COLONEL INGERSOLL ON MONEY.

Me States Some Plain Truths In His Own Unique Way.

Following is an extract from the speech of Colonel Robert G. Ingersoll at Chicago on Oct. 8:

Money that is money needs no guarantee, needs no backer; it is always good. No matter how many nations go fown to dust, good money remains forever the same. We have a man running for the presidency on three platforms, with two vice presidents, that says money is the creature of law. If the government can make money by law, why should the government collect laxes? According to Mr. Bryan, our fathers were the friends of silver, and yet our dear old fathers in all their lives only minted 8,000,000 of these sacred dollars. Now see what the enethies of silver have done. Since 1873 the enemies of silver have coined over 430,000,000 of these dollars, and yet silver kept going down. We are coining now over \$9,000,000 a month, and silver keeps going down.

Senator Jones of Nevada, in 1878, voted for the law of 1873. He said, from his speech in the senate, that God had made gold the standard. He said that gold was the mother of civilization. Whether he has heard from God since or not I do not know. But now he is on the other side. Senator Stewart of Nevada was there at the time, but voted for the act of 1873 and said that go' was the only standard. He has changed his mind. No government can afford to be a clipper on coins.

A great republic cannot afford to stamp a lie i silver or gold or paper. Honest money for an honest people, issged by an honest nation. You cannot make a paper dollar without taking a dollar's worth of paper. We must have paper that represents money. I want it ued by the government, and I want behind every one of these paper dollars either a dollar in gold or a silver dollar worth 100 cents, so that every greenback under the flag can lift up its hands and swear, "I know that my redeemer liveth." That was where I was 20 years ago, and that is where I am to-night.

For nations and individuals, at all times, everywhere and forever, honesty is the best policy. Better be an bonest hankrupt than a rich thief. Poverty can hold in its hand the jewel honor-a jewel that outshines all other gems. A thousand times better be poor and noble than rich and fraudulent. Nobody can be helped by free coinage except the few people who could pay their debts if they were willing. Some say that it would help the mine owners. It would not. Coining this bullion into dollars would not increase its value, because you could coin the bullion of the whole world and the supply would be greater than the demand. Have freecoinage to-morrow, and there is not a silver mine owner that would make a dollar-not one-by changing it into American coin. It would only be worth what the bullion is worth in the open market.

We want good money-good, honest money. And there was never any re prosperity for a nation or an individual without honesty, without integrity, and it is our duty to preserve the reputation Bros. Block. of the great republic.

Wheat, Cotton and Silver.

While Bryan is telegraphing the New

price to all comers-hold it there? That's all you have to do-hold it there. "Nobody would sell it for a cent less," says Bryan, so long as you held it. "So with silver." And the man who is putting forth such thought as this is a candidate for the presidency of 70,000,000 of people in the closing years of the nineteenth century! Where Are the Benefits? If 50 cent silver dollars should double the prices of farm products, it is quite

as certain that the prices of all the preducts which the farmer consumes would double in the same way. In that case it is not easy to see how the farmer would gain anything by the free coinage of silver. Even the wages of labor, the last to rise in an epoch of depreciated currency and inflated prices, would finally, after much distress of the workingmen, straggle up to the common level.

But whether the farmer should receive \$100 for 100 bushels of wheat and pay out \$90 for the necessaries of living or should receive \$200 for the same wheat and pay out \$180, in both cases the balance on hand would have just the same purchasing power. But in accomplishing the degradation of the monetary standard, which could do neither the farmer nor the wage earner any good, an enormous depreciation of values and confiscation of accumulated earnings, involving public and private credit in a maelstrom of destruction, would inevitably ensue. Are the farmers and workingmen of the country willing to invoke such a catastrophe?-Philadelphia Record.

Cheap Land for Sale.

160 acres of land, nearly all level bottom land; easily cleared; well watered; two fine mountain streams running through it; fine trout streams; would make a fine stock ranch; near public road ; one mile and a fourth from Colton post office and school house ; we have six months school in each year; three miles from saw mill; large range for stock; can give good title. Price per acre \$4.50. For terms and further information call

at my place or address W. E. BONNEY, Colton post office, Clackamas Co., Ore.

Our Standing at Home.
