Sweetness and Light. Put a pill in the pulpit if you want practical preaching for the physical man; then put the pill in the pillory if it does not practise what it preaches. There's a whole gospel in Ayer's Sugar Coated Pills; a "gospel of sweetness and light." People used to value their physic, as they did their religion, by its bitterness. The more bitter the dose the better the doctor. We've got over that. We take "sugar in ours"—gospel or physio—now-a-days. It's possible to please and to purge at the same time. There may be power in a pleasant pill. That is the gospel of Ayer's Cathartic Pills.
