FOURTH IN CLACKAMAS COUNTY.

A Short Resume of how the Day was Celebrated by our Citizens.

Had the weather for Tuesday been furnished on a special order for the occasion, no finer or better brand could have been found. Cool and clear, it enabled the anxious seeker after pleasure to wander at will, without feeling any of the discomfort occasioned by intense heat, and, while cool, it was not so cool as to spoil the appetite of picnic parties for ice cream and the other recognized picnic delicacies. GROCERIES.

McClure's Magazine for July opens with a very complete and instructive account of the automobile as it is seen today, no longer a matter of mere promise or experiment, but one of practical, constant use; the article explains what it costs, how it is operated, and just what it will do, setting forth the respective advantages and disadvantages of the various kinds. And it is illustrated with pictures of all the more important types. The recent developments will be a surprise to most readers, although they have been effected almost under their very eyes.
