

# PATRONIZE OUR HOME INDUSTRIES

The prosperous community is the one that within itself, most supplies its own people in their various needs, and by selling much and buying little, keeps its money from going abroad,

Our farmers and manufacturers would each have a better market for their products, if our people would encourage our local manufacturers by giving preference to their products over those imported from other places. Were such the practice, it would not be long until Clackamas county would be one of the greatest industrial centers on this Coast.

### Keep the Road Dry.

F. A. Dunham, who has been prominently identified with the far famed system of modern highways of New Jersey, at a meeting of the Connecticut Valley Highway association, stated that poor material well put together can be made to produce better results than first class material carelessly put together. Nothing is more fatal to durability than the drainage of the road-bed, and more particularly the sub-drainage, which is often neglected. A macadam road cannot be left to itself after a completion, but needs constant supervision.
