THE failures are the least ever known at this season of the year but the 16 to 1 people say that we never were in such bad shape.

During the last presidential campaign the voters of this country were told by the republicans that the election of Mc-Kinley meant the return of prosperity and business confidence while the democrats said that it meant disaster. Which party told the truth?

Would it not be well to wait until the county gets the goods before putting in a bill. The county is a good thing but do not push it too hard. We wish to state that his bill was cut on articles delivered as well. He completely ignores the charges made by us as to his unjust and illegal prices and divert the discussion to personal abuse. THE PHILIPPINE QUESTION.

A captain in the regular army at Manila uses the following language concerning the insurgent government.

"Each Spanish house looted, each church or convent pillaged, furnished some money to the insurgent cause, and thus it grew apace, in numbers, in strength, in organization, until they established a so-called republic, which was and is today the worst of military, ruffianty despotism.

It knew and knows no right, respects none; might is its guiding principle. Our so-called forbearance made them arrogant, and long before the trouble began it was getting to be an assured thing that there was no way out of it for us except to hold on. It was more than evident that we could not decently turn over the islands to a people, not a people, but made up of innumerable tribes or strike is a failure. peoples. There could have been no order, no government, no justice, no equity; and then Mr. Filipino would have known what it was to be robbed, is to give Oregon City People your as they are now finding out. Many are finding it out; but too late; they are helpless. None of them dared to express a dissenting opinion on the subject. All Filipinos had to be under penalty of death, out-and-out supporters of the Filipino aspirations. Whatever we are, for or against, expansion, there is but one thing to do now, and I cannot see how at any time we could have been excused for deserting our responsibilities. We must stick to them at no matter what cost. We cannot afford to become the laughing stock of the world. We must never let go Cuba, nor of this group. In neither place are they capable of self-government, and the worst of anarchy would prevail, life would be cheap, and some other nation would

gobble them up." If a man on the ground after months of observation comes to this conclusion it would seem that people who know nothing of the condition in the islands and talk from a political standpoint only would remain quiet. But there are THERE is not a man that is acquainted men who not only have no patriotism these islands. People that talk different- blessed with one of these reformers who

Beauty In Woman.

I once knew a man who was considered a great connoisseur in feminine good looks, and he annoyed me at the by refusing to see any beauty in one or two girls I considered very pretty. At last, in mild exasperation, I turned to him and asked him what he thought constituted beauty in a woman. He answered, "A pretty hand, a sweet voice and spirit in the eye,"-Philadelphia Inquirer.

Wealth's Beginning.

Wealth begins in a tight roof that keeps the rain and wind out; in a good pump that yields you plenty of sweet water; in two suits of clothes, so as to change your dress when you are out; in dry sticks to burn; in a good double wick lamp and in three meals.-Emerson.
