

REPUBLICAN PLATFORM.

Continued From First Page.

producers of this country. The republican party favors such protection as will lead to the production on American soil, of all the sugar which the American people use, and for which they pay other countries more than \$100,000,000 annually.

WOOL AND WOOLENS.

"To all of our products—to those of the mine and field, as well as those of the sheep and the factory—to hemp, to wool, the product of the great industry of sheep husbandry, as well as to the finished woolsens of the mill, we promise the most ample protection.

MERCHANT MARINE.

"We favor restoring the early American policy of discriminating duties for the upbuilding of our merchant marine, and the protection of our shipping interests in the foreign carrying trade, so American ships, the product of American labor, employed in American shipyards, sailing under the stars and stripes, and manned, officered, and owned by Americans, may regain the carrying of our foreign commerce.

MONEY.

"The republican party is unreservedly for sound money. It caused the enactment of the law providing for the resumption of specie payment in 1879; since then every dollar has been as good as gold; we are unalterably opposed to every measure calculated to debase our currency or impair the credit of our country.

"We are, therefore, opposed to the free coinage of silver except by international agreement, with the leading commercial nations of the world, which we pledged ourselves to promote, and until such agreement can be obtained the existing gold standard must be preserved.

"All our silver and paper currency must be maintained at parity with gold, and we favor all measures designed to maintain, inviolably, the obligations of the United States, and all our money, whether coin or paper, at the present standard, the standard of the most enlightened nations of the earth.

PENSIONS.

"The veterans of the Union armies deserve and should receive kind treatment and generous recognition. Whenever practicable they should be given the preference in the matter of employment, and they are entitled to the enactment of such laws as are best calculated to secure the fulfillment of pledges made to them in the dark days of the country's peril. We denounce the practice in the pension bureau, so recklessly and unjustly carried out by the present administration, of reducing pensions and arbitrarily dropping names from the rolls, as deserving the severest condemnation of the American people.

FOREIGN RELATIONS.

"Our foreign policy should be at all times, firm, vigorous and dignified, and all our interests in the western hemisphere carefully watched and guarded. The Hawaiian islands should be controlled by the United States, and no foreign powers should be permitted to interfere with them; the Nicaragua canal should be built, owned, and operated by the United States and by the purchase of the Danish Islands we should secure the proper and much needed naval station in the West Indies.

ARMENIAN MASSACRES.

The massacres in Armenia have aroused the deep sympathy and just indignation of the American people, and we believe the United States should exercise all the influence it can properly exert to bring these atrocities to an end. In Turkey American residents have been exposed to the gravest dangers and American property destroyed. There are, as everywhere, American citizens and American property must be absolutely protected at all hazards and at any cost.

MONROE DOCTRINE.

"We reassert the Monroe doctrine in its fullest extent, and we reaffirm the right of the United States to give the doctrine effect, by responding to the appeals of any American states for friendly intervention in case of European encroachment.

"We have not interfered and shall not interfere with the existing possessions of any European power in this hemisphere but those possessions must not on any pretext, be extended. We hopefully look forward to the eventual withdrawal of the European powers from this hemisphere and to the ultimate union of all the English speaking parts of the continent by the free consent of its inhabitants.

CUBA.

"From the hour of achieving their own independence, the people of the United States have regarded with sympathy the struggles of our American peoples to free themselves from European domination. We watch with deep and abiding interest the heroic battle of the Cuban patriots against cruelty and oppression, and our best hopes go out for the full success of their determined contest for liberty.

"The government of Spain, having lost control of Cuba, and being unable to protect the property or lives of resident American citizens, or to comply with its treaty obligations, we believe the government of the United States should actively use its influence and good office to restore peace and give independence to the island.

THE NAVY.

"The peace and security of the republic and the maintenance of its rightful

influence among the nations of the earth, demand a naval power commensurate with its position and responsibility. We, therefore, favor the continued enlargement of the navy and a complete system of harbor and seacoast defenses.

