Friends of Miss Florence Patty, will be pleased to learn that she has recently been selected for the principalship of the Molalla school. Richard Scott, of Milwaukee, has been appointed by Governor Gear, third commissioner for Clackamas county. The appointment of Mr. Scott was made Friday on the last day left the governor to take action on the matter. A great effort was made by certain forces heretofore dominating the county court to have a man of their choice selected, when it was learned that the bill had finally become a law. Communications from influential citizens, both within and without Oregon City, besieged Governor Gear in behalf of their respective favorites. When the news of the appointment became known it was highly gratifying to the majority of the people, who are willing that any part of the control of county affairs should be placed in Mr. Scott's hands. Richard Scott is well known throughout the county and state. He has a wide acquaintance with affairs of the county, especially as affecting the farmer element. He at present is honored by holding the vice-presidency of the state board of agriculture. He is also a prominent Odd Fellow. Having been county commissioner before, to his credit, he is amply qualified to act in any emergency of the office. He lives with his family on his large farm at Milwaukee and pays heavy taxes. Beaten at Last. The Oregon City Y. M. C. A. basketball team met the Y. M. C. A. team of Portland at Pope's hall Saturday night, and to their sorrow were defeated by a score of 13 to 10. It was by all odds the hardest contested game of the kind that has occurred between any of the teams of the state this season. Oregon City had, before, beaten every contestant that it went up against. A tour through the valley made a short time ago was one of victory and triumph. The home boys beat everything in the field and losing Saturday's contest was consequently a disaster. The last half was Oregon City's by one point, but they were four behind on the first. It is generally the belief that if the umpires had not been imported, the result would have been different. Professor Ringler, physical director of the Portland Y. M. C. A., was one, and Mackie (P.) the other. T. J. Gary (O. C.) acted as referee. Marshall (O. C.) and Johnson (P.) were score keepers and Williams (O. C.) time keeper.

A GOOD RESOLUTION. Brownell's Resolution Relating to the Mustering out of Volunteers. Senator George C. Brownell's resolution touching the Oregon volunteers in the Philippines, which was adopted by both houses of the legislature, is said to have the sanction of Colonel Summers, and it reads as follows: "Whereas, It has been stated that the United States government intends to muster out the volunteer regiments in the field at Manila at an early date; and "Whereas, The Second Oregon regiment was the first to land in that country, and was the first regiment to start in the great expedition which left San Francisco on the 25th day of May last, and has been continuously in the Philippine islands, performing service during that period; and "Whereas, A large number of the men in said regiment have lucrative positions being held open for them, also dependent fathers and mothers who need their assistance at home, and a great many more who are in the midst of their school years, which they should be allowed to resume; and "Whereas, These young men should be returned to their homes to take up their civil positions as soon as compatible with public interest, assist in the care of their parents, and continue their school work where they laid it down; and Whereas, It is not the desire nor the intention of this regiment to demand that they be mustered out, nor do they desire to be relieved from duty before the government has decided to reduce the volunteer army, still, as they were the first to land in the Philippine island, it is proper and right that they should be mustered out in the same order in which they came into active service; that is to say, the first to arrive should be the first ordered home; therefore be it "Resolved, by the senate, the house concurring, that we earnestly recommend to our delegation in congress that they use every honorable means that this object may be accomplished; and be it further "Resolved, That the honorable secretary of war be requested to cooperate in the wishes of the people of the state of Oregon so far as relates to this matter, and that the secretary of state is hereby requested to furnish each member of our delegation in congress, and the secretary of war, with copies of this resolution." Letter From Captain Pickens. MANILA, P. I., Jan 20, 1899. To the Ladies of Meade Corps Vol. Aux. Dear Friends: Your box containing stores for the sick reached us in good condition. Many thanks for same; they are just what we need. We are now getting from the government a great many delicacies for the sick in the regimental hospital, but not all we need, by any means. So we can use what you sent us very nicely. Our funds are a pretty nice thing to supply these needs, but we have not spent our money foolishly. We now have enough to keep the sick comfortable for many weeks to come. You may not know that our government does not recognize such an organization as a "regimental hospital," such is the case however, so you see we have to depend upon our own resource for most things, although as I said before they are giving us considerable aid, which is purely voluntary; we do not keep our worst cases but send them to the division hospital. The regimental hospital is a splendid thing for our sick in quarters. They get excellent care and what would be many a long sickness is thus nipped in the beginning by having prompt and proper treatment always at hand. We undoubtedly save many lives by this method, and it is worth a great deal to feel that we can do these things. I have been ill for two weeks, therefore I could not write you before. There is no serious sickness in Co. I. We expect to get started for home about the last of March if things keep quiet here with the Filipinos. Extend thanks to all who contributed to our sick supplies. Very truly yours, L. L. PICKENS. Best of All. The county commissioners' court as lately reorganized, met at the court house Monday to do business. The full board was present, consisting of Messrs. Marks and Morton, and Richard Scott, the new appointee. The matter of passing upon the acceptance of the Clackamas bridge, recently repaired, was the first business disposed of. A trip was made to the bridge and each commissioner thoroughly examined the structure. All repairs were found made in a satisfactory manner. New needle-beams, uprights and stringers had been put in and the structure was well braced. It was accepted and an order for \$360 was drawn on the county treasurer in favor of Contractor J. C. McCoy. Next, the question of the new bicycle tax was taken up. The proposition to tax each bicycle \$1.25 to create a fund for building good paths for wheels and pedestrians throughout the county and state, was heartily endorsed and the assessment was levied.
