FRIDAY, DECEMBER 31, 1897.

A Novel IDEA -The Salem Independent cracks the following joke on a Lane county farmer: "A man in Lane county has hit upon a new way of grubunder his stumps with a crowbar, filling the holes then with wheat; and then turning hogs loose in the field, lets them root the stumps out in their efforts to get to the sea the wheat."

DR. GEARY WILL LEAVE. - Dr. E. P. Business Improving .- Tuesday's Oregonian contained two columns of interviews with merchants of that city regarding the business situation and the holiday trade. In every instance the expression was that business had been better than last year and a number did not besitate to state that sales had been larger than for many years, all of which goes to show that people generally are in passing it, or bad effects following use City Manufacturing Co. for itheir kind furnishes cheerful table talk about men all Souls which have been possessed in patience will reap their reward.

BE NOT TOO MODERT .- Many good items of news are lost to the newspapers by the modesty of the people, who besttate to tell the reporter of matters concerning themselves, says the Browns ville Times. Not that they do not want it published but that they are afraid they would be putting themselves forward. This is a wrong idea. From a reportorial standpoint the man who will stop a newspaper reporter on the street and infor n him that he has been in Chicago or some other city, that his wife entertained friends from a distance, is the best man alive. May his likeness increase on the earth. If you have done anything mean, disreputable it isn't necessary to tell it, for there are always plenty of people will do that for you. It is the good things about yourself and neighbor that the newspaper man wants you to tell him

MR. HAMMOND'S ROADS .- When Mr. Hammond shall have extended the Corvallis and Eastern to Pendleton and Malbeur, what then? The emmense volume of traffic seeking an ocean outlet will demand either rail conection with Astoria and Columbia River or an improved harbor at Yaquina. If the latter improvement fails, the connection of the Eastern Oregon line with the Astoria route will become imperative. With the latter connection once made, there will be little need, so far as the purposes of the Corvallis & Eastern are concerned, for the line from Corvallis westward. There was never so much need of the people of the middle Willamette and Yaquina to bend their energies in promoting the Yaquina imbing out his stumps. He makes holes provement as now. Failure to secure it might result in abandoment of the western portion of the Yaquina line and the destruction of the only competing line
