"A word to the wise is sufficient" and a word from the wise should be sufficient but you ask, who are the wise? Those who know. The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky., for twelve years; has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best. For sale by Geo. A. Harding.

A Narrow Escape. Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four Doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles free at Charman & Co.'s Drug Store. Regular size 50c and \$1.00. Guaranteed or price refunded.

What use is there in eating when food does you no good—in fact, when it does you more harm than good, for such is the case if it is not digested? If you have a loathing for food there is no use of forcing it down, for it will not be digested. You must restore the digestive organs to their natural strength and cause the food to be digested, when an appetite will come, and with it a relish for food. The tired, languid feeling will give place to vigor and energy; then you will put flesh on your bones and become strong. The Shaker Digestive Cordial as made by the Mount Lebanon Shakers contains food already digested and is a digester of foods as well. Its action is prompt and its effects permanent. Doctors prescribe Laxol because it has all the virtues of Castor Oil and is palatable. A dollar saved is equal to two dollars earned. morals and Sex. Whatever the Turveydrops of the moral world may have to say about the necessity for elevating moral deportment on the part of "woman, bewitching woman," I have never been able to see any indubitable intent in nature herself toward binding them over to any higher moral standards than she does men. Both men and women seem to me to be compounded of the same average morality, though with certain unlike manifestations, largely the result of circumstances and opportunities. I see no special cause for believing that the average woman under like temptation would do very differently from the average man—a belief which is not lessened by Bishop Potter's recent accusation before the women's auxiliary of the Civil Service Reform association that they put their relatives into office whenever they get the chance, "without any evidence that they are fitted to fill the places they applied for." Possibly women were intended by their Creator to stand for the reformatory interests of life, but I think there is not as yet sufficient evidence thereto, either in the nature of things or of women, to warrant any special abrogation of other distinct and more familiar duties in favor of interests mainly moral.—Helen Watterston Moody in Scribner's.

For Young Men and Young Women. There is nothing that will arouse the ire of a young man or woman so quick as to have inferior laundry work put off on them. They may dress ever so well, but if their shirt front or shirt waist is mussy their neat appearance is spoiled. The Troy Laundry makes a specialty of ladies' and gentlemen's fine work. There can be no better work than is done at the Troy. Leave your orders at Johnson's barber shop.

SYRUP OF FIGS
