloom that we shall have an abundance for Decoration Day. The schools of Stafford and Frog Pond, under the able management of Mr. Bert Beattie of Oregon City and Miss Laura Thompson of Tualatin, are making preparations to appropriately celebrate the day by marches, speeches, songs and recitations.

Cherry trees hang very full of fruit, but there will be but few peaches. Strawberries are ripening and there will be a full crop.

P. A. Baker keeps steadily at work mending our highways, grubbing here, plowing there, scraping, putting in needed culverts, etc., etc.

The general health of the community is very good again.

The infant son of Mrs. Henry Shrader was buried last Friday. It had never been a healthy child, and we understand was cutting teeth. The mother has also been very sick.

The new buildings in this vicinity are nearing completion.

Johnnie Beichle, who attends the school for the deaf and dumb at Salem, has returned home for vacation. He is a bright boy, and there is always rejoicing in the family and among the school children when he comes back.

Miss Lydia Beichle and her friend, Miss Rosa Weiser, are down from Salem on a visit.

Miss Ollie Gage, who was kicked just above the ankle a week or two ago, was hurt more seriously than at first supposed, as the bone seems to be fractured slightly, though she still continues her school in the Shipley neighborhood. It will be remembered that she was hurt in a runaway accident, caused by the hold-back snap breaking, while coming down Shipley hill, letting the buggy upon the horse, which caused him to kick through the dash-board, one hoof hitting her and the other her father, who was driving.

Mr. Moser is hatching chickens by the wholesale now with an incubator. John Schewe has just finished a brick building for him.

Mr. Beichle has been blasting stumps.

We think times are changing for the better. One sign is that there are not as many men coming along asking for work.

Mrs. Woodruff's niece from East Portland is making her a short visit.

We think the bicycle riders might make it pay to come out this way with their Sunday Oregonian, and so on to Aurora. The roads are good.

May 27.—Whoop! but aint things looking green, though? Some clover fields have begun to blossom. Flowers in the yards are in their prime, and garden peas, corn and potatoes are looking splendid.

It is reported that Oscar Whitten, of Hazalla, has led out in the harvesting of grain, his rye having got ripe and was gathered last week.

John Gage, Jr., returned home Saturday after a fortnight's sojourn in Tillamook county. He made the trip in from the "briny deep," with horse and buggy, in less than sixteen hours travel, which would lead us to stay-at-homes to believe that it would be possible to go and return without being gone forever. He reports the people there as being somewhat backward this season with their crops, and most all enjoying good health, barring colds.

Mrs. Bentler has returned home after a few days visit at Jefferson.

F. Neibauer's 10-acre patch is most ready for the plow, he having had it cleared for the small sum of \$6.50 per acre, the men furnishing their own tools and board.

Wm. Neibauer, of Portland, visited his parents Sunday. Wz Usa.

### Harmony Notes.

HARMONY, May 24.—Indications are now that there will be an abundant crop of most all kinds of fruit. A recent hail storm, however, damaged it somewhat in different parts of our neighborhood. The hail is reported to have been an inch deep in some

places while in the immediate vicinity it barely hailed at all.

The strawberry crop appears to be about all that could be expected. It has begun to ripen, and a few have already been sent to market.

The fall and spring grain crops all appear to be in a good condition.

Road Supervisor Roots has been grading some of the roads in our vicinity, which will make them better for the summer travel. About \$150 have been subscribed in work to clear out the Price-Fuller road for one mile, beginning at the school house and running north-east to Mr. Kame's, where it connects with the main road to Portland. The subscription in the shape of a petition is to be sent to the next term of the county court, where, it is hoped by those who have subscribed, a like amount will be allowed in money. If this is done it is probable that the road can be graded, and as there is comparatively but little travel on this road it would probably suffice to make it a good road for all seasons of the year.

### A BUILDER TALKS.

#### A Great Sufferer For Years—Cured in Two Weeks.

#### A. N. Tompkins, of Oregon City, Relates a Wonderful Story.

A representative of the Oregon City Enterprise visited Mr. A. N. Tompkins, the well known carpenter and builder of Oregon City, and finding him hard at work, asked if he was the man who had been ill of rheumatism. Receiving an affirmative answer, the reporter asked if he would have any objections to making a statement of his case, how he was cured, etc., for the benefit of the public.

"No objections at all," said Mr. Tompkins. "I have suffered with lumbago for years. Having bad spells off and on. Some times it would lay me up entirely. Whenever I did any heavy lifting, or got wet or caught cold, I would have a bad spell. Sometimes I would be so bad that I could not straighten up. I tried about all kinds of patent medicines I heard of, in fact, was always reading advertisements to see if I could find anything on which I could count for certain relief, if not absolute cure. I tried many physicians, one nearly succeeded in making a morphine fiend of me by injecting morphine into my body to relieve the pain he could not cure and was not honest enough to admit. All these medicines and doctors did me no good, some even as in this case, doing me harm.

