#### A Free Trade Object Lesson—Furnace Idle—Pig Iron Imported for Pipe Foundry—A Crystal Wedding.

OSWEGO, July 1.—The social event in Oswego this week was the celebration last evening of the crystal wedding of Mr. and Mrs. Albert Walling, at their handsome residence one mile above Oswego. At an early hour the guests began to arrive, and by nine o'clock the large and commodious rooms were filled to overflowing. Rev. R. M. Jones acted as master of ceremonies. (Declarations, speech-making and music was the order of the evening. Mr. Schell made the hit of the evening by singing an old song that Mr. Schell remembered used to be sung in Oregon in early days when a man had to get a wife in order to hold his section of land. Ice cream, cake and strawberries were served during the evening. Among those present from abroad were the father and mother of Mrs. Walling—Mr. and Mrs. Bagby, of Wilhoit; Calvin Bagby, Frank Bagby, and Jessie Bagby, all of Wilhoit; Mr. and Mrs. Clark, of Portland; Mrs. Dr. Sandford, of Glenwood; Mrs. Mark, of Oregon City, and quite a large number of other relatives and friends. Miss Loe Lodge, D. of H., of which Mr. and Mrs. Walling are honored members, attended in a body. The list of names of those who were in attendance from Oswego would be tedious to your readers. Suffice it to say that almost every house in Oswego was represented. The presents were numerous and appropriate. At a late hour the assembly broke up with the hearty wish that Mr. and Mrs. Walling may live many years and enjoy to the fullest extent the many blessings which are strewn along the pathway of life.

The young men's republican club gave a social hop Saturday evening in the Grange hall, which was well attended, and those present report an enjoyable time.

John Guignard, who has been quite sick for several days with heart trouble, is improving.

D. Nelson, T. Chuck, W. W. Todd, L. E. Morrell, Robert Orr, W. S. Smith, John Gardiner, and several other Oswego boys, spent three or four days last week fishing for trout in Eagle creek. They came home Saturday night and brought a goodly number of the speckled beauties with them.

The pipe foundry that has been shut down about ten days, started up this morning. It is not known for what length of time, probably for only a few days, and possibly for some length of time. The company has a large stock of pig iron on hand, nearly all of which was imported from Europe. What a splendid object lesson! A magnificent smelter lying idle, that if put in operation would give employment to hundreds of men and put in circulation thousands of dollars annually right here at home, while the iron that should be made at our own door is bought in a foreign market, and the money that should be paid to American labor, and would thus find its way into the channels of American trade, is sent abroad to enrich the coffers of foreign manufacturers. Who is responsible for this state of affairs? Surely not the American manufacturer. No, but the system of free trade, not only in manufactured products, but also in pauper labor, that is responsible for it.

Whenever actual occurrences of the kind above mentioned come under my own immediate observation it stirs my Yankee blood to such an extent that I feel like shouting for "America" and "three times three for McKinley and a tariff that is an absolute protection to all classes of the American people."

An infant son of Fred Schatz passed away in spasms, and the two graves were open side by side. The funeral services were one.
