

# PATRONIZE OUR HOME INDUSTRIES

The prosperous community is the one that within itself, most supplies its own people in their various needs, and by selling much and buying little, keeps its money from going abroad.

Our farmers and manufacturers would each have a better market for their products, if our people would encourage our local manufacturers by giving preference to their products over those imported from other places. Were such the practice, it would not be long until Clackamas county would be one of the greatest industrial centers on this Coast.

### Dangerous Ink.

It sometimes happens that a trifling scratch or puncture made with a pen gives rise to dangerous septicaemia. The chemical constituents of the ink which is introduced by the pen into the wound are not capable of producing septicaemia, but microscopical examination proves that the ill effects are due to the liability of ink to contain pathogenic bacteria. Dr. Marpmann of Leipzig has recently published the results of the microscopical examination of 67 samples of ink used in schools. Most of them were made with gall nuts and contained saprophytes, bacteria and micrococci. Nigrosin ink taken from a freshly opened bottle was found to contain both saprophytes and bacteria. Red and blue ink also yielded numerous bacteria. In two instances Dr. Marpmann succeeded in cultivating from nigrosin ink a bacillus which proved fatal to mice within four days. This ink had stood in an open bottle for three months, and the inference to be drawn from the inquiry is that ink used in schools should always be kept covered when not in use.—London Lancet.

### Tedious Work of Old Bookmakers.

During the twelfth and thirteenth centuries monks frequently isolated themselves from the world and reproduced the Bible in illuminated manuscript. The work was necessarily slow and in no instance was it accomplished in less than 85 years. Guido de Jars was a producer of these illuminated manuscripts, and a beautiful specimen

of his work was sold along with the books of Sir W. Burrell in 1790. This copy of the Bible had occupied half a century in its production. A note in the beginning of the manuscript in Jars' handwriting indicates that he began his task in 1244 and did not conclude it till 1294.

### A Translation.

It is related that a sophomore one commencement day was crossing the campus of Emory college, Oxford, Ga., with his sweetheart, who stopped to read the inscription upon the stone to the memory of Ignatius Few, the first president.

"What does that mean?" she asked, pointing to the line, "Vivit—non mortuus est." Proud of his ability to translate Latin, the student explained: "He lives. No, he don't; he's dead."

—New York Christian Advocate.

### What He Was After.

Congressman—So you want to serve your country, do you?

Applicant—Well, I ain't particular whether I serve my country much or not, but I should like to get an office at a good salary.—Somerville Journal.

When the house of commons goes into committee of ways and means, it is for the purpose of discussing taxation and voting money for the public service.

Wood wanted at this office, oak, fir or limb. In length 16 or 22 inch or four foot.

### Going East?

IF YOU ARE,  
DO NOT FORGET

### Three Important Points

FIRST—Go via St. Paul because the lines to that point will afford you the very best service.

SECOND—See that the coupon beyond St. Paul reads via the Wisconsin Central because that line makes close connections with all the trans-continental lines entering the Union Depot there, and its service is first-class in every particular.

THIRD—For information, call on your neighbor and friend—the nearest ticket agent—and ask for a ticket reading via the Wisconsin Central lines, or address
