O. L. Barber of Elliott prairie left at this office last Saturday a bunch of hops that have almost matured. Mr. Barber has 16 acres in hops and this early hop is a lone vine in his field, the origin of which is unknown to him. It ripens each year about three weeks earlier than the common varieties. It is a fine yielder, but not of special merit. Mr. Barber states that it will require at least 500 hands to pick the hops grown in his vicinity and the growers are already engaging their help. He also left a Gravenstine apple that is perfect, not a worm hole or blemish being upon it. His fruit trees are heavily loaded, and the fruit of a quality equal to the days of long ago when Oregon was noted for the red apples.

How Old are You?
It makes no difference whether you answer or not. It is always true that "a woman is as old as she looks." Nothing sets the seal of age upon a woman's beauty so deeply, as gray hair. The hair loses its color generally from lack of nutrition. If you nourish the hair, the original color will come back. That is the way that the normal color of the hair is restored by
Ayer's Hair Vigor.
