The way to build up Oregon City Is to give Oregon City People your Patronage.

THE O. R. N. Railway is rapidly extending its operations in building new lines in the Idaho country, opening up a country to easier access that will be supbusiness for the latter.

Since the law to tax bicycles is a fact it is supposed a good path will be built from this city to Portland. The tax is to be expended on paths and none is in greater demand than the one between this city and Portland.

THE new army bill will allow an army hoped that the statutes of our colonial ment to avoid state taxes. possession will be fixed and the need of an army of 100,000 men will be done away with.

ANOTHER good law passed at this session is the one concerning mining claims and water in connection therewith. The Colorado law on this subject was enacted almost in it entirely. This now is important to a large part of the state and will become so to this county if any of the mines located develop as they are expected.

The law prepared by the American har association concerning negotiable instruments, was passed at the recent session of the legislature. There are very few states that have not passed this measure and it makes the law uniform on this subject in nearly all the states. The act is very complete and meets with universal approval.

The aristocrits of France he was a man of honesty and integrity, heap their abuse on him but the chances He has made a success of his own busiare he will prove the man for the hour ness and has the ability to make a sucand a blessing to France.

CURTIS of Clatsop, says that he is entirely responsible for the defeat of the law relating to sailor boarding houses. It was the intention of the law to abolish them. We know of no one that is posing as wishing to divide the responsibility with him. Curtis also claims that the fish law passed at this session was jobbed in the hands of the engrossing committee and is not the bill agreed on by the committee.

THE senate of the United States does many things that the people do not approve, but the insistance they have shown in enacting legislation that will build the Nicaraguan canal the people will approve. The house defeated the canal amendment but the senate has put it back by the decisive vote of 50 to 3. Unless the house accepts this it will mean another delay in building the

THE governor has vetoed the law creating a board of equalization consisting of the governor, secretary of state and treasurer for the reasons chiefly that the bill is incomplete, uncertain and obscure in its provision. No clerical aid was given. This should nave been given as this is an important work and unless we have a board of equalization it will of 1000,000, but 35,000 will be enlisted be a race by the different counties to see only until 1901. DEWEY has asked that the battle-ship Oregon be sent to Manila and he is right. Probably no vessel in any of the navies of the world is so well known or would be more dreaded in a naval combat than the Oregon. Complications are liable to occur at any time in the China sea and the great powers are massing their naval strength more and more in that quarter. One of the managers of the populist campaign tells us that he paid him \$5.00 to work against the republican ticket. He took both of course, charges are about 71/2 per cent of the amount involved, but the attorney took his adout of this sheet. This man has constantly insinuated that we took bribes at the legislature. He does not say so, he does not dare to. What he wants is money. We wish to say once for all that his statements are as false as the hellish motives that prompt him.

Mankind needs a berald, like the heralds of old, to proall may hear, the health. The average man of to-day thinks it beneath his dignity to bother about his health until it is gone. Even then he only takes measures to restore it in an in-

different, contemptuous sort of way. Men cannot learn is the most import-ant thing in life—in fact, is life. Without it the most brilliant man will be a failure, and the most robu man will rapidly be-come a physical wreck. The man who neglects the little headaches, the loss of

appetite and sicep, nervousness, not finsh-ings, cold chills, heavy head, lax muscles, and the multitude of bad feelings that are the heralds of approaching sickness and disease, must pay a tremendous penalty. For men who suffer in this way there is no medicine equal to Dr. Pierce's Golden Medical Discovery. It sharpens the ap-petite, corrects all disorders of the diges-tion, invigorates the liver, makes tion, invigorates the liver, makes the as-similation of the food perfect, purifies the blood and enriches it with the life giving elements that build new, healthy flesh. It is the great blood maker and flesh builder. It cures 96 per cent, of all cases of con-sumption and is the best of all known remedies for nervous troubles. Thousands have told, over their own signatures, the stories of the wonders it has performed. Honest dealers will not urge a substitute for the sake of a little extra profit.

Thomas Pletcher, of Clifton Station, Fairfax Co., Ya., writes: "I suffered terrible tortures for ten years with 'gastralgia' (pain in the stomach). I then took six bottles of Dr. Plerce's Golden Medical Discovery, which completely cured me."

When the bowels are regular the body will feel good and the mind will be active. Dr. Pierce's Pleasant Pellets cure con-stipation. One little "Pellet" is a gentle laxative, and two a mild cathartic. They never gripe. All good dealers sell them and have nothing else "just as good."