"While working on the Barclay building some months ago, I had an attack. I immediately went to Charman & Co.'s drug store and bought a porous plaster, and while there I picked up an advertisement of Dr. Williams' Pink Pills for Pale People. Here was something that promised relief. I found a statement by one Marshall, somewhere in New York, which impressed me. I thought quite seriously about it, but started out without purchasing any of the new remedy. Outside the store, however, I stopped and thought about it again. Then I went back and told Mr. Charman to give me a box of the Pink Pills. It was only 50 cents anyway, and I had spent a good many times that trying to find a cure and I might as well try another one, the pills could not do me any harm if they did not cure. Having bought them, I commenced taking them at once, and after the first day I experienced relief, and in two weeks I was entirely well. I had in that time used part of the second box. Being at the home of my daughter-in-law, Mrs. Lena Tompkins, and hearing her complain of rheumatism I gave her the balance.

"Now, I have worked right along, and in spite of the present wet weather (this is the midst of the Pacific Coast rainy season, Ed.) and the fact that I have a heavy cold just now, I have no indication of the presence of my old disease, and any one of the three things (heavy work, wet weather, and a cold) which I now have combined would have given me a bad spell heretofore. I consider Dr. Williams' Pink Pills a great remedy and I believe they have absolutely cured me. At least, if they have not, it is only a question of continuing the remedy long enough, and if I ever have a return of the pain I shall fly to Pink Pills."

Dr. Williams' Pink Pills are not looked upon as a patent medicine but rather as a prescription. They have been used as such in general practice for many years, and their success in curing various afflictions without any other medicines was so great that they were prepared in quantities and placed within the reach of every one. An analysis of their properties shows that they contain, in condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexions and the tired feeling resulting from nervous prostration, all diseases resulting from vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. They build up the blood, and restore the glow of health to pale and sallow cheeks. In men they effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature.

These pills are manufactured by the Dr. Williams' Medicine Company, Schenectady, N. Y., and are sold only in boxes bearing the firm's trade mark and wrapper, at 50 cents a box or six boxes for \$2.50, and are never sold in bulk. They may be had of all druggists or direct by mail from Dr. Williams' Medicine Company.

### Mulino Mites.

MULINO, May 29.—For the past two days we have been having a heavy, cold rain storm coming from the south, which makes it uncomfortably pleasant for the sheep that have just been sheared.

Mr. Wallace is commencing a dwelling house on his land one mile east of Mulino. Lee Jones will soon commence building a barn on his lot in Mulino, as part of the lumber is on the ground.

Fred Pembroke is going to work for Ben Linn.

The hop lice have made their appearance in the yards. Otherwise the prospect for a large crop is very flattering.

We will have plenty of fruit in this neighborhood this year.

### NATIVE SONS AND DAUGHTERS.

#### A Preliminary Organization Effected in Oregon City.

A number of native sons and daughters of pioneers met at the residence of Mrs. G. A. Harding last Thursday evening for the purpose of discussing the advisability of organizing an association. On motion of H. E. Cross R. A. Miller was elected temporary president, and Mrs. G. A. Harding was elected temporary secretary. Short addresses were made by Col. Miller, H. E. Cross, G. O. Rinearson, J. E. Hedges and others, all earnestly favoring organization. Col. Miller had been president of a similar organization in Jackson county, which met annually with the county pioneer association. After some discussion committees were appointed to arrange plans toward a permanent organization, as follows:

Constitution and by-laws: J. E. Hedges, G. O. Rinearson, F. L. Charman, Mrs. G. A. Harding, and Mrs. Mina Kelly.

Permanent Organization: H. E. Cross, R. L. Holman, K. H. Gabbert, Mrs. J. E. Hedges, and Charles Caufield.

Canvassing committee: D. C. Latourette, Hiram Straight, C. O. Albright, Mrs. T. W. Clark and Miss Lou Clark.

It was decided to hold a meeting at the residence of Mrs. G. A. Harding next Saturday evening, to hear the report of the committees and effect a permanent organization.

Among the objects of the association are the cultivation of a more friendly feeling between native sons and daughters; to keep in reverence the memory of the early struggles of pioneers in the settlement of this country; to preserve relics and obtain historical facts concerning the early history of the state; to encourage the organization of native sons and daughters in other counties in the state, and to form a state association of these organizations; to act in conjunction with the pioneers of the state in associations, and to help to properly observe Pioneer and Native Son's Day at the meeting of the Willamette Chautauqua assembly in July. The dues will probably be placed at fifty cents per annum, which will include the initiation fee. Senator McBride has been invited to be present at the meeting Saturday night, as he is the first native born United States senator from Oregon. No county in the state affords more pioneers connected with the early history of the state, than does Clackamas, and it is important too, that they should form an association to work hand in hand with the native sons and daughters. Here the first settlements were made in Oregon, and no part of the state is so rich in historical lore and relics of the aborigines of the Northwest. One of the objects of this association will be to establish and preserve a museum of relics. Last Thursday evening Mrs. G. A. Harding exhibited a stone head, well made, that had evidently been the head of a stone idol in possession of the Indians at one time. It was found on the Abernethy, and had likely been broken of the main body of the image at some remote time.

