Willey and H. Emken. A court of discipline for the trial of delinquents will be held at the armory, Wednesday, January 5, 1898.
Headache stopped in 30 minutes by Dr. Miles' Pain Pills. "One cent a dose."

CHAUTAUQUANS AT WORK.

Professor Gray Will Go to California This Month.

A meeting of the board of directors of the Willamette Valley Chautauqua Association was held in the office of President Miller last Saturday, for the purpose of outlining the work for the coming year, to fix the time for the next annual meeting and transact other business.

Professor Gray was selected to go to California to meet coast delegates from other Chautauqua organizations, when a meeting will be held on December 28. The object of this meeting of delegates is to formulate plans for the coming Assembly. It was decided by the board that an effort should be made to secure Dr. Talmage of Brooklyn, and General Gordon of Georgia, for lectures during the session, from both of whom favorable letters have been received expressing their desire to come to the coast.
July 12th next was partially agreed upon as the date for the next meeting of the Assembly, the session lasting 11 days. This is subject to a change, however, pending the result of Professor Gray's mission to California.
The secretary and president were authorized to begin the organization of the classes for the coming assembly. The forenoon will be given up entirely to class work, except when there may be an occasional lecture in line with the forenoon work. This is on account of a general desire upon the part of the Chautauquans who wish to devote more time to the serious work of the assembly.
The general consensus of opinion among the board of directors was that there would likely be fewer lectures but of a higher and more satisfactory character. They desire that the people of Oregon shall have the opportunity of hearing the brightest and best speakers in America.
In addition to the general features of the Chautauqua assembly an effort will also be made to organize an athletic tournament, participated in by all the colleges in Oregon. The board is earnestly at work to make the assembly of 1898 the most intellectually profitable one ever held on this coast.

Royal makes the food pure, wholesome and delicious.

ROYAL BAKING POWDER
Absolutely Pure

PERSONAL NOTES.

Miss Lydia Gilliam, of Salem, is clerking in the Racket store during the holidays.

Mrs. H. P. Hawley and her brother, Henry Pusey, visited Barlow relatives last Friday.

Attorney George W. Hazen, of Portland was looking after legal matters in this city last Saturday.

Julius Priester, of Maple Lane, one of the republican wheelhorses of the county was an Oregon City visitor Thursday.

Joseph Schwartz, the clothing dealer, has moved into the Pardon cottage on the corner of Adams and Fifth street.

W. W. Irvin of Barlow was in this city Wednesday evening. Mr. Irvin is engaged in buying and shipping stock.

H. A. Pittinger, formerly in the real estate business in this city, has a position as clerk in the Portland postoffice.

Captain S. B. Ormsby was down from Salem last Saturday enjoying the society of Register Moores and Receiver Gallaway.

N. O'Conner, who has just completed eight years service in Uncle Sam's army, arrived in the city Tuesday and is visiting his friend Lawrence May.

The Rev. F. C. Butler, a brother of the pastor, preached at the Congregational church last Sabbath morning on the "Light Giving Word," to a good congregation.

C. P. Bryant, a former representative of the Portland Flouring Mills Company of this city, now traveling for one of the leading grocery firms of the metropolis, was in Oregon City Tuesday.

County Clerk Dixon, who by the way is one of the most successful poultry fanciers in the country, sent a Brown Leghorn cockerel to Moscow, Idaho, Tuesday, to compete for a prize in a chicken show in that city.

After being confined to his home for more than two weeks from lagrippe, Mr. E. E. Charman was again at his place of business last Wednesday, looking somewhat pale but determined, if possible, to master the disease.

W. B. Partlow, the prince of cider makers, has placed us under obligations again with a generous supply of his finest toke. Mr. Partlow's cider is pure, sweet and manufactured from apples that are sound and free from worms.

W. H. Connell, of Lents, was in the city Wednesday last and reports that a petition for a postoffice at Harmony has been numerously signed and forwarded to the department at Washington. It is said a postoffice at Harmony would be of great convenience to the people of that locality.

Rev. H. L. Boardman, president of McMinnville college, occupied the pulpit of the Baptist church in this city last Sabbath morning and preached an eloquent sermon on the subject of "Christian Education." Under President Boardman's direction McMinnville college is enjoying one of the most prosperous years in its history.

