Any one who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stumm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stumm is foreman of Merriam's confectionery establishment. Some months ago, on leaving the heated work room to run across the street on an errand, he was caught out in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes special pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle of it in the house. For sale by G. A. Harding, druggist.

Superintendent Howell has completed the laying of the pipe line to the reservoir at Ely. The trench was dug ten feet in depth in places for the reception of the pipe, and a portion of it was pretty hard digging. Alfred Linstrom, a Swedish descendant age 29 years. He went to Washington eight years ago and later to Portland, Oregon, and has not been heard from for four years. His aged mother is very anxious to know if he is living. Any information leading to his whereabouts will be kindly received by Charles Linstrom, Ohio, Webster county, Iowa.

In the account of the closing exercises of the Parkplace public school, printed in this paper last week, the sentence reading: "and the exercises would have done credit to a graduating class of the High school," the word Portland was omitted before High school. The higher grades of the Parkplace school are on a par with the curriculum of the advanced high school.

While in Stockton, Cal., some time ago, Thos. F. Langan, of Los Banos, that state, was taken very severely with cramps and diarrhoea. He chanced to meet Mr. C. M. Carter, who was similarly afflicted. He says: "I told him of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and we went to the Holden Drug store and procured a bottle of it. It gave Mr. Carter prompt relief and I can vouch for its having cured me." For sale by G. A. Harding, druggist.

Fred Miller, who has charge of the works during the day time in station B for the General Electric Company, met with an accident last Saturday afternoon, that came near causing him to lose his eyesight. He was changing a switch, and a portion of the apparatus coming in contact with his face caused it to be burned severely. For awhile it was thought that he would lose the sight of one of his eyes, but his condition is improving to such an extent that he will be able to resume work in a few days.

Professor W. H. Boyer, of Portland, met about 50 Oregon City singers at the Methodist church Wednesday evening, and began the initial drill on "Creation," which will be produced at Gladstone park during the session of the Willamette Valley Assembly. Prof. Boyer is a competent instructor and vocalist, and our singers will receive some valuable training under his tutorage, and should avail themselves of the opportunity offered for free instruction. Miss Emily Bower, the accompanist, is an accomplished musician, and materially assists the Professor in his work. Another drill will take place at the Congregational church next Tuesday evening at 7:30.

Avoid Consumption.
by stopping that cough. We know of no better remedy for coughs and colds than the S. B. Cough Cure. For sale by C. G. Huntley, druggist.

The Election Returns.

As will be seen by the returns for Clackamas county published elsewhere, the populists got away with every office on the county and legislative ticket and nearly all the justices and constables. In Oregon City C. Schubel, populist, was elected Justice and M. F. McCown, republican, constable. Owing to the returns of the vote for the justices and constables not all being in the list of those elected cannot be given in this issue, but with the completion of the official count the list will be published next week.

For district attorney in this district T. J. Cleeton, the republican nominee, is elected by a small majority. For supreme judge R. S. Bean, republican, is re-elected by a good majority. On the congressional ticket in this district, Tongue is beaten by Vanderberg, the populist, and in the second district the republicans claim the election of Ellis and the populists claim that Quinn is elected. But as all counties have not been heard from the result is yet unknown with the probability that Quinn is the lucky man.

The populists will probably have 12 members in the next legislature, but this number may be changed when the returns are all in.

Pennoyer is the next mayor of Portland.

New Officials and Deputies.

In July a new set of county officers will take charge of the court house. A new lot of deputies will also hold down positions therein, and new faces will be seen in the various departments. As County Judge Hayes is a hold-over, there will be no change in that room. Assessor Bradley's term of office does not expire until the close of the year, and consequently it will be several months before there is any change in that department. E. E. Martin was assured Wednesday that he would be the next deputy county clerk, and he will no doubt fill that position acceptably. As to the deputy sheriffship, Mr. Grace informed a prominent populist Wednesday, that neither Dave May or T. B. Hankins would be his deputy, and furthermore that he had not yet made up his mind who he would appoint for that position. There will also be deputies to be provided for the treasurer and recorder's offices, but no names for these positions have yet been made public. It is probable that T. B. Hankins will resume the management of the Herald, after a few months, as he has mothered that chick with his protecting wings in the days when the wintry winds whistled bleak and bare.

A Fine Concert.

Last Thursday evening Shively's opera house was filled with an appreciative audience to listen to a concert by the Halcyon chorus of this city and Mrs. Walter Reed, the well known singer of Portland. The solos by Mrs. Reed were received with the most hearty applause and her singing was one of the leading features of the evening's entertainment. Mrs. Reed is justly entitled to the honor of being one of the greatest singers on the Pacific coast. Her voice is one of marvelous sweetness and great power and her command of it is truly wonderful.

