New Era Pleased With the Increased School Levy.—Quantities of Potatoes Being Shipped.

New Era, March 9.—We are having typical March weather, sunshine and showers follow each other in quick succession.

The spring term of New Era school will open on Monday, the 15th, inst, when Prof. Hankins will teach the young idea to shoot.

Dr. G. K. Ramsey, accompanied by his wife and son, have arrived at New Era from Oklahoma. They are visiting their visiting brother-in-law, C. F. Buckles. The doctor is looking over this locality with a view of establishing himself as a practicing physician. We are in hopes he will be favorably impressed with New Era and decide to locate in our midst.

J. L. Hoffman has loaded a scow with cord wood. It was towed to Oregon City by the steamer Eugene yesterday.

Rev. Father Hillebrand, of Oregon City, conducted services in the Catholic church at New Era yesterday.

In spite of the recent decline in the potato market, spuds are moving quite freely from here. Geo. H. Brown forwarded about 400 sacks to San Francisco per river steamer steamer on the 8th inst, while smaller shipments leave here almost daily. This point has many potatoes remaining in first hands yet. Several of our largest growers have their entire crop on hand and have been waiting for higher prices.

We are pleased to learn that the available school fund will be increased throughout this county by increase of the tax levy. Money could not be expended more wisely than to advance the cause of education.

The gripe has disappeared and our people are generally in the enjoyment of good health.

The board of school directors of district No. 63 of this county, held a meeting at Brown's school house this evening and received bids for the cutting of five cords of wood. George Blanchard was the successful bidder at \$1.35 per cord.

R. J. Brown has been pruning his prune orchard. Mr. Brown has about 15 acres of as nice prunes as there are in this country.

Frank Oliver's brother from Portland paid him a visit last week.

The literary society at Leland's school met Saturday evening to vote a name for the society. It has been going by the name of Hog Hollow literary society and some of the members thought it might have a more appropriate name.

Mrs. O. Olson who has been confined to her bed for the past week is recovering rapidly.

Wm. Maple left last Thursday for Rossland, B. C., where he will spend the summer.

The regular quarterly examinations are being held at the Parkplace school.

The Parkplace Literary society met as usual last Friday evening with a good attendance. The meeting was called to order by the president, W. C. Brown. The minutes of the previous meeting were read by the secretary, Miss Florence Patty. The question debated was, resolved, that the United States should establish a national system of education. The leaders were E. J. Maple and Capt. J. T. Apperson. After a thorough discussion of the question, the judges, Misses Sidney Hill, Estella Bracken and Mattie Telford, rendered their decision in favor of the negative. Following the debate was a literary programme rendered as follows: Duet, Miss R. E. Smith and Dotie Bill; recitation, Miss Mary Heurth; song, by eight little folks from Miss Bracken's room; reading of the Expositor by the editor, Mr. J. W. Faubion; solo, Miss Ada Heurth. A business meeting was then called for the purpose of electing officers for the ensuing month and transacting other business. The following were elected:

ed: Mr. E. J. Maple, president; Mr. Geo. H. Hinder, vice-president; Miss Nora Elliott, secretary; Mr. J. W. Faubion, treasurer; Mr. Louis Ball, editor. The president appointed the following persons to act as programme committee: W. J. Dauchy, C. H. Williams, Florence Patty and Dollie Cross. Upon motion the society adjourned.

The society has accepted a challenge to meet the Willamette Falls debating club in joint debate on Wednesday night of next week. The question selected is, Resolved, "That this nation will decline and fall as all other great nations have." The Willamette Falls society have chosen the negative side.

The literary society will render the new comic drama entitled "Old Hickory Farm" next Saturday evening. The proceeds are to go toward paying for the organ. It is hoped that every one will lend a helping hand toward so good a cause, and there is no doubt that those who attend will get their money's worth. This is to be the crowning event of the season in the literary line. Cooke's orchestra will furnish music for the occasion. Come and enjoy a good laugh.

The Enterprise parliamentary club dispensed with its regular meeting for this week, and will hold its next meeting at the home of H. Jewell, of Gladstone. The question to be debated is, Resolved, that the indications point to a longer life to the American nation than to any other nation. The leaders are Misses Dollie Cross and Nora Elliott. C. H. Williams will read a paper on the early history of Clackamas county.

The Hickory Farm, a comedy drama of New England farm life will be given at the schoolhouse on Saturday, March 13, by the young people of the school. It promises to be an entertainment of more than usual merit, and is deserving a good house. The proceeds are to go to the organ fund of the school.

Mulino Notes.

