COUNTY CENTRAL COMMITTEE

Hold an Enthusiastic Republican Meeting Saturday.

Pursuant to call the Clackamas county republican central committee held a meeting at the city council chamber Saturday afternoon at two o'clock, Chairman S. M. Ramsby presiding.

Twenty-one out of the 36 precincts in the county were represented, and the gathering was noted for being imbued with an extraordinary amount of enthusiasm for a county central committee, as these gatherings are usually very prosy matter-of-fact affairs.

The majority of the committee expressed themselves as being very hopeful for the success of McKinley and Hobart at the November election. Mr. Daniels was appointed to fill the vacancy on the committee from Beayer creek by a unanimous vote.

It was decided to have public speaking in every precinct in the county, and committeemen will be expected to communicate with the secretary when speakers are wanted, as by pursuing this plan conflicting dates will be avoided. It was also recommended that the committeemen of each precinct work harmoniously together to further the objects and purposes of republican organization.

There are several precincts in the county where there has never been any republican speakers, and it is the desire of the committee to have these places supplied as well as the most populated precincts. County republican headquarters have been established at Secretary Ryan's office, where a plentiful supply of campaign documents can be obtained. Any one desiring campaign literature can obtain the same by applying or addressing headquarters: The following committee-men were in attendance:

Charles Holstrom, Abernethy, J. E. Marks, Barlow, Thos. Daniels, Beaver Creek, L. D. Shank, Canby, William Welch, Cherryville, F. M. Osborne, Damascus, John VanCuren, Eagle creek, E. Williams, Garfield, J. M. Tracy, Hardings, H. Kleinsmith, Highland, John H. Darling, Maple Lane, C. T. Howard, Milk creek, W. S. Rider, New Era, T. F. Ryan, Oregon City No 1, George Broughton, Oregon City No 2, J. L. Swafford, Oregon City No 3, J. A. Tutts, Oswego, A. Aschoff, Sievers, Jacob Miley, Union, T. S. Stipp, West Molalla, J. P. Logan, Upper Oregon City.

Weddings Galore. A favorable omen of McKinley's election and returning prosperity, is the fact of the numerous weddings that have occurred in this vicinity during the past few days.

Miss Helen Sifton, daughter of Mrs. E. E. Martin, was married last Friday to Phillip Holden, of Clackamas Heights. The bride was one of Oregon City's most estimable young ladies, and Mr. Holden is popularly known by a wide circle of acquaintances. Mr. and Mrs. Holden will reside in Oregon City.

Mrs. E. E. Davis, of San Miguel, Cal. says: "I am trying in a measure to repay the manufacturers of Chamberlain's Cough Remedy for the great good their remedy has done me."

For years I was a constant sufferer from weak lungs and bronchial asthma. My rest at night was disturbed by a hacking cough, so that I felt miserable the greater part of the time. Many remedies recommended by friends were tried, none of which proved suitable to my case.

I did not experience any beneficial results until I began taking Chamberlain's Cough Remedy. After two bottles of the large size have been used I am pleased to state, my health is better than it has been for years. The soreness has left my lungs and chest and I can breathe easily. It has done me so much good that I want all who are suffering from lung troubles, as I was, to give it a trial." For sale by G. A. Harding, druggist.

Insurance that insures— F. E. DONALDSON.

J. R. Mattock, the well known New Era farmer, was in the city Saturday, and reports that the grain already threshed has fallen considerably below the average. His wheat turned out 21 bushels to the acre, which the reapers estimated would yield 35 bushels to the acre while the cutting was being done.

The wheat grains are not plump like they were last year, which accounts in some measure for the shortage. Mr. Mattock states that the August rains greatly improved the prospects for the potato crop, which will be up to the usual standard.

With a small outlay of money and labor a good wagon and bicycle road can be made between Portland and Oregon City on the West Side, 11 miles in length. The road to Riverside Inn is in good condition and from Oregon City to Oswego is one of the finest drives in the country. There is a gap of about two miles between the Riverside Inn and Oswego, which needs improving. The Oregon Road club should take the matter in hand and see that it is opened. It is not too late for this season.—Portland Evening Tribune.

ABOUT CLACKAMAS COUNTY.

Large in area and in Population, and Various resources.

Clackamas county has an area of about 1,500 square miles and a population of 22,000. In 1890 the population was 15,233 and in 1880 it was 9,200. Being one of the Lower Willamette valley counties, and reaching from the river to the mountains, it naturally follows that Clackamas must have a considerable variety of surface characteristics and natural productions. It has a wide range of farm products. Its timber is abundant and valuable. It has a large mineral wealth, only a small portion of which is under development—indeed, in the volume and value of its manufactures, Clackamas county ranks second in the counties of the state.

Besides the Willamette river, the Clackamas, the Molalla and Pudding are important streams flowing from the eastward; and the valleys of all of them are uniformly rich and well suited to agriculture. There are no better lands anywhere than in these bottoms. The soil is of surpassing richness, and is easily tilled. Back a little from the streams is what is known as second-bottom land; that is, land possessing most of the characteristics of that bordering on the streams, but somewhat drier and suitable to the production of crops that might be injured by excessive moisture. Still further back is upland of all grades to the most mountainous. Of course there are many secondary watercourses, and on the ridges separating them is fine farming and grazing land, the soil in general being of a clayey nature.

All the common farm crops are grown. Wheat, oats, barley, buckwheat, various grasses, beans peas, potatoes, and other root crops, melons, strawberries, grapes, currants, blackberries, raspberries, cherries, plums, prunes, peaches, apricots, and apples of all kinds, are among the productions of Clackamas county. Vast quantities of hops are also raised. The only teal farm west of the Mississippi river is in this county. Fruit, wheat, hops and potatoes may be named as the most important agricultural productions of the county. The fruit raising industry is probably the most susceptible of expansion. The small prairies in the central and southern parts of the county cannot be surpassed in the advantages they offer for the raising of peaches, prunes and small fruits. Others flourish there, of course, but these are particularly mentioned, because they are generally regarded as the most profitable and affording a basis for the rapid upbuilding of a great industry.

By going back a few miles from the river, or into the foothills, many choice locations may be engaged in with profit, and comfortable homes made. Many of the old settlers have farms of several hundred acres each; and with the growing disposition to divide up these tracts into smaller farms, a large amount of such land is now and must continue to come into the market. The Oregon City Board of Trade will be glad to supply full information regarding this locality. Pacific Northwest.

Indigestion Cured. Depressing times depress the mind; the digestion is disturbed. Two or three doses of the S. B. Headache and Liver Cure will restore your health to a normal condition. 50 cents per bottle. For sale by C. G. Huntley, druggist.
