FRIDAY, JUNE 21, 1895.

MOTHERS AND THEIR BOYS.—The auditorium of the Congregational church was pretty well filled last Sunday evening to hear Dr. Cowan discuss the topic: "Oregon City Mothers and their Boys." A number of extracts of letters were read from business men in the city, who were non-church members, on the subject, which had been written by special request, and expressed diversified opinions in some respects. The saloon and gaming table were the evils most frequently mentioned. Cigarette smoking, not giving boys proper amusements at home, and allowing them to run around town on evenings and Sundays, also received their share of attention from the different correspondents. One writer said there were only two saloons in the city that did not have rooms fitted up where gambling was carried on, and he considered this the greatest evil to contend with in raising boys. Another writer considered the cigar stores where card playing is permitted, worse in their evil effects on the young than the saloons. One correspondent said there were so many loafers standing on the street in front of the saloons, that it was hardly a fit place for a lady to pass along. Many were the hints given of how to raise up the boy in the way he should go, and the comments were practical, but the doctor said he did not believe that Oregon City was so bad as some of his correspondents had painted it in their letters.

SPECIAL COUNCIL MEETING.—There was a special meeting of the city council Tuesday night, Mayor Straight presiding, a majority of the council and Recorder Fouts present. The session was a short one, and the business before the meeting was soon disposed of. A motion was carried that George Broughton be appointed a committee of one to employ an attorney in the Andronicus Clark habeas corpus case. The chief of police was directed to notify all parties to desist from using the sidewalk for storage purposes, and the matter of the appointment of a street cleaner was referred to the street committee.

FOR A WRIT OF HABEAS CORPUS.—As a sequel of the recent trouble between city Prosecutor Driggs and Recorder Fouts, Adirondicas Clark is now in the city jail serving out a fine \$25 for gambling. When arranged before Recorder Fouts he plead guilty of the charge of gambling, and a fine of \$25 was imposed, which a friend went security for, and he escaped confinement for the time being. The money for the fine was paid over to City Prosecutor Driggs, and

he offered to turn the money over to the recorder, after deducting \$10 for city attorney's fees, but the recorder declined to receive the money unless he could get the full amount, as the new city charter required him to turn all money over to the city treasurer, and the council to make all disbursements. The city prosecutor claimed that it had always been the custom here for court officers to retain their fees out of fines, and declined to pay over the entire amount. This resulted in the trouble, which has heretofore been mentioned in these columns, and last Saturday Recorder Fouts issued a commitment and Clark was lodged in jail. Tuesday O'Neill, Hedges, Thompson & Griffith as attorneys for Clark applied to County Judge Hayes for a release of the prisoner, and by consent of the interested parties the matter was postponed until next Tuesday. L. L. Porter has been appointed to represent the city in the matter.

LAND CONTEST.—A very complicated land contest case occupied the attention of the United States land officials the greater part of last week. M. L. Jones who lives on the Willamette river about six miles north of Salem, purchased from the state a small tract of land adjoining the farm on which he lives and cultivates, as school land, but for some unexplainable reason this tract of land remained on the maps at the land office as vacant. It was about fifteen years ago that Jones secured this land, with title from the state, and proceeded to fence and place the same in cultivation. Two years ago Thomas J. Arthur discovered that this piece of ground was marked vacant on the flats in the land office, and J. T. Apperson, who was register of the land office at that time, permitted him to file a homestead on the piece of improved land in question. Mr. Jones brought suit against Arthur in the state court to establish his title to the property, and received a favorable verdict, but the latter still had a claim on the improved possessions of the former by virtue of a homestead entry in the United States land office. Mr. Jones now brings suit before the land officials to cancel Arthur's homestead entry, in order that he can take up a homestead on occupied premises that he purchased from the state. Mr. Jones desires to homestead the land himself, so as to settle any claim the United States government has to the land. Numerous witnesses were examined and further consideration of the case postponed until next November.

