Jackson has moved his gun, bicycle and general repair shop from 50 1/2 14th street, around to the old Neldon and on Main street near Noblitt's store. A typographical error made Sheriff Matdock's tax notice read in last week's Enterprise August 25th, instead of 15th. It will be added to all taxes not paid before August 15th. The small boys on the hill have become enthused by the drill of the hose in for the firemen's tournament at noon, and have organized an amateur hose team. Attired in red shirts and caps with an improvised cart and hose 60 feet of garden hose, they can be seen drilling any day on Seventh street. They are acquiring some efficiency, and it is to be able to get water in 12 seconds.

A suit for the recovery of money in Justice Dixon's court last Thursday attracted considerable attention. The litigants were Fred Hoffman and James Evans, who reside near Canby. Hoffman claimed that Evans was debtor to the sum of \$150 on a wood deal, but the latter claimed he only owed Hoffman \$75.40, which amount was tendered him before the suit began. A jury was summoned and J. E. Hedges appeared for Hoffman and Geo. C. Brownell for Evans. After hearing the testimony of witnesses and the argument of counsel, the jury brought in a verdict for \$75.00, the amount that Evans tendered Hoffman in payment of the debt before the suit commenced. Sheriff Matdock has in his possession a counterfeit \$10 piece, which was picked up last Sunday on the bank of the river, where it is presumed Mrs. Close threw the counterfeiting apparatus and partially completed coins after the Close boys were placed under arrest. The counterfeit is of good shape and weight, has the genuine ring, and is well executed. It is made of a soft white metal and resembles lead. It was probably intended to cover the coin with gold foil, or plate, which would have given it a solid appearance. Commissioner Deady is criticised by some people for dismissing the charges against the Close brothers. The boats running up the river have adopted new time cards, and are making regular trips in spite of the low stage of water. The steamer Gray Eagle, under command of Captain Graham, now leaves Portland Tuesdays, Thursdays and Saturdays at 9 a. m. for Independence and way points. Returning, leaves Independence Mondays, Wednesdays and Fridays at 6:30 a. m. The steamer Toledo makes tri-weekly trips between Dayton and Portland. Leaves Dayton at 7:30 a. m. on Mondays, Wednesdays and Fridays, and returning leaves Portland at 10:30 a. m. on Tuesdays, Thursdays and Saturdays. It is stated by Oregon City merchants that larger quantities of binding twine has been sold this season than ever before. This would seem to indicate that the acreage of grain in Clackamas county is much larger than usual. Several of the farmers were badly bitten by buying their twine from traveling agents. Those that received the twine ordered, got an almost worthless quality and others never received the goods they had paid for. Some people never learn that it pays to buy of home dealers who furnish a reliable article. A bicycle road about twenty feet wide, between Oswego and Oregon City, is agitated. It is said that the right-of-way can be easily obtained, the electric company, J. Tompkins, Magone brothers and others already having given their consent. The bicyclists are especially interested and should push the matter forward. The road could be built at little expense and a single plank laid to provide for inclement weather. If the road is secured, the difficulty between Oswego and Riverside could be easily met—Oswego Ironworker. The second issue of the Monthly Oregonian is out and it is a valuable exponent of Oregon's resources and advantages. It is written up in a truthful, attractive style without any attempt to misrepresent or unduly boom the resources of the state. In addition to the other articles it contains a number of clippings from various journals throughout the state, and on the whole, is one of the best advertising schemes ever issued in Oregon. For the many accidents that occur about the farm or household, such as burns, scalds, bruises, cuts, ragged wounds, bites of animals, mosquitoes or other insects, galls or chafed spots, frost bites, aches or pains on any part of the body, or the ailments resulting from exposure, as neuralgia, rheumatism, etc. Dr. J. H. McLean's Volcanic Oil Liniment has proved itself a sovereign remedy. 25c, 50c and \$1 per bottle. For sale by C. G. Huntley, druggist. The most economical and pleasant means of travel between Portland and Oregon City is by way of the O. C. Trans. Co's boats. The travel this way is much larger than last year, and it is becoming the most popular means of transportation. The fast time, comfortable seats and the ride on the cool waters of the Willamette and the panoramic scenery, are features that are becoming more and more appreciated. A party of Portland people passed through Oregon City Saturday on their way to High Bridge, in this county, where they will camp and entertain their friends. The party is chaperoned by Mrs. E. L. E. White, and is composed of Misses Steel, Miss Nice, Miss Lambert, Miss Lucy Lambert; Messrs. Warren, Woodward and VanDuren. Hop Tickets. Mrs. Rose left Tuesday of this week to join her husband at Bandon. The postoffice at Gladstone has been discontinued by the postoffice department presumably on the ground of economy. A strong petition is being gotten up asking that the office be re-established. Until recently the office has not been an important one but within the last year some 50 families have become residents of Gladstone and the office is growing into one of the important offices of the county. Viola postoffice, recently ordered discontinued is re-established with Dr. J. W. Karten as postmaster. This office is one of the oldest and most important offices in the county and its retention is a great convenience to the people of that part of the county. Adam Freichler, a county charge, died Wednesday at the residence of his brother-in-law, this side of Canemah. He was buried at the expense of the county. E. Staub is an especially happy man, and it is all because a boy arrived at his house last Saturday morning, weighing 10 pounds. Mrs. Staub and the boy are progressing finely. A Startling Admission. In New York City, for five consecutive years, the proportion of Deaths from Consumption has been three in every Twenty Persons. Epidemics of Cholera, Yellow Fever and other diseases of similar character, so terrible in their results, occasion widespread alarm and receive the most careful consideration for their prevention and cure, while consumption receives scarcely a thought, yet the number of their victims sinks into insignificance when compared with those of consumption. Comparatively few people know what to do for their loved ones when they see them gradually lose strength, lose color, manifest feeble vitality and emaciation, or develop a cough, with difficult breathing or hemorrhage. Cod liver oil was for a long time given in all such cases, but the poor success attending its use coupled with its nauseating taste has led many practitioners, as well as the public at large, to place their main reliance in Dr. Pierce's Golden Medical Discovery. It deserves early attention and will prove effectual not in every case but in a large percentage of cases, and we believe that fully 98 per cent of all cases of consumption can, if taken in the early stages of the disease, be cured with the "Discovery." Dr. Pierce does not ask people to believe until they have investigated for themselves. A pamphlet has been published having the names, addresses and photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies which will be mailed free to those sending for it with their name and address upon a postal card, or you can have a medical treatise, in book form of 160 pages, mailed to you, on receipt of address and six cents in stamps. You can then write those cured and learn their experiences. Address for Book, WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y. Duffy & Heckart EXPRESS AND TRANSFERING.
