### Big Acreage of Wheat at Redland—Enforcement of the Compulsory Education Law Asked For.

REDLAND, Oct. 18.—The excellent weather of the past four weeks has been made use of by the farmers, who have been plowing and sowing fall wheat. There will be a large acreage sown this fall.

Apples are being gathered, and those that are not worth putting away for winter use will be dried.

Misses Bessie and Mary Hay, of Portland were up to attend the ball at Logan and visited with Miss Ida Barrett.

It looks as if it were about time that the law was enforced upon the parents who do not send their children to school. There are some children in this district, No. 21, who have not attended school three months in as many years. Because the parents did not get an education is no reason why they should refuse their children the opportunity of attending school. As a rule it is the children of such parents as these who are the kind mentioned in last week's *Extras* in an article on runaway marriages and divorces. If the law was enforced on such people and their children made to attend school there would be less bums, drunkards, loafers, dead beats, gamblers and prostitutes and fewer divorce cases in our courts.

It looks as if those people who close up public roads had better look out or they are apt to get their "foot in it," as the saying is. Miss Olive Mosier, with her brother, D. H. Mosier, spent one day last week visiting friends in Portland.

A large crowd attended the ball at Logan Friday evening of last week. They enjoyed themselves very much, so they say. That's right young folks, have a good time.

A little child of Arthur Sorrenson's died last Friday morning and was buried at Rock Creek church at 2 o'clock p. m. Saturday.

Perry Yoder left for Corvallis this morning, where he expects to attend the Agricultural college during the remainder of the school year.

A young man of this neighborhood started the other evening with his prospective bride and attendant bridesmaids in search of some one to pronounce the magic words, but when they had done as far as the saw mill one wheel of their back collapsed, leaving the party in an unenviable position, but the young man was equal to the occasion and while the ladies kept up their courage by the shab fire, the prospective groom went back some two miles for a farm wagon, after which they went on their way rejoicing. All's well that ends well and when our general justice of the peace, Ben Smith, had said the words that made them man and wife they wended their way home again. ### How to Find Out.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

### WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-root, the great kidney remedy fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp-root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet both sent by mail. Mention OREGON CITY ENTERPRISE and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

### Stray Horse.

Strayed from Willamette Falls about August 1st, a gray mare, six years old, weight 1300 pounds height 16½ hands, collar mark on back of neck, one hip slightly lower than the other, a little stiff in the shoulders. A liberal reward for information leading to the recovery of the animal.
