FRIDAY, FEBRUARY 21, 1896.

To Grow Tobacco.—The Hillsboro Independent states that J. C. Townsend of Centerville will put out 50,000 tobacco plants. The tobacco grown will be cured in Mr. Inbric's large hop house. This looks as if hop culture on that farm is to be suspended this year, though it is possible that the hops and tobacco maturing at different times may be cured in the same dry-house. Of the profit that comes to the tobacco grower, this paragraph from the Raleigh, N. C., News, is quoted: "Col. W. F. Green was here Wednesday, returning to his home in Franklin, from his tobacco plantation in Edgewood. He says the farmers of the eastern counties are meeting with great success in raising the 'golden leaf.' Many of the farmers in that section averaged \$100 an acre last year. 'My man,' said Col. Green, averaged \$100 an acre and he had fifty acres in cultivation." Tobacco raising has been tried on a limited scale in Clackamas county and some tobacco of very good quality has been produced. O. E. A. Freytag the well known gardener and his brother Richard, of the Fourteenth grocery store, and who formerly was a cigar maker by trade, each having raised a small patch for the last two seasons. From his tobacco Mr. Freytag has made very fine cigars, but he finds the leaf has too much gum in it to make a marketable cigar. For coarser grades of tobacco he thinks his leaves would have worked up very good. He is of the opinion that if some of the hardy varieties from Connecticut or other northern states was tried here and the tobacco grown on a warm sandy soil that a good merchantable article could be produced. He thinks that the Oregon climate and soil are all right and that tobacco raising will yet become of the best paying crops that our farms can raise.

A BUILDING 300 FEET HIGH.—Fears have been expressed by some of our conservative citizens that the growth of the business part of Oregon City will always be retarded by the limited area below the bluff suitable for the erection of business blocks. Manhattan island upon which New York City is built, having been all built over and the adjacent lands being too far from the business center to be available they have of late years been erecting buildings of 15 to 26 stories high to relieve the pressure for more space in the business quarter. Now they propose to erect a building 200 stories high and a firm of architects have drawn a plan for the block which is to stand between 23d and 24th streets and 3rd and 6th avenues. The building will be built of steel encased in stone walls 16 feet thick at the base and tapering to the summit, nearly 3000 feet above the pavements. The floor space of the mammoth structure will figure 24,000,000 square feet, and the rooms will hold an army of over 400,000 people. The building will be fitted with a system of elevators on the same principal as a railroad is fitted with trains. The swift express elevator will

only stop at every 25th floor and will make the run of 2000 feet in about two a half, while the locals and freights will take from ten minutes to half an hour to make the trip. When the building as projected is finished it will be the wonder of the world and if not thrown down by an earthquake will stand a monument to Western enterprise, for ages to come.

STOOD THE TEST.—Some doubt was expressed last summer when the Chautauqua auditorium was erected as to its stability and especially as to its ability to withstand the load of a heavy snow. The heavy snow followed by rain that came some little time since gave the building as severe strain as it will ever be given again and the great structure withstood all without a timber being bent or a brace sprung and it is now as staunch and symmetrical as it was the day it was completed. The auditorium is so very large and has such an immense span to the arches of the roof that the coming of the first heavy snow on it, was looked forward to with considerable interest by the Chautauqua management, for should the building collapse it meant a severe blow to the financial affairs of the association, but these doubts are now all removed and no fear is entertained as to its strength and permanence. That the auditorium has proved itself to be such a substantial structure reflects much credit on White Bros. who drew the plans and supervised its construction. The building being considerable over 100 feet in diameter to enclose it with a circular roof without a mass of unsightly timbers overhead or ungainly posts below, and yet give it the required strength, was a task that required a thorough knowledge of bridge work as well as of house architecture, for the trusses to support the roof are similar to those employed in bridge work, yet they are lighter and more graceful than ever seen in a bridge.

BADLY FRIGHTENED TRAMPS.—The Salem Statesman gives a laughable account of the fright of two "wandering Willies" who had taken passage in an empty freight car on the south-bound freight train, but whose visions of California orange groves and other accessories of a tramp's paradise, were rudely shattered by being awakened in the morning by a prison guard and climbing out of the car to find themselves within a high wall and in the midst of men wearing striped clothes. They were too frightened to give an intelligent account of themselves, and after being admonished to hereafter keep out of the Oregon penitentiary unless they came properly accented. On being shown through the big gate they made tracks for the country at a gait not equaled by the crack pedestrians and will probably ascertain the destination of the next freight car they ride in before entering it, their predicament being caused by their car being switched during the night into the penitentiary yard.

FACTS ABOUT EASTER SUNDAY.—Easter Sunday this year falls on April 5th and Shrove Tuesday, the close of the carnival season in France and in the Latin countries, falls on February 18th. The establishment of the Christian festival of Easter, typical of the resurrection of the Lord, was a matter of much controversy in the church for centuries, but was finally established by the Gregorian calendar adopted by the Roman church in 1582, and Easter is always the first Sunday after March 21, which date is the beginning of the ecclesiastical year. Therefore the earliest date upon which Easter may occur is March 22d. If the moon should fall on March 21st Easter is the following Sunday. The latest date upon which the festival may fall is April 25th. In 1761 and 1818 Easter fell on March 22, but that will not occur again in this or the next century. In 1886 it fell on April 25th and will do so again in 1913.

The first blacksmith shop that farmers pass in coming to Oregon City is that of Maple & Hoffman, at the junction of the Seventh street road and Main street. There is no class of work they cannot handle and at reasonable prices. They have an expert horse-shoer and guarantee satisfaction.

CUT WITH A KNIFE.—In the hands of a skillful cutter, the mounts sold by Albright are incomparably the best, tenderest and cheapest in the city.

