

Building Improvements.

John Batdorf has a force of men busy at work tearing down and removing the old brewery building at the corner of Main and Eighth streets, to make room for Weinhard's new building. The adjoining residence has been sold to E. E. Martin, who is tearing it to pieces and will use the material in the construction of a dwelling on his lot at Gladstone. Thomas Moore and John Bolton completed the sewer Wednesday, and the ground will be in readiness for the new contractor to begin work by next Monday. The old brewery building possesses historic interest and was built about forty years ago by Hon. L. T. Barin's father, and was used for some time by the Oregon City Turner Society, for athletic purposes. Jacob Mader afterward purchased the building, built a brick foundation underneath, and used it for brewery purposes. One by one the old landmarks are being obliterated to make room for more palatial structures. Merese has removed his saloon from the brewery building to the old hotel across the street.

Work is now being pushed on the main structure of the Morey-Harding-Walden brick.

R. Seiler has plans drawn for a new residence on the corner of Third and Jefferson streets. The design is very neat, and the contract for its erection will be let to the lowest bidder at 7:30 Saturday evening, at the office of Morrison & Vore, architects.

The Pioneers and Descendants.

Mrs. R. A. Miller will deliver the occasional address at the annual reunion of the Pioneers and Native Sons and Daughters of Jackson county, at Astland, on September 12th. On this occasion the Native Sons and Daughters have charge of the program, and will furnish the dinner. The annual reunion will be held at the Chautauqua grounds and the literary program will take place in the tabernacle. Col. Robt. A. Miller attended a meeting of the committee on Native Sons and Daughters day at the state fair meeting held at Salem Tuesday. This day occurs on Monday, September 20th, and it is expected that there will be a large representation of the native born population that day. Col. Miller will deliver the address on behalf of the native sons and Mrs. Mary Strong Kenney on the part of the daughters. The Oregon City organization of Native Sons and Daughters will hold another meeting soon and it has been suggested that the pioneers of Clackamas county hold a joint assemblage with them at Gladstone park. Clackamas county is noted for its venerable pioneers, and is now about the only old county in the state which has no organization.

E. M. Atkinson is making some substantial improvements in the way of a road through Park addition. The road begins at the elevated bridge, near the Barclay school building and extends through this addition to the Abernethy. Mr. Atkinson has built this road at his own expense, in order to give the public a passable thoroughfare through his lands. A few weeks ago the council passed an ordinance vacating certain streets in this addition, so that a road could be made through the addition on an easy grade. The large trees along a portion of the road have been cut down and the thoroughfare in the steepest places will not be over a six per cent. grade. When this road is completed it will be the shortest and most direct route for people living on the Abernethy, to travel to and from Oregon City.

E. Parker came in from the Siletz reservation Tuesday and reports that numerous claimants have settled up Salmon river, even away up the stream and beyond the surveyed lands. The intending settlers post a notice claiming so many rods and acres from the point of beginning, and the settler squats near his notice and endeavors to hold his fort. The notices are numerous, says Mr. Parker, and many of the claims overlap each other in their boundaries, which will be a fruitful source of contests in the future. Mr. Parker informed the Oregon City land office of these facts, and pointed out on the maps the lands taken. He says there are some choice lands on the upper Salmon, even in the unsurveyed sections.

Perry Vorhies, a well known farmer of Wilhoit, was brought in last Thursday night a raving maniac. Friday morning he had an examination before Justice Dixon and was ordered sent to the state asylum. He has a wife and three children, and is in fairly comfortable circumstances. The unfortunate man is highly spoken of by his neighbors, and his malady, which is somewhat violent, is said to be hereditary. Sheriff Maddock and Deputy Millard Hyatt took the unfortunate man to Salem Friday night.

Mr. Richards and Clarence Fields have leased the East Side Railway Company's freight car, and will begin running the same from Portland to Gladstone next week. It is intended to haul the Oregon City freight from Gladstone by team. Mr. Richards runs the freight car business on the Portland and Vancouver motor line.

Born Thursday night, August 22nd, to Mr. and Mrs. Charles Albright, a daughter. Mr. Albright can still be found at his place of business.

The Sleeves Growing Smaller

Gowns seen at midsummer social functions in Paris indicate a coming change in sleeves, yet it is by no means prophesied that the large sleeves will be entirely displaced. There are, however, always a few women who desire to be unlike the multitude, and who are eager for novelty, and nothing could attract all eyes now more than to see a woman in tightly fitting sleeves; those worn are relieved ruffles falling from the shoulders and by puffs and ruffles at the elbows. This may be looked upon as the first breath of a change which will bring about a pleasant modification in the size of sleeves; that is all we want, for the large sleeves are universally becoming and extremely picturesque, and it is only their vulgar exaggeration which people of taste condemn.—From "Review of Fashions" in Demorest's Magazine for September.

The Columbia-Salmon Packer's Propagation Company, have formally accepted the new fishway completed at the Clackamas dam by Messrs. Smyth Ferrim, Frank M. Warren, president of the company, and a committee, consisting of Messrs. Farrell, Cook and George came up Monday from Portland and pronounced everything satisfactory. It is expected now that salmon will go up the new ladder with a scout and jump.