S. M. Ramsby has moved in from Molalla and is occupying one of Daniel Williams' cottages on Sixth street. The change is made necessary on the account of Mrs. Ramsby's health, who is suffering from catarrh of the stomach and is here for medical treatment. It will be pleasing news to her many friends to know that she is gradually improving, with every prospect of a complete restoration to health.

K. H. Gabbert, the well known local man of the Herald, says he has been waiting some years to get rich, when he expected to get married. He has now made up his mind to get spiced as soon as he can get money enough to buy the license and pay the preacher. Judge Schebel has agreed to perform the ceremony free and County Clerk Dixon is being importuned to donate the license, so the ceremony will probably take place about Christmas.

To Assist the Sufferers.

Senator McBride has introduced in the senate a resolution asking that the government take immediate steps to assist in transporting supplies into the Klondike region and providing for an appropriation of not exceeding \$250,000 for the purpose. The senator is sparing no effort to have something done in the matter as early as possible. No definite action has yet been taken by the senate committee, but the matter will, no doubt, be taken up very soon.

All pain banished by Dr. Miles' Pain Pills.

The Assessment Roll.

The following table shows the amount and quality of the property from which Clackamas county derives its revenue. The assessed valuation is \$150,000 higher this year than last, and if the valuation had not been reduced by the board of equalization the principal industries of Clackamas county would probably have been driven elsewhere; and certainly under such a rate no new industries could be expected to come.

Acres tillable land 78,459	\$ 297,115

Murder Near Emanuel Church.

Another murder was committed in San Francisco near the scene of the Minnie Williams and Blanche Lamont murders for which Durrant is to be executed, last Wednesday. The plan of the murder and the circumstances surrounding it were very similar to those for which Durrant will pay the penalty. The victim is supposed to be Mrs. Mary C. Clute, a wealthy resident of Watsonville, Cal. She had just rented a flat from a Miss Blanchard and the noise of carpet laying was heard in the lower flat. The tacking ceased and all was quiet for a time; then terrible screams were heard. The occupants of the building became alarmed and proceeded to investigate, when they saw a man leaving by an alleyway leading to the rear entrance. On going up stairs the dead body was found. The carpet layer has been arrested and the police are in search of Miss Blanchard.

River Improvement.

Work on the Upper Willamette from Eugene to Harrisburg, is progressing rapidly under the direction of Captain Freeman, who has the snag boat in charge. All sunken logs and stumps which have interfered with navigation are being dug up. Several dikes must be built at various points to create a stronger current of the river which will sweep away bars and such obstructions. In all, \$19,000 will be expended, and Captain Freeman believes that this will be sufficient to make the river navigable at all seasons.

Matters In Probate.

The following new cases have been filed: R. Freytag vs George Maple and wife to recover money due on account, set for Wednesday, December 22.
Geo. B. Seely vs George Boland and I. C. Clutter, suit to recover money due on a note. Set for Monday, the 27th.

Coming.

Arnold and Lampman's greater New York Comedy and Specialty company. At Shively's opera house night of Dec. 21 giving first class vaudeville performances. Highly spoken of.

MAKING PLATE GLASS.

An Operation That Requires a Deal of Skill and Care.

A visit to a plate glass works reveals nothing perhaps more interesting than the casting tables on which the heavy plate glass used in most store windows is cast. "The casting tables," said the superintendent of a large factory, "are the most important pieces of apparatus in this establishment."
"Each table is about 20 feet long, 15 feet wide and from 7 to 8 inches thick. The heavy strips of iron on either side of the tables afford a bearing for the rollers and determine the thickness or diameter of the glass to be cast.
"The rough plate is commonly nine-sixteenths of an inch thick, but after polishing it is reduced to six or seven sixteenths. All casting tables are mounted on wheels which run on a track made to reach every furnace and annealing oven in the factory. The table having been wheeled as near as possible to the melting furnace, a pot of molten glass is lifted by means of a crane and its contents poured quickly on the table.
"A heavy iron roller then passes from end to end, spreading the glass to a uniform thickness. This rolling operation has to be done by expert hands quickly, as the boiling glass, when it comes in contact with the cold metal of the table, cools very rapidly. When the rolling process has been completed, the door of the annealing oven is opened and the plate of glass is introduced.
"The floor of the annealing oven is on the same level as the wheels of the casting table, so that the transfer can be made by rail quickly. When the glass is ready to be taken out of the oven, its surface is very rough. In this condition it is used for skylights and other purposes where strength is desired rather than transparency, but when intended for windows it is ground, smoothed and polished and is then ready for the market."—Boston Globe.
