FRIDAY, APRIL 23, 1897.

THE BICYCLE PROBLEM.—Bicycles have become so numerous and necessary as a means of locomotion and recreation, and their use, like many another blessing to humanity, so often abused or misused by reckless and selfish riders, that just what restrictions shall be put upon them is something of a problem. At a special meeting of our city council Friday evening an ordinance was ordered published, regulating the speed of bicyclists at eight miles an hour in daytime and six miles at night and the absolute prohibition of wheeling on the sidewalks at any time and under any circumstances. The strict enforcement of this ordinance would practically exclude wheelmen from a considerable portion of the city where the streets are rocky and unimproved, and is considered by cyclists as unnecessarily severe in a town like Oregon City. In this connection it might be well to state that Portland has about the best ordinance on the subject of any city in the country. There riding a bicycle on any sidewalk in the city is permitted, provided the rate of speed does not exceed six miles per hour, and not nearer than 30 feet from any pedestrian then on the same sidewalk, on the same side of the block or square, and that any person who shall attempt to pass by any pedestrian thereon and shall with such bicycle in any manner run against, strike or collide with such pedestrian, such rider shall be presumed to have intended to commit assault and battery, and shall be sentenced accordingly. This ordinance prohibits the riding of bicycles on the principal streets because of the number of pedestrians a wheelman would meet and at the same time permits one to ride upon less frequented walks where the roads are entirely too rough for wheeling, like the roads to Clackamas Heights or to Canemah. Bicyclists are more interested in good roads than any other class of our citizens because they see the need of them as no one else does and will do more to secure them than almost anyone else. The members of the local wheelmen's organization of which John F. Clark is president, E. E. Williams vice-president; and W. A. Huntley, F. E. Donaldson, F. S. Kelley and J. M. Lawrence trustees, will use every effort and pledge themselves to assist the police officers in enforcing any reasonable ordinance regulating the use of wheels. It is always some rattle-brained youngster who spurts through the streets like the belated fragment of a storm and not members of any bicycle club. The careful rider should not be made to suffer for the misdeeds of the reckless and lawless. If a fair and equitable ordinance is passed by the council they will receive the co-operation of the sensible wheelmen of the city in enforcing it. Reckless riders will use the sidewalk more or less in spite of any ordinance to the contrary and it will be impossible to apprehend and punish the violators with our meager police force. In fact it will be impossible to enforce any bicycle ordinance without the co-operation of the responsible wheelmen of the community.

A NATION OF READERS.—No people read to the extent that Americans do as is proven by the number of newspapers printed in the various countries of the world. According to N. W. Ayer & Son's newspaper annual for 1897, there are now 21,955 newspapers and magazines published in the United States, a gain of 730 over the number for 1896. Of this

number 2,238 are daily publications, 16,402 weekly and 2,235 monthly, the remainder being made up of semi-weeklies, semi-monthlies, etc. There are 1217 papers published in foreign languages in the United States, German leading off with 788 and French following with 129. The other foreign languages represented are Arabic, Armenian, Bohemian, Cherokee, Chinese, Danish, Finnish, Greek, Hebrew, Hollandish, Hungarian, Norwegian, Icelandic, Irish, Italian, Japanese, Latin, Lutheranian, Portuguese, Russian, Slavonic, Slovenic, Spanish, Swedish and Welsh. The tribes of Central Africa and of the plateaus of Asia being the only people on the broad face of this earth without a newspaper in free America. European nations intermarry their ruling families in order to strengthen their foreign relations, but here we have gone them one better and have intermarried the common people with every nation on the globe, so that it would be impossible for us to engage in a foreign war without fighting our kindred.

THERE'S MUSIC IN THE AIR.—The prospects are very favorable for Oregon City to have a first-class brass band in the near future. Some 16 of the best musicians of the city met for practice on Monday and Wednesday evenings of this week and expect to perfect an organization next week. The movement will doubtless receive the encouragement and support of our citizens and business men generally. A good band is one of the best advertisements any city can have. Oregon City is fast becoming the convention city of the state and nothing enlivens occasions of this kind like music by a good band. We trust the boys will be successful in their undertaking.

SUGAR BEET SEED ALL GONE.—All the sugar beet seed, at the disposal of the beet sugar committee, of the board of trade, has been distributed. If the parties to whom the same has been given, will give the seed thorough cultivation there should be sufficient samples raised, to thoroughly test the sugar beet in this county.

PERSONAL.—The gentleman who annoyed the congregation last Sunday by continually coughing will find instant relief by using One Minute Cough Cure, a speedy and harmless remedy for throat and lung troubles. Geo. A. Harding.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer \$100 for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & Co., Toledo, O. Home Beautifying.

There is nothing that adds more to the attractions of a home than flowers. The flower-surrounded home is always a happy one, for cross tempers and the "blues" are quickly dispelled by the cherry faces of the bright flowers. At the Gladstone greenhouse the finest collection of carnations ever grown in Oregon City is now ready for the market, as well as that prince of flowers, the sweet perfumed hyacinth which is potted and ready to bloom. The primroses are also in their perfection and in a vase make a most pleasing present to a friend. Other standard flowering plants in stock. Cut flowers for sale. Prices reasonable. JAS. WILKINSON, JR.

Stands at the Head.

Aug. J. Bogel, the leading druggist of Shreveport, La., says "Dr. King's Discovery is the only discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: Dr. King's New Discovery is all that is claimed for it: it never fails, and is a sure cure for Consumption, Coughs and Colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and to-day stands at the head. It never disappoints. Free trial bottles at Charman & Co.'s Drug Store.
