## SPECIAL SCHOOL MEETING.

### A Special Tax of Seven and One-Half Mills Voted.

A special school meeting was held in Pope's hall Monday evening for the purpose of levying a tax for school purposes for the ensuing year. The meeting was presided over by Dr. J. W. Norris, chairman of the board, who requested Mrs. McCown, clerk, to read the call for the meeting. Dr. Norris then read the following estimate made by the board of directors of the probable amount of money that would be needed to carry on the public schools for the year 1898, together with such recommendations as seemed necessary.

OSWEGO CITY, Feb. 7, 1898.—To the taxpayers of school district No. 62, Clackamas county, Oregon.

Ladies and Gentlemen:

We, your directors herewith submit an estimate of the cost of maintaining the schools in this district for the ensuing year, to wit:

Salaries of teachers.....	\$6710 50
" Janitors.....	650 00
" Clerk.....	100 00
School supplies, stationery etc.....	250 00
Janitor's supplies.....	25 00
Fuel.....	180 00
Repairs to furnaces.....	25 00
" Desks.....	35 00
" Blackboards.....	100 00
" Building.....	100 00
Interest on bonds.....	720 00
" floating debt.....	56 50
Water rent.....	48 00
Total.....	\$9000 00

The estimate is made on the supposition that we can get along with the same number of teachers the coming year as the last. Should, however, the number of pupils be increased it will be necessary to employ an additional teacher, fit up a room and purchase the necessary desks and furniture thus entailing considerable extra expense. We hope, however, to get through this year with the present number of teachers.

We estimate our income from state and county apportionment to be as follows:

State.....	\$1000
County.....	3000
Total.....	\$4000

As against \$4,735.00 last year. This is owing to the fact that the taxable property in the county is less than last year and the further fact that our census shows a less number of children of school age in the district, being about one thousand as against eleven hundred last year.

Assuming our estimates to be correct, it will require a tax levy of seven mills to meet the actual necessary expenses of conducting the schools for the next year. A seven-mill levy will raise less money than six mills did last year, owing to the fact that the assessable property in the district only amounts to \$743,000 this year as against \$885,000 last year, a difference of \$142,000.

In the above estimate we have placed only the amount that we consider absolutely necessary to be met in the conduct of the schools and we now take this occasion to call to your attention the desirability, we might also say the necessity, of providing new closets at the Eastman school as those now there are not fit for children to use, not to mention their unsanitary condition, which cannot be remedied. We have investigated the matter of new closets and find that new ones similar to those now in use at the Barclay building (which have proved very satisfactory in use) can be built for about \$500. We consider this a very necessary and desirable thing to do and recommend that you vote an additional half-mill tax for this purpose. We feel sure that if you will visit the school grounds and investigate for yourselves that you will agree with us that new closets are in the interest of decency, morality and health and not hesitate to provide us with the necessary funds to make the change.

Respectfully submitted,  
J. W. NORRIS,  
W. E. CARL,  
C. H. CAUFIELD,  
Directors.

The report was ordered placed on file, whereupon Mr. George A. Harding offered in substance, the following resolution: "Resolved, that a special tax of 7½ mills be levied against all assessable property in the district to be extended on the 1898 tax roll." The resolution was adopted with only two dissenting votes. After some discussion in regard to the matter the meeting adjourned.
