Successful Pound Social—A Town of Pretty Girls—Side Walks for the Main Streets—Cupid's Doings.

CASEY, Oct. 22.—The pound social, recently given under the auspices of the I. O. G. T., was an entire success financially and socially. The girls were sold at the uniform price of one-half cent per pound, and a basket of delicacies thrown in. We were informed that some of the boys also were "sold."

Canby can boast of more pretty girls and more crusty old bachelors to the square yard than any other town in the state of Oregon or elsewhere.

Cupid has again made his appearance in Canby. Two victims already reported and more apparently are soon to meet the same fate. One who had not known that there had been a wedding at Wm. Kreuger's would have thought, owing to the discordant strains and wild incantations issuing from there, that the Indians had again gotten on the war path. Such is life.

Mrs. White, of Rock Creek, is also among Canby's present visitors.

Oct. 24.—Henry Knight, of this place, while at work this afternoon at Wheeler's mill about four miles east of here, met with a very painful and serious accident. While endeavoring to put on a belt in the mill he got his right arm entangled in the machinery and had it broken in two places, upper and forearm, and received besides a serious bruise over the right eye. He was brought to Canby and had Dr. J. H. Irvine summoned who dressed his wounds temporarily, and on the following morning (Thursday) Drs. Irvine and Giesy reduced the fractures. At lost accounts the unfortunate young man was resting as easy as could be expected under the circumstances.

Fehlerville News.

FEHLERVILLE, Oct. 15.—Still the nice weather continues.

The fog rolling last Saturday was not as good as it might have been. Some twenty men were out, thirteen on the east side and seven on the west side—the west side being the quietest crowd we ever saw. Owing to B. F. Linn being sick things did not work as they should, consequently we did not finish on that day. But another rolling bee may finish and give the boys another free supper and dance.

MULINO NEWS.

A Barn Burned With Grain, Tools, Etc.—Fine Grape Crop.

MULINO, Oct. 22.—Yesterday about the hour of 1:30 P. M. as Linton Paine was coming from Liberal he discovered that the barn of Mr. Mulvey was on fire. When he first saw the barn the flames were hidden beneath the roof, but in a moment the entire building was a mass of flames, which showed the fact that the fire had started from the center of the barn in the hay. The fire seems to have been caused by an incendiary, as Frank had been at the barn a short time before the blaze was first discovered, but did not see or notice any one around the barn. The loss was ten tons of hay, 800 bushels of oats, 250 bushels of potatoes, and 150 bushels of wheat, besides quite a mow of straw, one fine steel frame self-binder, wagon bed, and many small valuable fixtures that are necessarily required about a farm. The scene at 7 o'clock was still attracting the attention of the people. The heaps of grain were sending up a white smoke while the hay still made a very great heat. Many of the neighbors gave assistance but the flames were beyond their management, and consequently all had to go through the fire. The grain will not be a total loss, as that which is only scorched will be used to feed hogs. The entire loss will fully reach \$500.

Some of the young drunks had a knock-out at the dance at Union hall a short time ago. It may be smart for some to engage in that kind of conduct, but the world as a majority does not believe that way.

Miss Stella Yacht has made home and friends happy by returning from a four month's stay at Salem.

Last week some of the people who went hop picking from this place were made glad by a visit from Samuel Mulvaney. Though the small pay for two weeks hardships in work and weather makes one think seriously of trying some new field of labor.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for Circulars, free.
