THE ENTERPRISE CORRESPONDENTS SWEEP THE FIELD.

A Grand Wedding With a Happy Couple Started Well in Life—Other Newsy Events.

EAGLE CREEK, Aug. 19.—The wedding of Miss Emma Horger, daughter of August Horger, one of Eagle Creek's most prosperous farmers, took place at the residence of the bride's parents Saturday last. The bridegroom, Mr. Herman Rittman, is a leading business man of Portland. The marriage was celebrated by Rev. Derring, a Lutheran minister of Portland.

Among the most prominent persons at the nuptials were Hon. C. B. Smith, member of the last legislature, Josiah Suter, one of the strong advocates of the Omaha platform, Jas. Suter, E. H. Foster, Isaac Foster, Mrs. Jane Foster, Mrs. Henry Wilbern, Master Fred Wilbern, Gus Len, a retired capitalist, James Simpson, Esq., Mrs. James Simpson and Miss Ruth Simpson.

At 5 p. m. the guests were invited to a most bountiful dinner which was spread in the shade of two large maple trees. The table fairly groaned with fine roast chicken, beef, ducks, pies, cakes and everything that has a tendency to tickle the palate of an epicure. It was acknowledged by those present to have been the best prepared dinner that ever was spread in this section of Clackamas county. Mr. Jas. Simpson, the superintendent of the Eagle Creek Sunday school, and an acknowledged leader of religious affairs, was seated at the head of the table, and, at the request of Mr. Horger, father of the bride, asked the Lord to be with and care over the newly wedded couple and all those present.

Four kegs of Weinhard's best beer wrapped in sacks of ice and a keg of wine helped to increase the appetite and make everyone feel that it was good to be there. At the end of the repast Dr. C. B. Smith made a few well chosen remarks, thanking in behalf of those present Mr. and Mrs. Horger for the afternoon's enjoyment. Isaac Foster, our local musician, rendered some choice selections on violin and accordion. At 7 p. m. all went to their respective homes, having spent a very pleasant afternoon.

Dr. C. B. Smith has returned from the coast, much to the satisfaction of the people of this section.

Geo. Forman, while working on a building had the misfortune to fall and fracture two of his ribs. Dr. Smith fixed him up and made him as comfortable as possible.

Born, to the wife of Fred Hoffmeister, a bouncing baby boy.

Mrs. John Revenne, wife of Sandy's leading merchant, has been visiting Mrs. Dr. Smith the past few days.

Miss Grace Wilcox, of Leon, is in our village, much to the satisfaction of Chas. Ballou.

A temporary armistice is declared on the road question, although the remonstrators are yet eager in their desire to defeat what seems to be a fair proposition and of great public need.

MOLALLA NOTES.

Free Coinage of Lead for Stage Robbers Proposed—Teasel Crop Harvested.

MOLALLA, Aug. 19.—The smoke and the August fog make our forenoons quite dark.

Threshing will nearly all be done this week. Grain is turning out well.

Harless & Co.'s threshing crew blew out their whistle early this week; equal to the emergency, they procured a reed which supplied all the requirements of the steam organ.

Mr. Clifford, father of our mail carrier, was taken suddenly ill Saturday night. Dr. Leavitt has charge of the case.

M. McDonald, of Newberg, made our town a flying visit on Saturday last. "Mc." is well pleased with his new home but says Molalla seems home-like to him yet.

J. W. Thomas attended the Oregon State Dental Association last week at Astoria. The next annual meeting of the association will be in Portland.

Mrs. Lillie B. McFadden returned from Eastern Oregon last Monday, accompanied by her sister, Mrs. Leadford.

Lee Harless has returned to the valley a victim to that awful malady, consumption.

John D. Jordan, of Salem, is out to his farm looking after his hop business.

Teasel harvest is over, so now the "thistle cutters" will flee to the hop fields for employment and enjoyment.

It seems now as if the traveling public have resolved to leave their money in the bank—saw bank,—and carry pocket guns instead for convenience in making change with Mulino road agents. This is "free coinage" of lead into circulation through a bimetallic double standard, in which one or both glide into eternity.

Smyrna News.

SMYRNA, Aug. 19.—Miss Narcia Burton of Salem, is visiting her friend Hattie Yoder.

Fred Smith and J. S. Yoder were doing business at the county seat last Friday.

Elmer Vohn and his sister Gertrude gave the young people a pleasant party last Monday evening.

Joe Boshert is nursing a badly bruised

foot. In helping to repair a traction engine the drive wheel fell on it.

Born—To the wife of T. M. Yoder, August 16th, a daughter. Tom says it will be a music teacher sure as it is in vocal training already.

To pick or not to pick is the question with some of our hop growers. It seems to be difficult for renters to get money enough advanced on the growing crop to pay pickers with.

Peter Jullom came up from Portland a few days ago to burn his slashing.

Miss Elsea and Mary Taylor and quite a number of others from Marquam, whose names we did not learn, attended the endeavor meeting here Sunday evening.

Clarks Items.

CLARKES, Aug. 9.—Harvesting and threshing is the present game of this people. The fine weather permits them to engage in it quite busily.

Rev. Eldridge preached to a large audience the 18th inst. He is an eloquent and fluent speaker, and all people within reach would do well to come and hear him. Sermons will not hurt, but on the contrary will serve for the betterment of the auditors. It is hoped that through the christian work of Rev. Eldridge many English friends may become truly converted. He will preach in the school house every two weeks.

Mr. and Mrs. Jewell have returned from a few weeks outing at the coast.

Emma Trusky leaves Tuesday for San Jose, California, where she will resume her previous work.