Another Presidential Candidate.
 WASHINGTON, Feb. 17.—The candidacy of ex-Senator Charles F. Manderson, of Nebraska for the republican presidential nomination was announced today by several of his friends.
 General Manderson this evening, in conversation said:
 "For months past I have received letters from all sections of the country urging me to enter the race as a candidate. I can now simply say, under this urgency and the kind encouragement that has followed, I can do nothing but stand and wait."

In a recent editorial, the Salem, Oregon, Independent says: "Time and again have we seen Chamberlain's Cough Remedy tried and never without the most satisfactory remedy results. Whenever we see a person afflicted with hoarseness, with a cough or cold, we invariably advise them to get Chamberlain's Cough Remedy; and when they do, they never regret it. It always does the work, and does it." For sale by G. A. Harding, Druggist.

The Seventh street grocery men, Marr & Robertson have lately branched out and are now running two stores, one in this city and one in Portland. The Portland store they recently acquired in a trade for some of their Oregon City real estate. Mr. Robertson is in charge of the Seventh street store while Mr. Marr has taken charge of the Portland store. Mr. Marr has not moved his family to Portland but comes home over Sunday. Messrs. Marr & Robertson have built up a fine trade in Oregon City and have proved themselves to be thorough business men and their ability to extend their business comes of their push and industry and is a compliment to the firm.

New York Tribune.

Leader of the Republican Party.

1896.

Are You Willing to Listen to a Suggestion?

The New York Tribune's broad columns and large print make it the easiest paper in the country to read, either on the cars or at home.
 Henry Romeke, proprietor of the largest Newspaper Clipping Agency in the world, testifies in a published card, that his clippings for over 4,000 clients show that THE TRIBUNE contains "day by day and week by week far more original matter than any daily newspaper in New York City." He proves the fact by figures. THE WEEKLY ranks the same.
 Business men find the market report of THE TRIBUNE absolutely without an equal. THE TRIBUNE is the only newspaper in New York City whose reporters actually visit all the different markets in person.
 THE TRIBUNE now prints the best and freshest humorous pictures of the day from the comic press of two continents, and supplies plenty of other entertainment.
 By its special telegrams and correspondence, its able editorials and high literary character, THE TRIBUNE maintains a splendid position in the regard of Republicans and lovers of music, art, and good books.
 THE TRIBUNE's society news is known everywhere for excellence. Its fashions have always been of special value, and changes of style are, as a rule, foretold in THE TRIBUNE sooner than in other newspapers.

THE NEW YORK TRIBUNE is recognized, officially, as the leading newspaper of the Republican party.
 As for Farming and Labor, THE TRIBUNE has for 50 years demanded, and yet demands, that every possible dollar's worth of food and commodities, consumed by the American people, shall be produced by the American people. For this cause, THE TRIBUNE labors in its various editions 365 days in every year.
 A man is judged by the newspaper he takes. He who reads THE TRIBUNE is wide awake, progressive, respectable and capable, worthy of the confidence of business and social friends. If you are a young man you will live in a rut all your life (except by catering to that which is base) if you feed your mind upon newspapers, full of scandal, vulgarity and innuendo. Think for a moment of the people who read newspapers of that class. On the other hand, THE TRIBUNE has probably the largest clientele of the very people who can help to improve a young man's position, of any newspaper in the United States. Associate yourself with them.
 Mr. Horr continues to write for THE TRIBUNE.

THE REVIEW OF REVIEWS

Edited by ALBERT SHAW.

THE REVIEW OF REVIEWS, as its name implies, gives in readable form the best that appears in the other great magazines all over the world, generally on the same date that they are published. With the recent extraordinary increase of worthy periodicals, these careful reviews, summaries, and quotations, giving the gist of periodical literature, are alone worth the subscription price.

Aside from these departments, the editorial and contributed features of the REVIEW OF REVIEWS are themselves equal in extent to a magazine. The Editor's "Progress of the World" is an invaluable chronicle of the happenings of the thirty days just past, with pictures on every page of the men and women who have made the history of the month.

The Literary World says: "We are deeply impressed from month to month with the value of the 'REVIEW OF REVIEWS,' which is a sort of Eiffel Tower for the survey of the whole field of periodical literature. And yet it has a mind and voice of its own, and speaks out with decision and sense on all public topics of the hour. It is a singular combination of the monthly magazine and the daily newspaper. It is daily in its freshness; it is monthly in its method. It is the world under a field glass."

THE GLOBE-DEMOCRAT is universally conceded to be THE BEST of American newspapers, and at these REDUCED RATES it is also THE CHEAPEST. THE GLOBE-DEMOCRAT pays for and prints MORE NEWS than any other paper in the United States. It will be indispensable during the coming great National Campaign, and the LOW PRICE places it within the reach of all. THE GLOBE-DEMOCRAT is sold by news-dealers everywhere at 2 cents for the daily and 5 cents for the Sunday issues. Delivered to regular subscribers, Daily and Sunday, 15 cents a week, 60 cents a month. If your local dealer does not handle it, insist upon his procuring it for you, or send your subscription with remittance direct to the publishers.

Particular attention is called to THE WEEKLY GLOBE-DEMOCRAT, issued in Semi-Weekly sections, eight pages every Tuesday and Friday, making it practically A LARGE SEMI-WEEKLY PAPER FOR ONLY ONE DOLLAR A YEAR. This issue just fills the bill for the busy man, who has not the time to read a daily paper, and yet desires to keep promptly and thoroughly posted. It goes to every State—almost to every postoffice—in the Union. All America is its legitimate field. No matter where you live, you will find it invaluable as a newspaper and home journal.
