The way to build up Oregon City is to give Oregon City People your Patronage.

DEWEY, as admiral, will draw \$14,500 a year, all of which he earned on the first day of last May.

THE recovery of Kipling will be re ceived with joy the world over. The interest is almost personal wherever the English tongue is spoken.

Hosson's advancement in the navy will gain him 26 years and make him rank as a captain at 31 years while the youngest captain in the service is 56 years old. Hobson remains in the construction department.

SENATOR HANNA denounces the people of Boston for "insulting Secretary Alger." They did, indeed, manifest some displeasure, but they restrained themselves very much. They didn't lynch him,-Oregonian.

THE rate this country is growing is nowhere better shown than in its exports. These have increased sixty-five per cent in the last ten years. Calamity howlers have grown in volume if not in number at the same rate.

CECIL RHODES predicts that eventually the United States will control all of America unless it be Canada. That this country is only on the eve of its colozination schemes. He holds that it is the duty of the civilized countries to give a white man's government to the rest of the world.

THE present congress spent a large amount of money, something like a billion and a balf. At the present session 675 millions were appropriated. This to a great extent was caused by the war. Although this country has forged ahead so rapiply that it has been hard to keep pace with legitimate expenditures. A great reform is needed and will have to be made in the spending of national funds.

THE COURIER-HERALD wants to know why we did not cut down certain expenses concerning the sheriff's office in Marion county as well as in Clackamas at the recent session of the legislature. Our answer is that Marion county had seven members in the legislature to look out for her interests. They cut the salaries of the officers of that county \$10,000. Ours were cut \$900 and this paper objects. We wish to say that we are willing to stay by the record of the recent session. We did not suppose the Courier-Herald wanted to go on record as objecting to economy whether it was in printing, salary of officers or board of county prisoners. We are in favor of economy in these things; therefore supported these measures as did the whole Entered at the postoffice in Oregon City, delegation from this county, nothwithstonding one is not a republican.

> Ir is belived that Reed goes too far in his methods as speaker of the house. He has undoultedly done the country great good by ruling the house without precedent, especially in saving money on appropriations bills. He is not the whole of the house and has no right to arrogate to himself all the virtue of the house. If he is opposed by a member, that member will suffer, not only in not being able to get the floor but will be passed over on committees. To his door can be laid the defeat of the Nicaraguan canal bill. The idea is rapidly spreading that he is not a great man and he is occupying as high as a position as he will ever get. There will probably be an effort made to defeat him for speaker of the next house and if it succeeds he will have himself to blame. He is no longer a presidential possibility.

THE USEGONIAN on the 3rd inst, in speaking of the fee system makes the following statement and comment on the bill we were instrumental in getting passed at the recent session :

"What the legislature should have done was to pass an intelligible, comprebensive act for the collection of fees by court clerks, sheriffs and recorders of conveyances, covering all classes of proceedings at law, probate matters and legal instruments. This it did not do, grounds are not owned by the state but but instead passed a number of indesult is a sad jumble, and threatens to be something even worse.

There ought not to be such an over-whelming sense of depression and weak-ness as a woman feels at this time and there would not be if she was in a perfectly strong and healthy condition. In thousands of cases motherhood has been divested of all its dangers and a large proportion of its pain by the use of Dr. Pierce's Pavorite Prescription, which is the most marvelous remedy ever discovered for restoring complete organic health and strength to th delicate special structure involved in moth-erhood. Taken early during the prospective time it makes the mother strong, energetic and cheerful and carries her through the period of trial with comparative comfort and ease. It increases the baby's natural, constitutional vigor and adds to the joys of motherhood the supreme satisfaction of a strong, robust, lusty infant. "Favorite Prescription" is also the best supportive tonic for nursing mothers. Every expectant mother will appreciate what is said by Mrs. Fannie M.
