THE ENTERPRISE CORRESPONDENTS SWEEP THE FIELD.

An Object Lesson in Home Immigration—Huckleberries Plenty on Eagle Mountains.

SALMON, Aug. 22.—J. T. McIntyre has just finished thrashing. He thrashed 400 bushels of grain, oats and wheat, for his seasons crop.

Mr. Bonner and family, Mr. Heitsman and Mr. Wadsworth and their families, and several other parties are camping at McIntyre's. Mr. Killingsworth and family passed last night here on their way to Mt. Hood. They will stop and camp here a few days on their way back.

A family passed here bound for Eastern Oregon, which consisted of a father, mother and ten children. The eldest of them being about thirteen years old. The mother is 32 years of age. There were one pair of twins, and one set of triplets, the rest single births.

Huckleberries are a good crop on Eagle Mountains this year. Numerous people are out after them, as there is a good graded path up the mountains from here, to the patch.

J. T. McIntyre's 10-year-old son Glen met with a painful accident, having a jagged cut, and had bruise made on his knee by his horse shying out of the road and jamming it against a tree.

New Era Notes.

NEW ERA, Aug. 23, '06.—Some time has lapsed since I last wrote to the ENTERPRISE, so I will endeavor to send in a few more items.

Harvesting is just about through with here in New Era precinct. Some have not threshed yet but will this week. Kaler's steam thrasher is now at Michael Huiras' place, and Mr. Richardson is threshing for August Stahley with his threshing machine. The low land wheat is yielding better than that on the high land this year. Crops are not good but average.

Mr. Richardson's thrasher engine while passing along the road last Saturday set fire to a fence belonging to J. G. Foster, and burned up several rods of it.

Mrs. J. G. Foster is down sick in bed again. She had recovered so as to be able to about but has now taken to her bed with a lame back.

The Mineral spring on Mike Huiras' place and the coal mine (which is a good one) on Mr. Brad's farm are the two great excitements of the times here.

Mr. David Penman, Sr. and David Penman Jr., and T. C. Thomas have returned from the gold mines on the Santiam but did not bring any specimens with them.

H. A. Waldron and R. B. Doughty have traded some damaged hay for a horse. He has also sold several tons of hay to F. T. Barlow. It is nice looking hay and done up well in bales 14x18 inches.

The new school house is nearing completion and makes quite an imposing appearance with its belfry over the porch. We shall need a bell now.

However, any young man need not be ashamed to receive encomium from friends and acquaintances which appeared in your last issue concerning our young neighbor Earnest.
