Springwater.

SPRINGWATER, August 4.—"Occasionally" has just returned from a 50 mile trip and a stop of four days at Wilhoit Springs and will give a short account of what was seen. The hay crop is good and all housed. Wheat will go about 90 per cent and oats about 70 per cent.

Farmers have fairly commenced harvest with binders. Fruit is nearly a failure, say about 8 per cent. There is more building fencing and improvements by Clackamas county farmers than usual.

Our Springwater mills have turned out about 400,000 feet of lumber in the past hundred days. Two halls have been built in Springwater, one for the Macca-bees and one grange hall. A grange hall has also been built at Highland.

Wilhoit Springs is an excellent place for an outing; fine camping facilities, the soda water splendid and beautiful, and daily mail. Ayer's Hair Vigor

What does it do?

It causes the oil glands in the skin to become more active, making the hair soft and glossy, precisely as nature intended.

It cleanses the scalp from dandruff and thus removes one of the great causes of baldness.

It makes a better circulation in the scalp and stops the hair from coming out.

It Prevents and It Cures Baldness

Ayer's Hair Vigor will surely make hair grow on bald heads, provided only there is any life remaining in the hair bulbs.

It restores color to gray or white hair. It does not do this in a moment, as will a hair dye; but in a short time the gray color of age gradually disappears and the darker color of youth takes its place.

Would you like a copy of our book on the Hair and Scalp? It is free.

If you do not obtain all the benefits you expect from the use of the Vigor write the Doctor about it.

Address, DR. J. C. AYER, Lowell, Mass.

Mr. Schvichtenberg and family of Portland were visiting Rev. Schoenberg and family of this place last week.

There is a practice in this neighborhood by the boys and some who consider themselves young gentlemen, of congregating around the postoffice and stores at this place of evenings and insulting peaceable citizens by word and deed, irrespective of age or sex. Such acts are unlawful and ungentlemanly. Children and ladies are becoming so intimidated that they are afraid to go to the postoffice or store when they are there. Now boys might as well not right or law. You are all well known and are hereby warned not to repeat what has been done or you will be brought to answer before the courts so let a hint be sufficient to the wise. This notice is given by the request of the Macksburg Law and Order League.

BARLOW, OREGON

SANDY, Aug. 7.—From the valley so low, up to the mountains where lies the snow; the people are flocking for recreation. Hundreds of people are out camping, hunting, fishing and berry-picking. Mt. Hood is a point in view by all.

J. H. Weaver has his mill in running order and will at once begin to saw road plank.

Timber men are coming out every day wanting to bargain for timber.

The Oregonian mentions a great deal about a railroad out here to Mt. Hood but Sandy people are accustomed to such and don't get excited over a little thing like that.

Mr. and Mrs. Cooke had a very interesting experiment with a bull. When coming home from work, to make a short cut they passed through Strowbridge's pasture, when the bull took after them, chasing them up a tree and kept them up there in a very solemn predicament until early next morning when the animal became discouraged and relieved them of their lofty position.

Frank McGuigan has purchased a brand new buggy. Now Frank what does that mean?

Stafford.

STAFFORD, Aug. 7.—Miss Clara Athey and Mr. John DeNeu will be married at Oregon City Wednesday, Aug. 9. They will return to the home of the bride's parents where a feast will await the happy couple and company. From there they will go to Larson's hall in the evening where the groom has promised the boys etc., a free dance.

After the dance is over they will depart for their home and set up housekeeping immediately. We extend to the young couple our congratulations, good wishes, etc.

Much more hay has been baled here this season than usual.

Mr. Polivka is improving rapidly, being able to be about the house again. It was thought at one time that an operation would have to be performed on him to cure an attack of appendicitis.

Causes of Loss of Hair

Dr. Sabouraud, the eminent French Dermatologist, says that 98 per cent of hair losses are the results of microbes and the neglect of dandruff. The antisepsification of

SEVEN SUTHERLAND SISTERS'

preparations kills microbes and removes dandruff. Their constant use for a period will, by acting directly on the hair bulbs, furnish nourishment, vitality and growing power to the impoverished roots and hair shafts, resulting in complete restoration.
