A fact often overlooked, or not always understood, is that women suffer as much from distressing kidney and bladder troubles as the men. The womb is situated back of and very close to the bladder, and for that reason any distress, disease or inconvenience manifested in the kidneys, back, bladder or prinary passage is often, by mistake, attributed to female weakness or womb trouble of some

The error is easily made and may be as easily avoided by setting urine aside for twenty-four hours ; a sediment or settling is evidence that your kidneys and bladder need doctoring.