CHARGED WITH MURDER.—For some time Sheriff Maddock has been diligently working on clues that had a possibility of the result of ferretting out the murderer or murderers of James Brown, who was killed in his cabin near Willhoit, about the first of January. As a result Frank Hawn was quietly arrested and brought to town Saturday evening and lodged in the county jail. He was brought before Justice Dixon Monday morning and his preliminary examination set for Friday, June 21st. The officers are somewhat reticent in saying such about Hawn's arrest, but hint some developments may come to the surface within a few days. It has been disclosed that the prisoner is not directly accused of committing the crime, but it is believed that he is criminally connected with the affair, and has already made some damaging admissions that places himself in an unenviable light. Hawn is a rancher and lives about three miles from the Brown cabin at Willhoit and it is hoped that Sheriff Maddock is now in a successful way to apprehend the perpetrator of this brutal murder.

ELECTION OF TEACHERS.—The school board of Park Place has re-elected Prof. J. W. Gray as principal for the coming school year. This will be Professor Gray's fourth year as principal of this school and he has deserved recognition of his ability to fill the place acceptably. In addition to his duties as principal he will teach the 8th, 9th and 10th grades. Mrs. Phoebe Eddy will have charge of the 6th and 7th grades; Miss Mabel Wiggins of the 3d and 4th grades and Miss Kate Dolan of the primary grades. For the West Oregon City school Prof. G. W. Durett, of Randolph, Iowa, has been elected principal, and comes highly recommended as an educator. He will conduct a summer institute in Iowa for teachers until about time to begin the fall term of school. The other teachers are Miss Olivia Jacobs, of Mount Tabor who has taught in the school for the past year, and Miss Mollie Talbert, of Clackamas. The teachers for the Oregon City public schools will not be elected for a week or ten days yet.

COMPLIED WITH THE LAWS.—It has cost the owners of the pulp mill at Oregon City about \$4500 to comply with the state law relating to the dumping of sawdust in rivers where salmon are found, but they have finally succeeded in accomplishing the task. When Fish Protector McGuire first assumed the duties of his office, it was the custom to dump the sawdust and refuse into the river. Mr. McGuire protested and the owners built a "blower" at a considerable expense, with the intention of blowing all sawdust and refuse from the upper mill where it accumulated, to the lower mill, a distance of 1500 feet. This was not successful, as the sawdust leaked out, and fell into the river. Now a furnace has been put in at the upper mill, for the express purpose of drying and burn-

ing all sawdust and refuse. It works very satisfactorily, and no further complaints are heard from that source.

COMPANY F'S SHOOT.—Company F's shoot, which was postponed on the 30th on account of rain, was held Monday afternoon immediately after the G. A. R. parade, on Judge Meldrum's place below town. Everything was unfavorable for making a good score, the men were tired from marching and many had to run to catch the car, and as a consequence none of them made their usual score. Private Ernest Leighton carried off the honors by making a score of sixty. Sergeant A. Matheson who won the medal at the previous shoot, was in bad trim as he had worked the night before and only scored fifty-three this time. This medal was provided by the honorary members composed of the business men of Oregon City, and will become the personal property of the fortunate member of the company, who wins it twice. Sergeant Matheson has won the medal once and the contest now lies between he and Private Leighton.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

We don't buy Cream Tartar where it is cheapest

Says Cream Tartar should contain 99 per cent of Pure Potassium Bitartrate. How often do you imagine you get 99 per cent pure Cream Tartar unless you buy of a reputable druggist? It also says "Cream Tartar is often purposefully mixed with sand, clay, gypsum, flour, chalk, alum and Potassium Sulphate."

It winds up by saying "the best security against fraud is to purchase the CRYSTALS and have them powdered." While we are not in a position to do this, we do buy the powdered crystals of Powers & Weightman—the most reliable Manufacturing chemists known.

Also wire fruit dipping baskets from \$1.50 up. Fruit growers wire works of all kinds. Correspondence solicited. Agts. wanted.

TESTIMONIALS.

BILLDAL, Or., April 25, 1895.

The Portland Wire & Iron Works, Portland, Ore.—Replying to your favor of 23rd Inst., I beg to say that the Prune Grader I bought from you last year, has given perfect satisfaction. Never so out of order, it is easy to operate and grades the prunes as even as can be desired; and affords me great pleasure to speak a word in its praise. A good many fruit growers visited my place during prune drying time and were surprised at the excellent work it does.
