C. A. MILLER, SUPR.

FRIDAY, MARCH 26, 1897.

WEATHER FOR APRIL.—Weather prophets and other manipulators for Jupiter Pluvius will probably be able to diagnose the weather for the coming month by the following data furnished by the Portland weather man, B. S. Pague, and covering a period of 25 years for the month of April. The mean temperature for the month during that time has been 53 degrees; the warmest month was in 1881, with an average of 55 degrees; the coldest was in 1885, with an average of 46 degrees; the hottest day was the 28th of April, 1893, when the thermometer went up to 85 degrees; and the coldest was on the 7th in 1875 when it went down to 28 degrees. April 11 is the average date on which the last killing frost has occurred in the spring. The average rainfall for the month during these 25 years has been 3.21 inches; the greatest monthly precipitation was 7.88 inches in 1883 and the least was 1.72 inches in 1885, while the greatest rainfall recorded in any 24 consecutive hours was 10.34 inches on the 2nd of April 1883. The average number of clear days has been 6; partly cloudy 10; and cloudy 14. The prevailing winds have been from the south. The highest velocity of the wind was 46 miles per hour from the southeast on the 3d inst. in 1895.

THE DEADLY WILD PARSNIP.—Settlers along the coast and in the foothills have had so many cattle killed by eating wild parsnips that the Agricultural college is trying to find an antidote for the poison. Two experiments were tried. The first one to determine whether or not the bulbs would actually kill. A bulb was cut into small pieces, mixed with a carrot cut up in the same way, and fed to a two year old heifer. The material was fed at 8 o'clock a. m. and at 9:30 the animal was dead. The following day a yearling was fed upon the bulbs and different medicines given to save its life without avail and it expired 24 hours after the poison was administered. The root is not especially relished by cattle but as it appears early in the spring before other vegetation, at a time when they are especially hungry for something green, it is readily eaten. This wild parsnip has no relation to the tame parsnip and is known in other places as the water hemlock. Further experiments will be made in finding an antidote for the poison. Until the antidote is found the best remedy is the best remedy is the "ounce of prevention" administered by keeping the stock away from the bulbs, at least before the tops are grown, for they are more violent in their action at that stage.

"A SURVEY OF GREEK CIVILIZATION."—At their meeting last Monday evening at Mr. C. H. Dye's the Chautauquians finished their course in astronomy. This has been one of the most interesting studies yet taken up by the circle and greatly delighted the members, who found it not the dry study they had anticipated, but one easily understood and which will prove of value to them in

after years. Mrs. Dye proved herself to be an astronomer of no mean attainments and despite the fact that she had no telescope with which to demonstrate the lessons, she made it easy for the class to understand the various constellations and to familiarize themselves with the movements of the planets, etc. At their meeting next Monday evening the circle will take up Prof. Mahaffy's "Survey of Greek Civilization," to be followed by Greek art. Professor Mahaffy is the greatest living Greek scholar and his book is considered one of the most able contributions yet made to Chautauqua literature. He is a professor in the University of Dublin and wrote the work at the special instance of Bishop Vincent of the American Chautauqua.

SECRETS WITH FLOWERS.—Some people are successful in growing flowers while others are not, yet the unsuccessful grower may have as good soil and devote as much time and labor to their flowers as does their neighbor, yet failure is their reward. The difference is, one grower knows how to grow flowers while the other does not. There are two ways of learning how to grow flowers one is by the bitter and disappointing school of experience and the other by getting the experience and knowledge of others through a magazine devoted to floriculture, "Success With Flowers" a monthly magazine, 32 pages, published by Dingee & Conard Co., West Grove, Penn., is one of the best publications in America for the amateur flower grower. Its helps and hints are all practical and can be relied on. By following its instructions there can be no failure in growing the most delicate plant or bush. Subscription price 25 cents per year, or with premium of fifteen varieties of flowers 40 cents. Send for sample copy.

CEMETERY ASSOCIATION.—Zion Cemetery Association of Canby was recently organized and officers elected as follows: Trustees, Wm. Russell, Wm. Vorpahl and Fred Myers; secretary, H. C. Weber; treasurer, J. Mundorf. The association has purchased two acres of land 1 1/2 miles east of Canby in a slightly location where they expect to have one of the nicest arranged burying grounds in the county.

DENTISTRY.—Dr. J. H. Miller, dentist, treats all diseases of the oral cavity such as pericementitis, periostitis, gingivitis, necrosis of the maxillary bones, pyorrhea, alveolaris and fibrous tumors of the gums. Artistic gold and porcelain crowns and fine plate work, first-class workmanship. Examinations free. Terms reasonable. Office 7th street.

SPRING HAS COME.—We respectfully inform you that the spring opening of millinery goods and latest novelties in imported hats will take place Friday, Saturday and Monday, March 26, 27 and 29 at Miss Celia Goldsmith's millinery parlors.

MILLINERY OPENING.—March 25, 26, 27 at the Red Front. Elegant spring hats at Eastern prices. A cordial invitation to all the ladies. Mrs. Maggie E. Hamilton.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Hall's Family Pills are the best.

The President's Social Life.