MELINO, March 8.—The Mulino Lumber Company are having the machinery rapidly set up in their new mill, and expect to commence sawing lumber about the 15th of March.

William Evans is setting out fruit trees on his new place here.

The Molalla Shingle Company, of Liberal, will move their shingle mill to this place in about two weeks.

Miss Ada Randall, of Central Point, spent a few days among us last week.

Mr. Schueneisen, of Portland, spent a few days here last week in the interest of the creamery. We are pleased to state that the prospects are good for a creamery at this place. The farmers of this county should devote more time and study to the creamery business. The county here has all the natural advantages to make darning a success. Mr. Schueneisen assures us that an ordinary cow will net \$5.00 per month with just average feed and care, good cows making from \$10 to \$20 per month with good feed and good care. This certainly shows the creamery business to be a very profitable business indeed.

A good programme was given at the literary on Saturday night, and the schoolhouse was filled to the doors. All enjoyed the exercises which consisted of songs, recitations, dialogues, comedies, farces, etc. The society gives a program every Saturday night.

SMYRNA NEWS.

SMYRNA, March 8.—March came in like a lamb, but the lion showed his claws after the first few days.

Prof. Young's school here, No. 92, closed a week ago Friday and he has been engaged to teach the Dryland school for the summer term.

John J. and Miss Anna Yoder were visiting relatives at Forest Grove Saturday and Sunday, returning to-day.

Walt Noblitt, road supervisor for the Needy district, has started out to make a record for himself we suppose as he has already repaired several next to impassable places in the roads near here. Let the good work go on.

Miss Sadie Crocker, who has been staying with B. F. Halladay's near Newburg, during Mrs. Halladay's last illness is at home again.

Fred Lantz has gone to work in Ben Dimick's shingle mill near Hubbard.

Several cattle men have been through here of late buying up all the young cattle at fair prices. Last year these same cattle could not be given away. It is thus that the advent of better times is appearing.

Uncle Ben Roop is up from Portland. He gave the Endeavorers an interesting talk on the revival work in that city on last Sunday evening.

Marysville Notes.

MARYSVILLE, March 6.—Frank Sager has taken a wife.

Mr. Manning lost two horses and a cow last week.

We understand that Miss Sour Mayfield will be employed to teach our school during the school term.

At the school election held on March 1st, F. M. Manning, the retiring clerk, was elected for school director to serve for three years, and Mrs. Mary Manning was elected clerk, to serve for one year.

William Mueller is still sick with sciatic rheumatism.

Evard and Louis Sager will start in a few days for the mines of Alaska, where their father, F. L. Sager, has been for over a year.

Frank Mueller's team ran away with the plow the other day. They brought up in a fence, with a slight damage to the plow and harness. The horses were uninjured.

Borings Breezes.

BORINGS, March 10.—Bert Richey left a few days ago for Kronenburg, where he will probably stay until next fall.

Miss Rose Weatherly, who has been visiting at J. A. Richey's for several weeks past, has returned to Portland.

Our debate was well attended Saturday evening, the question being, Resolved, that capital punishment should be abolished, with Ole Aemissegger and Gilbert Eri as leading disputants. After a very hot discussion it was decided in the affirmative. After the debate we were well entertained by excellent literary exercises.

Next Saturday night we will have a mock trial, a breach of promise between Miss

Minta Birdsall and Albert Spallinger, Messrs. E. F. Bruns and John Epperson being the attorneys.

With McKinley as president the people of this community are expecting better weather and also better times.

Highland Notes.

HIGHLAND, March 5.—The farmers in this section are almost through with their spring work.

The hop men are taking advantage of the good weather to poll their hops.

At the annual school meeting Jeff Jones was elected director to succeed M. E. Kandle and G. R. Miller was re-elected clerk.

The Highland teachers are preparing for the spring work. Miss Tennie Mayfield is again employed to teach the Springwater school. Miss Sour Mayfield is engaged to teach the Marysville school. Mr. Charles Rutherford will teach the spring school at Redland, where he is teaching at present. George Harrington will leave on the 14th to begin school in the Douglas district. Miss Minnie Harrington will close school at the Cascade locks this week and return home for the summer.

Mrs. T. J. Kirk has just returned from Portland, where she has been visiting her son Vesta, who is lying very low at the hospital with typhoid fever.

Jeff Jones will leave in a few months for Heppner, where he will put in a few months shearing sheep.

Dangers of the Grip.

The greatest danger from a gripe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for a gripe, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that this remedy is a certain preventative of that dread disease. It will effect a permanent cure in less time than any other treatment. The 25 and 50 cent sizes for sale by Geo. A. Harding.