The singing by the chorus was splendid and reflected much credit on Mrs. E. E. Charman, who has been the instructor and director of the chorus. The piano solo by Mrs. T. W. Clark was given a hearty encore and a determined effort was made to recall her but the lady only bowed her acknowledgment. A duet by the Misses Lou and Mattie Draper on the piano and violin was one of the attractions of the evening. As a violinist Miss Mattie has few equals in this section. In the reading of a humorous sketch by Mrs. Geo. C. Brownell gave a pleasing change to the program and she was treated to a ringing encore.

On the whole it was one of the best concerts ever given in Oregon City and was a decided treat to the musical loving people of Oregon City.

Red Seal spices are the best.

Renovating Beehives.

The stormy cold days may be profitably spent by apiarists in overhauling hives and giving them a coat of paint. Advice is given by The Prairie Farmer to make a calculation of how many hives will be needed and make a memorandum of it. Be sure that there are sections enough for another season and cases enough to hold them. Examine the smoker and see if it will stand another season's use. When the memorandum is made out, write for a catalogue of beekeepers' supplies from the nearest trustworthy apiarian who keeps them on sale, and order everything needed at one time. It will be cheaper, and you can bide your time now with much better grace than if you were losing a honey crop for the want of them. When the supplies arrive, the hives should be nailed, painted and stored in a convenient place, with the frames in them, ready for use, the cases nailed and painted, the sections put together with foundation in them, and the cases filled, ready to put on at a moment's notice. Care should be taken in piling up the cases that they fit closely one upon another, and the top one covered closely to prevent the accumulation of dust. During the press of other business it will take but a moment to slip on one of these prepared cases; otherwise, if it was not ready, the honey would go to waste for lack of time to prepare the case.

J. G. Zinser, of Mount Scott, was in the city Wednesday, and reports the fruit prospects as not very good in his section. TWOFOLD USE FOR A LAMP.

It May Not Only Light a Room, but Heat a Kettle.

For those people who are living in rooms and taking their board outside the house, not having the privilege of the kitchen range, the arrangement of utilizing the heat and at the same time the light from a parlor lamp as suggested by the accompanying sketch will readily commend itself.

The frame is easily made. Procure two upright standards with four supports or feet screwed to the four sides, and a

UTILIZING THE HEAT FROM A LAMP.

wooden bar across the top having a hook for suspending either a tin pail or tea kettle in which hot water may be boiled, eggs cooked or a cup of coffee or cocoa made.

To many girls who are in an office or store all day this simple arrangement will often take out a scanty meal without the added expense of an oil stove, which is something of an item when the weekly salary is small.

The standard may be set on the table with the lamp where one is at work, or the lamp may be placed on the floor, and two chairs, with a broom handle placed across the top of them, will answer the same purpose. The heat from the Rochester and other round burners is so great that it will boil water placed over it in a very few minutes. Care must be exercised that the kettle does not hang low enough to touch the top of the chimney. Two inches at least ought to intervene between the bottom of the kettle and the top of the chimney.

HEART DISEASE, like many other ailments when they have taken hold of the system, never gets better of its own accord, but constantly grows worse.

There are thousands who know they have a defective heart, but will not admit the fact. They don't want their friends to worry, and don't know what to take for it, as they have been told time and again that heart disease was incurable. Such was the case of Mr. Silas Farley of Dayton, Ohio who writes June 19, 1894, as follows: "I had heart disease for 23 years, my heart hurting me almost continually. The first 15 years I doctored all the time, trying several physicians and remedies, until my last doctor told me it was only a question of time as I could not be cured. I gradually grew worse, very weak, and completely discouraged, until I lived, propped half up in bed, because I couldn't lie down nor sit up. Thinking my time had come I told my family what I wanted done when I was gone. But on the first day of March on the recommendation of Mrs. Fannie Jones, of Anderson, Ind., I commenced taking Dr. Miles' New Cure for the Heart and wonderful to tell, in ten days I was working at light work and on March 19 commenced framing a barn, which is heavy work, and I haven't lost a day since. I am 56 years old, 6 ft. 4 1/2 inches and weigh 250 lbs. I believe I am fully cured, and I am now only anxious that everyone should know of your wonderful remedies."

Dr. Miles' Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at \$1.00 per bottle for \$5.00 or it will be sent prepaid on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.