### FROM MOLALLA.

#### Death of Mrs. Alice May Dart on May 25—Other Notes.

MOLALLA, May 27.—Three inches of grain fell the past three days, a damper on camp meetings and picnics. The Governor of the Universe has been doing some good spraying, sprinkling and ponding lately, simply with pure cold water. The special "silver spraying" (some have it sulphurous) for the "goldbug," will be applied further on, when the "yellow" fruit is further advanced.

Dr. Leavitt's barn is ready for shingling. It will be a solid structure when completed. Grain generally looks well in this locality. Grass and garden truck could hardly do better; fruit prospect is fine; wild strawberries prime and bursting.

That Portland League that knocked out "Free Silver," last week (?) sounds much like unto that "cut and dried" assurance that was proclaimed by the Oregonian previous to the Bolph defeat.

Died, May 25, Alice May Dart, wife of Edward K. Dart, leaving a son thirteen months old, a daughter ten months old, and a devoted husband. Deceased was born in Doniphan county, Kansas, in 1872, and came with her parents, G. P. and Nancy Eich, to Oregon in 1875. When 13 years of age she professed Christ, and lived and died a consistent Christian. A kind mother, a devoted wife and a warm friend, she will be sadly missed in the home and neighborhood. The remains were buried in the C. C. cemetery. The grave was covered with flowers. J. W. T.

### Letter List.

The following is the list of letters remaining in the post office at Oregon City, Oregon, 1:30 P. M., May 29, 1895:

### MEN'S LIST.

#### Fertilizers For Grain Crops.

Experiments conducted under the auspices of the Ohio station and in various sections and covering several years justify at the present date these conclusions:

The use of superphosphate and potash, separately or in combination, but without nitrogen, has frequently caused a loss of rain in crops of corn and wheat on soils deficient in vegetable matter.

The yield of straw or stalks has almost invariably been increased by the use of superphosphate.

The use of superphosphate has frequently and that of potash has occasionally been followed by a considerable increase of crop, both of grain and straw or stalks, on sod ground or land containing an abundance of decomposing vegetable matter.

An increase of grain in the crop has generally followed the use of nitrate of soda, and this has happened in almost every case when the nitrate has been used in combination with superphosphate or potash.

When a complete fertilizer has been used, containing both phosphoric acid and potash, in combination with nitrogen, the phosphoric acid being carried in less active forms than bone black superphosphate, an increase of crop has resulted in practically every case, but at present prices of fertilizers and grain respectively this increase has invariably cost more than its value in the market.

While, therefore, these experiments demonstrate the possibility of producing a regular and certain increase in the yield of cereal crops by the use of a complete chemical fertilizer, yet they show that (if such fertilizers are to be used with any prospect of profit in Ohio in the production of cereal crops and as a part of a regular system of agriculture) that system must provide for the accumulation in the soil of the largest possible quantity of organic nitrogen through the culture, in short rotations, of plants which have the power of obtaining nitrogen from sources inaccessible to the cereals.

#### Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. For sale by Charman & Co., Charman Bros Block.

#### May Do As Much For You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures, but without any good result. About a year ago he began the use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure all liver and kidney troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c for large bottle. At Charman & Co.'s drug store, Charman Bros. Block.

#### An Absolute Cure.

The Original Abietine Ointment is only put up in large two-ounce boxes, and is an absolute cure for old sores, burns, wounds, chapped hands and all skin eruptions. Will positively cure all kinds of piles. Ask for the Original Abietine Ointment. Sold by C. G. Huntley, at 25 cents per box—by mail 30 cents.

The ENTERPRISE is the only newspaper in Oregon that gives a cash premium to those paying their subscription in advance.

W. T. Sanford, Station Agent of Leeper, Clarion Co., Pa., writes: I can recommend One Minute Cough Cure as the best I ever used. It gave instant relief and a quick cure. C. G. Huntley, druggist.

Doctor H. R. Fish, of Gravoys Mills, Mo., a practicing physician of many years experience, writes: De Witt's Witch Hazel Salve has no equal for indolent sores, scalds and burns. It stops pain instantly, heals a burn quickly and leaves no scar. C. G. Huntley, druggist.

Ladies hair trimmed in the latest style at Sloper's barber shop.

#### What Decided Him.

"It's no use," said the poet to the barber, "I will have to get my hair cut."  
"All right. Want it pretty short?"  
"Close up. I want the job attended to thoroughly."  
"Long hair ain't in style any more," ventured the barber in an effort to be genial.  
"It isn't the style I care for. Just a few minutes ago I was introduced to a man and he said, 'Which do you play, football or the piano?'"—Washington Star.

#### His Wife's Name.

An old farmer, intent on making his will, was asked by a lawyer the name of his wife, when he gravely replied: "Well, indeed, I really don't recollect what it is. We've been married for upward of 40 years, and I've always called her my old woman." The lawyer left a blank to be filled up when his old woman's name was ascertained.