Among the books announced by Harper & Brothers for publication in September is "A study of death," by Henry M. Alden, author of "God in his World." The extraordinary success of Mr. Alden's previous book, which was pronounced "the most successful work of religious thought of the season," and "the most note-worthy book of a religious kind (in style as well as in substance) published in England or in America for many years," insures a suitable reception for "A Study of Death"—a book wholly uncommon, spiritual, hopeful and important.

There is a bountiful crop of peaches this season in H. E. Cross's orchard, on the bank of the Clackamas near the sawmill. The large and thrifty trees are loaded, and will produce at least a thousand bushels of peaches. Some samples of early Crawford's left at this office measure ten and a half inches in circumference.

That the interesting material furnished by the international yacht-races has been exhausted by the long dispatches to the metropolitan journals, has been disproved by the letter "Cockaigne" sends from London to the Argonaut of September 17th. Much of it is about George Gould's doings, and among other sights at the seaside mentioned is the hand-organ grinder, Viscount Hinton, who is supporting his wife and child by begging in the streets.

The fire boys team have received another addition to the fund to defray the expenses of the team at the Vancouver tournament next week. Manager Koehler, of the Southern Pacific, has sent the boys \$25 in recognition of their services in saving the railroad trestle from being destroyed, when the Mechanic's mill and sash and door factory were burned.

J. F. Eckerson, the Canby fruit-grower, has sent to this office a bunch of 16 silver prunes all growing on one twig. They are good size considering the fact that they grew in a cluster like a bunch of grapes.

Dr. Cowan is expected home from his summer camping, and will conduct services at the Congregational church next Sunday, morning and evening. Communion service will be held.

The snagboat Corvallis has put in a number of buoys at Rock Island, during the past week.

An illustrated article on recent developments in the art of applying electricity to railroads will appear in an early number of Harpers Weekly.

HIS LIP GONE. THE DIREFUL EFFECTS OF CANCER. A Desperate Battle with this Terrible Disease, Lasting Thirty Years.

A Cure Found at Last. There is not a more familiar figure on the streets of Atlanta than the man whose picture is here shown. Everybody knows him by sight and it will be remembered that years ago he began to wear on his upper lip, just under his nose, a small piece of court-plaster, not larger than a silver half dime; this plaster he has worn constantly, though it gradually increased in size, as everybody knows, until it was as large as a silver dollar. This man is M. M. Nicholson, who resides at the corner of Anderson and Curran Sts.

It was thirty years ago, that he first noticed a tiny scale, like a piece of wheat bran, on his lip. He at first thought it only a fever blister, but it was not long before his cheeks became diseased and painful to the touch, and he soon realized that he had fallen a victim to that most dreadful and relentless disease—cancer. It rapidly increased in size and severity, and remembering that his father had cancer when he died, and that his uncle also lost his life by this terrible disease which destroyed his tongue, throat and left eye, Mr. Nicholson became thoroughly alarmed, and realized that his condition was more than serious.

Giving up entirely his business, he went to Cincinnati and remained for several months under treatment of a celebrated specialist. He was afterwards treated in Elmira, New York, where the cancer was twice removed, but he declares that death was preferable to such treatment. The disease seemed to be of a most virulent type, and the doctors afforded absolutely no relief, the cancer spreading all the time, eating out entirely the partition in his nose, as well as his upper lip and gums.

"Some months ago," he says, "I began to use S. S. S., though I admit with little faith that it could cure me, but to my surprise, a few bottles afforded some relief. This encouraged, I determined to give the medicine a thorough trial and it was not long before the progress of the disease seemed checked. I continued the medicine, and remarkable as it may seem, I am cured and feel like I have a new life. I can talk more distinctly, for the flesh has begun to grow back around my teeth, where it has been literally eaten away. S. S. S. is the most wonderful remedy in the world, and as my condition is pretty generally known, everybody will agree that the cure is indeed a most remarkable one. S. S. S. has given me a new hold on life, and I shall certainly sing its praises the remainder of my days."—Atlanta Constitution.

YEARS OF INTENSE PAIN. DR. J. H. WATTS, druggist and physician, Humboldt, Neb., who suffered with heart disease for four years, trying every remedy and all treatments known to himself and fellow-practitioners; believes that heart disease is curable. He writes: "I wish to tell what your valuable medicine has done for me. For four years I had heart disease of the very worst kind. Several physicians I consulted, said it was Rheumatism of the Heart. It was almost unendurable; with shortness of breath, palpitations, severe pains, unable to sleep, especially on the left side. No pen can describe my sufferings, particularly during the last months of those four weary years. DR. J. H. WATTS. I finally tried Dr. Miles' New Heart Cure, and was surprised at the result. It put new life into and made a new man of me. I have not had a symptom of trouble since and I am satisfied your medicine has cured me for I have now enjoyed, since taking it Three Years of Splendid Health. I might add that I am a druggist and have sold and recommended your Heart Cure, for I know what it has done for me and only wish I could state more clearly my suffering then and the good health I now enjoy. Your Nerve and other remedies also give excellent satisfaction." J. H. WATTS. Humboldt, Neb., May 9, '04.
