

PATRONIZE OUR HOME INDUSTRIES

The prosperous community is the one that within itself, most supplies its own people in their various needs, and by selling much and buying little, keeps its money from going abroad.

Our farmers and manufacturers would each have a better market for their products, if our people would encourage our local manufacturers by giving preference to their products over those imported from other places. Were such the practice, it would not be long until Clackamas county would be one of the greatest industrial centers on this Coast.

An Extraordinary Migration.

One of the greatest mysteries to scientists, one for which there seems to be no reasonable explanation, is that concerning the migration of the lemming, or Norway rat. Instead of taking place once a year these migrations occur only once in every 11 years. When the time comes for the exodus, the little animals journey westward from Scandinavia, allowing nothing to stop their movements, which virtually amount to a headlong flight. They swim the lakes and rivers and climb the highest mountains in incalculable numbers, devastating the whole country through which they travel. Naturalists attribute the migration to some inherited memory of a flight to escape an expected cataclysm, but this seems somewhat far-fetched.—Pittsburg Dispatch.