FOREIGN IMMIGRATION.

"For the protection of the quality of our American citizenship and the wages of our workmen against the fatal competition of low priced labor, we demand that the immigration laws be thoroughly enforced and so extended as to exclude from entrance to the United States those who can neither read nor write.

CIVIL SERVICE.

"The civil service law was placed on the statute books by the republican party, which has always sustained it and we renew our repeated declarations that it should be thoroughly and honestly enforced and extended wherever practicable.

FREE BALLOTS.

"We demand that every citizen of the United States shall be allowed to cast one free and unrestricted ballot, and that such ballot be counted and returned as cast.

LYNCHINGS.

"We proclaim our unqualified condemnation of the uncivilized and barbarous practice, well known as lynching, or killing of human beings suspected or charged with crime, without process of law.

NATIONAL ARBITRATION.

"We favor the creation of a national board of arbitration to settle and adjust differences which may arise between employers and employes engaged in interstate commerce.

HOMESTEADS.

"We believe in an immediate return to the free homestead policy of the republican party, and urge the passage by congress of the satisfactory free homestead measure, which has already passed the house and is now pending in the senate.

TERRITORIES.

"We favor the admission of the remaining territories at the earliest practicable date, having due regard to the interest of the people of the territories and the United States. All the federal officers appointed for the territories should be selected from bona fide residents thereof, and their right of self government should be accorded as far as practicable.

"We believe the citizens of Alaska should have representation in the congress of the United States, to the end that needful legislation may be intelligently enacted.

TEMPERANCE.

"We sympathize with all wise and legitimate efforts to lessen and prevent the evils of intemperance and promote morality.

RIGHTS OF WOMEN.

"The republican party is mindful of the rights of women. Protection of American industries includes equal opportunities, equal pay for equal work and protection to the home.

"We favor the admission of women to wider spheres of usefulness, and welcome their co-operation in rescuing the country from democratic and populist mismanagement and misrule.

"Such are the principles and policies of the republican party. "By these principles we will abide, and these policies we will put into execution. We ask for them the considerate judgment of the American people. Confident alike in the history of our great party, and the justice of our cause, we present our platform and our candidates in the full assurance that the election will bring victory to the republican party and prosperity to the people of the United States."

One of the most desirable features in a book or publication designed to be carried for the purpose of giving information, or for guidance in various pursuits is compactness of proportion. A book that will go into the pocket of an overcoat or duster is vastly more serviceable than a large bulky volume. It is said that one of the greatest reasons why the Hand-McNally Railway Guide is so popular is that its size 5x7 inches renders it entirely convenient under all circumstances. At the same time all the advice that could be desired can be found within its 672 pages. Subscriptions received at the home office, 166 Adam street, will be promptly acknowledged and the beautiful wall map of the United States, 66x44 inches, or if preferred, a large scale wall map of any state, sent the subscriber, prepaid. The map actually sells for \$2.00. Yearly subscription, \$3.00.

MISS C. GOLDSMITH, The Milliner.

The annual address before the Crescent Literary Society was delivered on Monday at 2 p. m. by Rev. J. W. Cowan, D. D. of Oregon City, and a very interesting and scholarly address it was. The attendance was quite small, but as the president of the society said it made up in quality what it lacked in quantity. The speaker in defining the word "Crescent" gave it a new and much more weighty meaning than many of his hearers had been accustomed to associate with it. Everything in the line of growth or progress, he said was crescent.—Newberg Independent.

People, who live in the vicinity of Green Point addition, are considerably annoyed by the depredations of tramps, as the south bound travelers first enter that comparatively unprotected portion of Oregon City. L. O. Smith was having a very good suit of clothes dyed, and they were left hanging in the basement of the dwelling to dry. As the basement was open a tramp who had been sojourning in the neighborhood all day, walked in and carried away the clothes.