Born, to the wife of Joshua Elmer, a son. Mother and baby doing well.

Elmer Bros. started threshing the 13th of this month at Fred Philipin's whose wheat averaged 58½ bushels per acre. Ringo Bros. received over 3100 bushels, probably the largest farm yield in this neighborhood. In general grain turns out well. The above mentioned threshers are doing good, steady work.

Last week Harry Lee made a flying trip to Oregon City, where he will remain for some time.

Leonard Smith's horse, while he was riding him at great speed past Elmer's engine, was scared and made some side jumps, causing Leonard to fall in a drag. Boys, be a little more sensible and careful, for it pays.

A. D. E. Elmer has purchased part of H. C. Ringo's estate, that which lies on the east side of the road. REMK.

Viola Voicings.

VIOLA, Aug. 20.—As the correspondent of our leading paper has forsaken us, or otherwise asleep I will waken them up as I have looked every week in our thriving paper for the Viola items and have failed to see any and as I don't want to lose my eyesight I will send you a few items if acceptable.

Viola is still on the boom if we have lost our sawmill and post office, but the beauty of it we are waiting patiently every day for the news that the post office will be continued and Dr. Karton act as postmaster, as it is too inconvenient for the people to go to Logan for their mail and Viola is too much of a thriving little village not to have a post-office.

To add to the improvements of Viola Dr. Karton and family have located in Viola and intend to make it their home. Mrs. Dr. Karton intends to teach our school this winter. She has at the present time gone to visit friends and relatives at Woodburn and Salem and expects to return in a week. Will be glad to see her smiling face again.

The Viola people have organized a Blue Ribbon club and gave an entertainment which was a grand success. They will give another the first Sunday in October, in the evening. Everybody is invited to attend.

Most all of our people are getting ready to go to the hop yards which they think will be quite a treat.

The Ladies' Relief Corps met last Thursday at Mrs. Ward's and elected new officers. Mrs. Brock is president, Mrs. J. M. Hayden, vice president. Mrs. Ward secretary and Mrs. J. R. Heater treasurer. Will meet again Thursday.

Every one is waiting patiently for the threshing machine to make its appearance as we are all afraid of rain as it is uncertain now about the weather as it would not be safe to vote whether it would rain or not. A. B. C.

Logan Mills.

LOGAN, Aug. 8.—The Logan flouring mills have been overhauled and refitted, and are now making a first class grade of flour. Will grind for one-eighth and guarantee satisfaction. (If) GUS FISHER.

Steam Wood Saw.

Wood sawed on short notice in any part of the city. Leave orders at F. T. Barlow's grocery store, or call on the owner, T. B. HANKINS. (If)

C. O. T. Williams is now prepared to make loans on good farm property. Write him.

My boy was taken with a disease resembling bloody flux. The first thing I thought of was Chamberlain's Colic, Cholera and Diarrhoea Remedy. Two doses of it settled the matter and cured him sound and well. I heartily recommend this remedy to all persons suffering from a like complaint. I will answer any inquiries regarding it when stamp is enclosed. I refer to any county official as to my reliability. Wm. ROACH, J. P., Primroy, Campbell Co., Tenn. For sale by G. A. Harding, druggist.

Crescent News.

CRESCENT, Aug. 20.—Mr. Latourette's slashing has been burned and also some of his fence.

John Stoker returned from his trip to Wheatland and is now working on the brickyard.

Mr. Kraeft and his grandson Arthur, are digging a well on Mr. Kraeft's place. The well is now twenty-three feet deep and no sign of water yet.

Many people are preparing to go hop picking as soon as the crop is ready to harvest.

Kraeft Bros. are putting in a hydraulic ram to supply water to the brickyard.

GLEANER.

Prodigals Returned.

It is seldom that a person who has lived for any length of time on the Pacific coast goes back East and remains there permanently, be they ever so disgusted with the West, one year and sometimes less of life in the eastern states being enough to enable them to compare the difference between the two sections with the result that they return to the west.

Mr. G. W. Veto and his parents of New Era longed for their old Kansas home where in their memory everything was fair and bright, so last fall they sold their farm and returned to a state they were sure was far ahead of Oregon. Last Monday they returned to Clackamas county and have settled down at New Era fully satisfied with Oregon. The winter was colder and the summer hotter and dryer in Kansas than was conducive to their enjoyment or prosperity, so they are now content to make Oregon their future home and are fully convinced that it is the best state taking all in all in the United States.

Police In Russia.

The Russian godovoy (policeman) is usually a very small policeman indeed. He makes up in deportment and dignity what he lacks in size. His countenance bears evidence of unbending severity; he is never seen to smile; he is minute, but majestic; dirty, but dignified.

His dress is a long kaftan, which the ignorant would unhesitatingly pronounce to be a dressing gown. A sword ornaments the left side, while his legs are incased in huge Wellington boots. On his head he wears a small military cap.

The policeman lives in his own little house, about the size of a moderately large dog kennel, one of which is planted at the corner of each principal thoroughfare. Here the little godovoy sleeps and eats his meals and disposes of the spare time upon his hands.—Buffalo Times.

Loved Her Horse.

Clement Scott, the London dramatic critic, says that he was once threatened with a libel suit for saying that a certain actress who caroled on the stage on a seedy looking, circus bred quadruped "rode a horse with pink eyes." "Abuse me as much as you like," said the fair litigant, "but don't say that my horse has pink eyes."

The Storm Center.

The great lakes and the St. Lawrence valley have more storms per annum than any other portions of this country. This is due to the fact that storms originating west of this district move directly east, while many originating farther south move to the northeast.