Ex-President Harrison, whose articles in the Ladies' Home Journal are creating such widespread interest, will write about "The Social Life of the President," in the April issue of that magazine. The ex-president will tell of the dinners, receptions, etc., that are given by the chief executive and detail the great social demands made upon him. He also gives a peep into the white house dining room and silver closet, and notes the beauty of the service used for state dinners, which was bought at second hand. It is said that he also pays heed to the oft-repeated question, "How much of his salary can a president lay aside?"

For Young Men and Young Women

There is nothing that will arouse the ire of a young man or woman so quick as to have inferior laundry work put off on them. They may dress ever so well, but if their shirt front or shirt waist is mussed their neat appearance is spoiled. The Troy laundry makes a specialty of ladies' and gentlemen's fine work. There can be no better work than is done at the Troy. Leave your orders at Farnsworth's barber shop.

A torpid liver means a bad complexion, bad breath, indigestion and frequent headaches. To avoid such complications take DeWitt's Little Early Risers, the famous little pills. Geo. A. Harding.

Y. M. C. A. NOTES.

The average daily attendance at the association rooms for this month will be 110; average number of baths daily, 11; at gospel meetings, 55; in gymnasium classes, 18. What would it be if we had a suitable building?

"Christ among men" will be the topic under discussion at the men's meeting on Sunday afternoon at 4 o'clock. The Crescent quartette will assist in the song service and sing special selections. A most cordial invitation is extended to all men to attend.

The vocal music class will close its second term on Tuesday night, March 30. The number of pupils enrolled was 53 and the average attendance for the 12 weeks 37. The third term of ten weeks will begin on Tuesday night, April 6, and close on Tuesday night, June 18. The tuition fee will be the same as before, 50 cents for 10 lessons. All are cordially invited to join, whether members of the association or not.

Young men who are interested in the upbuilding of manly character ought to be members of the Young Men's Christian Association for the following reasons: 1st. No other organization offers such opportunities for all round development. No matter what (legitimate) occupation a man enters he will find the privileges of the association helpful; 2d. Every young man owes it to his friends and associates to be identified with that which is uplifting and helpful; 3d. No greater brotherhood of men exists on earth today than the Young Men's Christian Association.

Minutes seem like hours when a life is at stake. Croup gives no time to send for a doctor, delay may mean death. One Minute Cough Cure gives instant relief and insures recovery. The only harmless remedy that produces immediate results. Geo. A. Harding.

Sankey's New Sacred Song.

Evangelist Ira D. Sankey, the singer and composer, has written a new sacred song for the April Ladies' Home Journal. He has given it the title of "The Beautiful Hills," and considers it superior to his famous "Ninety and Nine." Mr. Sankey wrote it with the special view of its appropriateness for outdoor choral singing—for campmeetings and other religious and semi-religious gatherings.

Our Standing at Home.

"Four out of every five bottles of medicine sold in the last five years are S. B. goods. The S. B. Headache and Liver Cure I use myself as a general physic. If you are sick and want to get well, the quickest, cheapest and safest method is to buy the S. B. remedies and use as directed. C. P. BALCH, druggist, Dufur, Or." For sale by C. G. Huntley.

Indigestion Cured.

Depressing times depress the mind; the digestion is disturbed. Two or three doses of the S. B. Headache and Liver Cure will restore your health to a normal condition. 50 cents per bottle. For sale by C. G. Huntley, druggist.

RIPANS TABULES

are good for headache, heartburn, sour stomach, belching biliousness, torpid liver, drowsiness, lassitude, foul taste in the mouth, bad breath, constipation, indigestion, dyspepsia.

The formula by which they are made is in use in the greatest hospitals in the world and is prescribed daily by nine doctors out of ten. Three times in five when a physician is called he will write a prescription the items in which will almost exactly correspond with those of the Ripans Tabules formula.

Your druggist can supply Ripans Tabules in little vials for 15 cents or in a box containing six of these vials for 50 cents. If he will not get them for you, address, with the price,

PURELY VEGETABLE.

The Cheapest, Purest and Best Family Medicine in the World!
An ERECTILE SPECIFIC for all diseases of the Liver, Stomach, Regulate the Liver and prevent CHILLS and FEVER, MALARIA, COMPLAINTS, RHEUMATISM, JAUNDICE AND HEMORRHOIDS.

BAD BREATH!

Nothing is so unpleasant, nothing so common, as bad breath; and in nearly every case it comes from the stomach, and can be so easily corrected if you will take SIMMONS' LIVER REGULATOR. Do not neglect to secure a remedy for this repulsive disorder. It will also improve your appetite, complexion and general health.

PHLEGS!

How many suffer torture day after day, making life a burden and robbing existence of all pleasure, owing to the secret suffering from Phlegm. Yet relief is ready to the hand of almost any one who will use systematically the remedy that has permanently cured thousands. SIMMONS' LIVER REGULATOR is no drastic, violent purge, but a gentle assistant to nature.

CONSTIPATION

SHOULD not be regarded as a trifling ailment—in fact, nature demands the utmost regularity of the bowels, and any deviation from this demand paves the way often to serious danger. It is quite as necessary to remove impure accumulations from the bowels as it is to eat or sleep, and no health can be expected where a cative habit of body prevails.

SICK HEADACHE!

This distressing affliction occurs most frequently. The disturbance of the stomach, arising from the imperfectly digested contents, causes a severe pain in the head, accompanied with disagreeable nausea, and this constitutes what is popularly known as Sick Headache, for the relief of which TAKE SIMMONS' LIVER REGULATOR ON MEDICINE.
