feet wide at the bottom and about eight home on the overland, thus ending one new, comfortable rigs, and gentle, safe, feet high. An ice cold stream of water, of the most delightful outings we ever horses that have plenty of get up and go clear as crystal, issues from the lower had,

We entered the lower cave, lighting our candles and making one end of our string fast, unwinding as we went so

in giving relief, and now keep no other regular and rough and sometimes it was in my home." When troubled with a very hard climbing getting through. there were not many stalactites in this part of the cave it was not very interesting We passed through the dining hall, a room ten or twelve feet wide with a level rock shelf som three feet wide was in Oregon City Tuesday with a load and ten feet long on one side about three feet above the floor. We explored several side passages and examined everytning as we went along and finally came out at the upper entrance, baving gone a distance of 250 feet as measured by our string and having been in the

caves between three and four hours. The rest of the party arrived about four o'clock and after arranging our camp and eating a lunch we all went into the upper cave. The passageways here are more even and regular than in the lower cave and the walls are white and covered with stalactites and other curious and fantastic sound or tone, each one different when

struck, and a skilled musician could in many places produce beautiful music opon them. One place resembled a pipe organ in appearance and as the top of it was smooth it was covered with names of former visitors and among others we noticed the name of B. F. Linn of Clack-

In some places where a crust or new floor is forming over the old one, the most exquisite crystals are found beautiful beyond description.

In one place some of us, one at a time, by lying flat on the floor and wriggling our way along, were able to get to a little chamber about thirty inches in diamdo all their trading at Medford, driving ater where we found some small but fine specimens of the formation.

The scenes in the caves were wierd and fantastic and in many places exeven and the road excellent. We ar- forts and hard work in reaching them ner for the headquarters of the League sages and rooms.

A company was formed at one time DeWitt's Little Early Risers. Small in ladies, half of our party concluded to and a large force of men employed in wait until morning and spend the after- building a road to the caves and in open- dent Dresser and the other officers pronoon in getting more horses, but three ing and making them more accessible by putting in ladders and enlarging some of the passageways but after several weeks jority in this county for McKinley. work the company became financially After leaving the wagon road the trail is embarrassed and was obliged to abanquite steep for several miles until the don it. There is now no one living summit of the mountain is reached, then within several miles of the caves and down through a canyon and up a long the cabins built by the company near the entrances are rapidly going to ruin and kept on climbing until long after dark, a decay. They are frequently visited by parties of young people living in easy trail and only knowing when we were in traveling distance and only occasionally by those who come from a distance of finally stopped, started a big fire and forty m'les or more. There are several The next morning we went on to the top the caves several times and explored of the mountain and out of the woods them to a considerable extent, who can into a large clear place, where lost our be secured as guides for a reasonable plore them alone.
