Which? Which?

In communities where wageworkers predominate Mr. Bryan continues to deny any intention of cheapening the dollar. He knows and they know that this would mean diminishing by onehalf the purchasing power of wages and reducing by one-half the value of all savings, insurances and loans. And so he pretends that free coinage will increase by nearly one-half the price of silver and make a silver dollar worth truly as much as a gold one But in the west and in farming com-

dered issued in favor of Mrs. Winesett munities Mr. Bryan waxes eloquent on for the care and keeping of Ruby Can- the need of a cheaper dollar to increase the price of farm products and enable the farmer to pay \$100 of debt with \$51 in silver. Leading silver advocates at the tarmers themselves are the great the west have repudiated Mr. Bryan's their communities—first class banks of idea for eastern hearers only that free deposit and discount. Mr. Shearman 10 00 coinage will increase the price of silver 8 50 to \$1.29. They say flatly that such dol-5 00 lars would be as bad as gold. What 3 90 they want is a dollar worth only 51

Which dollar does Mr. Bryan really want? He caunot have both. Which is to be bunkoed-the workingman or the farmer, the mine owner or the debtor? 4 00 Which?-New York World:

Why Capital Is Timid Today. There is capital enough for every legitimate business enterprise, and by 8 70 the processes of credit it can be multi-10 50 plied indefinitely, but it cannot be set 10 50 plied indefinitely, but it cannot be set real monetary or currency grievance.

One of the duties of the government—one of the important duties of government—is the putting of rings in the noses of hogs.—From W. J. Bryan's Labor Day Speech.

THE FARMER'S REAL GRIEVANCE.

Not a Lack of Money In the Country, but of Banking Facilities In Country Dis-tricts Mr. Shearman's Proposed Rem-

Why has Canada no currency question, no cry for cheap money and no campaign against gold? These are questions which Mr. Thomas G. Shearman answers very effectively in the London Times of Sept. 11.

Briefly summarized, Mr. Shearman's explanation of the discontent among tain delinquent taxes. Mr. Cross also furmers, which has lead to the ridicu-Wm. Andresen of lot 6 in the same farmers in the west and south are deprived of the benefits of banking facilities. They seldom see or use a check and are unacquainted with the benefits of banks and bank credits. For this rency in most rural districts. The "country store" supplies in part and in s crude and costly way the credita which tide many farmers over from one season to another. Because of the great risk involved, the storekeeper, by charging high prices for his goods and by paying low prices for farm products, really gets from 25 to 40 per cent interest on the credits given to the farmers. Of course such interest eats up all of the profits of a large class of farmers.

The country storekeeper really does a banking business in a clumsy and cost-ly way. Local banks, such as exist in Canada, would furnish the farmers with credits at about ope-fourth the cost of store credits. With such banks the farmers could sell their crops for checks, deposit them in banks and take up their discounted notes in this way. The farmer knows nothing of this method of conducting transactions and thinks that his needs can be supplied only by making more money-ch

money if necessary. The farmers, therefore, make no efforts to obtain better banking facilities. Instead they work and vote against banks and bankers at every opportunity. They tax money and oth canable capital at 2 or 21/4 per cent while demanding that interest be reduced to 2 per cent. They thus drive away the very money they are so eager to get. In some sections of the south it is 50 or 75 miles to the nearest bank. They prohibit branch banks, such as exist in Canada and Scotland to the great advantage of remote country districts.

The farmers themselves are the greatmakes this point clear. He says that Canadian farmers "have suffered from the fall of prices and from every other alleged result of the single gold standard to the same extent as the farmers south of them. Yet there is no bimetalhe league in Canada, and the cry for cheaper money is not heard. Canada has not only enough money to supply all of her own wants, but also lends such great amounts in the United States that jealous American bankers sometimes try to shut Canadian money out,"

Mr. Shearman sees what too few seem to see-that the farmers have a only way of giving relief. He offers something positive. That the farmers are not willing to take the only remedy for their ills and prefer the quack free silver and cheap money remedies only prolongs their sufferings and makes a rational solution of the money question more difficult and uncertain.

Property and Industry.

Property is the fruit of labor, Property is desirable, is a positive good in the world. That some should be rich shows that others may become rich, and hence is encouragement to industry and enterprise. Let no man who is homeless pull down the house of another, but let him work diligently and build one for himself, thus, by example, assuring that his own shall be safe from violence when it is built —Abraham Lincoln.

Worst of All Misfortunes.

The great trouble about repudiation is that you cannot pay debts with it more than once. In other words, it involves the crucifixion of credit on a cross of rascality, and the loss of credit is the worst of misfortunes. -St. Louis Globe-Democrat.
