

PATRONIZE OUR HOME INDUSTRIES

The prosperous community is the one that within itself, most supplies its own people in their various needs, and by selling much and buying little, keeps its money from going abroad,

Our farmers and manufacturers would each have a better market for their products, if our people would encourage our local manufacturers by giving preference to their products over those imported from other places. Were such the practice, it would not be long until Clackamas county would be one of the greatest industrial centers on this Coast.

An Industrial Exhibit.

The attention of all citizens of Clackamas county who wish to aid in the development of our agricultural, mineral and manufacturing interest is called to the work of Oregon City board of trade through its special committee on exploitation. The committee wants to obtain samples of every mineral found in the county. Of the clays the samples should be large enough so that working tests can be made to ascertain their value. The various mineral specimens should be plainly labeled with the name of the donor, the location from where taken, the apparent quantity in sight and any other data relative to their value.

The board of trade would also like to have samples of the various kinds of manufactured articles of every class and description.

For the agricultural exhibit farmers should commence preparing now. As their products mature the board wants samples sent in properly labeled and the board asks the farmers to plant and cultivate with that end in view. They want to maintain a permanent exhibit here in Oregon City and also mean to have the best county exhibit at the Industrial fair in Portland next fall. They also contemplate showing the exhibit East at points where they think the greatest good will accrue to Clackamas county.

This is a matter in which all citizens of this county are directly interested and

each one should endeavor to further the cause and insure the success of the undertaking.

The members of the committee are: Charles Meserve, E. E. Charman, J. G. Pillsbury, J. A. Thayer and J. F. Clark, and articles for the exhibit can be left with any one of them or at the ENTERPRISE office.
