# To Your Interest

To consider the wisdom of this little bit of plain advice we are going to give you about tea. Tea is as little understood by the average merchants as by the average consumer. He may charge you 75 cents for a tea worth 25 cents and still not make a large profit. He buys his teas like the consumer, from appearances solely. The fact is, the prettiest looking tens are artificially colored and have lead, terra-alba and other matter added to increase their weight. It's small wonder so many people pre-fer coffee and don't care for tea. A pound of pure tea will make from 200 to 250 caps. It is therefore not expensive. As it is the princi-pal beverage of nearly three-quart-ers of the people of the earth it must be considered wholesome. Our stock is a feature of our business. We carry the largest stock and greatest variety. We can and greatest variety. We can make you all tea drinkers if you'll give us a chance to find what suits your taste, and you will never regret it. Samples cost you nothing.
