A Good Talk.—The Y. M. C. A. rooms were well filled on last Sunday afternoon with an audience of young men and women, who listened to an interesting talk by Rev. Montgomery.

This subject was "The Bible" and the "Origin of Man." He spoke of the many ages during which the bible has been in existence and showed plainly, by bible proofs, that man was not originally a dumb animal, as some men hold, but rather that we all came from divine source, are created by God, and it we respect his teachings and live according to his instruction, we, unlike the beasts, will obtain a crown of everlasting life.

A HOUSE BLOWN TO ATOMS.—Mr. Sperry and family living at Sunnyside, Clackamas Co. were working in their dryer last Saturday, engaged at drying fruit, when suddenly they were startled by hearing a terrific explosion and looking toward their small cottage saw it in a heap of ruins with the furniture and household goods scattered to the four winds.

with tears. Particularly noticeable in his talk was the absence of bitter denunciation of witnesses and opposing counsel, so often resorted to by attorneys in their efforts to gain a point, and so distasteful to listeners.

"Prosecuting Attorney Bean handled his side of the case in an able manner, but the verdict of the jury was already framed, and upon their return to the presence of the court after a brief stay in the jury room, with the verdict of 'not guilty,' the judge pronounced Mr. Ewing a free man.

A TERRIBLE VOYAGE. (continued from first page.) him and the following conversation took place: "Surgeon—Here, you must take something to settle your stomach."

Now this poor fellow voiced the sentiment of almost half of our battalion. The half who were well were in almost as much agony, perhaps more, as those who were sea sick. The salt air seemed to increase their appetites until they would eat almost anything; and they did!

The officers lived in abundance and the five men who were attached to the hospital corps. They could eat the jellies and sweet crackers that were in their charge; and I don't blame them for it.

On the 13th our doctor came on deck and inspected the meat and other eatables. He immediately threw all the meat and butter into the sea. From that time on we were given salt meats and a little more food to each man.

About 4 o'clock on the afternoon of the 16th we were gladdened by the dim outline of mountains in the distance and cheer after cheer broke the stillness of that sultry day.

"Yes, sympathy is very well, but if you were riding on a railway train you would like to be sure that the engineer knew the primary colors! This man has passed a series of examinations and is qualified to assume a responsible position, but he has this serious defect in eyesight." — Louisville Courier-Journal.

Coolness in Danger. "I do not send my men where I will not go myself."

"Then shut your mouth," said the captain. The man, thus recalled to his senses, touched his cap and relapsed into silence, while his commander quietly ordered a fire drill and a moment later commanded the flooding of the magazine. Both orders, a part of the daily routine on every American warship, were promptly carried out.
