THE LOCAL NEWS.

RAILWAY CONTRACT LET.—The street sidewalk committee of the city council have awarded the contract for building a stairway on Fourth and Monday streets to A. W. France for the sum of \$120.

DECLARE TAXES DELINQUENT.—The board of county commissioners met in their session Wednesday. The most important business transacted so far at this session was the declaring of all taxes due by July 5th delinquent and instructing the sheriff to enforce the collection of the same.

PLEASANTLY SURPRISED.—Last Monday evening a very pleasant surprise was perpetrated on Mr. and Mrs. A. Babcock at their home on 13th and Washington streets. It was the anniversary of their 20th year of wedded life and was pleasantly enjoyed by a large number of their friends with music, games and conversation.

SMALL FIRE.—About midnight of last night an alarm of fire called the department out to the house of George Lighton, on Main street. A very large quantity of water was sufficient to extinguish the flames before any damage was sustained. The fire was undoubtedly caused from the promiscuous use of matches.

TRAIN DELAYED AGAIN.—Tuesday's land train due here at 7:00 a. m. did not arrive until after 8:00 p. m. because of a delay of 13 hours by the burning of the bridge at Wolf Creek. This is the second bridge burned on the S. P. within a few weeks and the circumstances tend to warrant the conclusion that the accidents were not accidental. The railroad company has detectives working on the matter.

SPECIAL PRAISE SERVICE.—The choir of the Congregational church, under the direction of Prof. E. E. Cumpston, will give a praise service next Sunday evening which promises to be a treat for lovers of sacred music. The service will consist of selections from Queen Esther. The regular choir will be assisted by Mesdames Dresser and Charney, and Messrs. Dr. Freeman and Hall. The public is most cordially invited.

EDITORIAL EXCURSION.—Wednesday morning the steamer Pomona brought about 115 ladies and gentlemen of the Editorial Association now in session at Portland. The visitors were taken through the locks on the paper mills and afterward taken to the Oregon City Ladies' Auxiliary ball which had been made on a couple of days' notice. The visitors were highly delighted with the sights of Oregon and all departed bearing huge bouquets.

W. F. WINS AGAIN.—Last Sunday the F. F. team went to Oswego where they met the Giants of that place on the field and defeated them to the tune of 14, which "aint so worse."

although it might be. One of the pleasant features of the trip for the Co. F boys was caused by one of the tires of their wagon giving out when about half way, necessitating the abandonment of the wagon and completing the journey on foot. The way of the Sunday ball player is rocky—sometimes.

FOR VOLUNTEER FUND.—The people of Clackamas county are respectfully reminded that in order to make the reception to the returning volunteers the success it ought to be, the committee must have sufficient means to work with. Every body is or should be, interested in the matter and contributions, large and small, will be gratefully received. If you desire to add your mite, Mr. Tom Randall can be found at any time during the day at his office in the court house, and as chairman of the soliciting committee he will greet you with the glad hand.

The Sun's Motion.

An astronomical fact now as formerly causing no little perplexity to some is that the sun's motion—which unquestionably and indisputably is extremely quick—does not change the relative position of the solar system to the fixed stars and the constellations more than it actually does, and there are some who on this account are inclined to doubt the actual motion of the sun in space.

The investigations of astronomers have nevertheless established one thing as certain—namely, that the sun moves through space at a great speed—estimated by some scientists at 16 miles a second—carrying all the planets, satellites and other cosmical bodies along with it, but this motion of the vast luminary, while affecting, of course, the real motion of the planets in space, does not in even the slightest degree affect the relative motion of sun and planets.

Even under the supposition of so great a rate as 16 miles in one second, this relative position of the sun to the fixed stars would, astronomers declare, be hardly perceptible in a century, on account of the almost inconceivable distance of the latter—the conclusion being, therefore, that many thousands of years must pass before the sun's proper motion in space can change the configuration of the star groups.

Explosive.

An ambitious young writer having asked, "What magazine will give me the highest position quickest?" was told, "A powder magazine, if you contribute a fiery article."

Her Sweet Mistake.

A short time since the daughter of a millionaire drove up to the door of a jeweler's shop, went in and selected a turquoise and diamond ring valued at \$250. She made out her check for that sum and passed it to the proprietor, who glanced at it and then looked inquiringly up at the young lady and said, "There is some mistake here. I think."

The young lady flushed and asked if the check was not for the right amount. She was told it was, but—

"But what?" she exclaimed frigidly. "Do you mean that my check is not acceptable?"

The jeweler acknowledged that he knew quite well who the young lady was, but explained that the check was not made out just as it should be, and he handed it back. The girl ran her eye over it and then turned a deep crimson. "Oh!" she exclaimed, "I see!" And then she proceeded to make out another check. She had signed the first one. "Your own sweetheart, Jessie."

A Race of Tailed Men.

Africa is a continent rich in tailed men myths. There is supposed to be a caudate race of pygmies somewhere in the uplands of Abyssinia. The Main-Mains are a celebrated case. A good many years ago the French government dispatched a M. Descourc with instructions to explore some of the least known parts of Africa and to ascertain the exact degree of truth in the various stories about the Main-Mains. He describes the people as being mostly under five feet in height, ill proportioned, thin, weak and ugly, with short, woolly hair and with an external elongation of the vertebral column, which he says, "in every individual, male or female, forms a tail two or three inches long."—Medical Record.

True Thrift.

Hicks appreciated the shrewd as well as the humorous sayings of the Cornish country folk. There dwelt not far from his abode a dairywoman and her husband who had begun life in a very small way with one cow, and who, by industry and thrift, had acquired quite a number.

"How is it," said Hicks to her one day, "that you have got on so well, Mrs. P.?"

"Well, you see, Mr. Hicks," she replied, "most people be allus thinking of what they do want, but I and my old man, we be allus thinking of what we can do without."

Taking a Walk.

Justice—What have you to say in answer to the charge of stealing this man's plank walk?

The Accused—I took it by advice of my physician, yer honor. He told me to take a long walk every day. This was the first long walk I saw today, and of course I took it. A man can't afford to employ a doctor unless he takes his advice.

Justice—The court, however, will give you advice for nothing—three months' rest. You will take it in the house of correction.—Boston Transcript.

Glorious News

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons helps digestion builds up the strength. Only 50 cents. Sold by Geo. A. Harding Druggist. Guaranteed.

Tomatoes and Cancer.

A few years ago an eminent London physician, on my mentioning to him tomatoes as an article of diet for myself, said, "Why do you eat tomatoes?" I said, "Why not?" He said: "Well, I think that there are grave reasons for thinking it possible that eating tomatoes increases, if it does not produce, the liability to cancer. I do not say positively that it does so."

It strikes a layman as a fact that the consumption of tomatoes has increased as much in England of late years as has cancer.—Pall Mall Gazette

A Lucky Cross.

The Princess of Wales possesses a cross which is supposed to always bring good luck to its owner. It was formerly the property of the king of Denmark, having been discovered years ago in the grave of the beautiful Queen Dagmar. Besides its superstitious interest, it is a fine work of art, and was given by the king to the princess on her marriage day.

Thomas Thurman, deputy sheriff of Trov. Mo., says if everyone in the United States should discover the virtue of DeWitt's Witch Hazel Salve for piles, renal troubles and skin diseases, the demand could not be supplied.
