The following extract is taken from the Weekly Republican published at Trenton, Missouri, and is a fair sample of the wide spread advertising this state is getting as a result of the visit of the National Editorial Association.

"Oregon City, sixteen miles up the Willamette, the first capital of Oregon, contains one of the oldest Land Offices in the United States. Willamette Falls, one of the world's great water powers, is here. Oregon City flouring mills can grind more than a million bushels of wheat a year and their flour is in the markets of Eastern Asia. About 50,000,000 tons of wrapping paper are shipped from that place yearly. It is manufactured from cottonwood, white fir and spruce and requires millions of feet of lumber. The Electric plant that lights the city of Portland is located here and this city is one of Oregon's historical towns."

IS YOUR HAIR TURNING GRAY?

What does your mirror say? Does it tell you of some little streaks of gray? Are you pleased? Do your friends of the same age show this loss of power also? Just remember that gray hair never becomes darker without help, while dark hair rapidly becomes gray when once the change begins.

Ayer's Hair Vigor

will bring back to your hair the color of youth. It never fails. It is just as sure as that heat melts snow, or that water quenches fire.

It cleanses the scalp also and prevents the formation of dandruff. It feeds and nourishes the bulbs of the hair making them produce a luxuriant growth. It stops the hair from falling out and gives a fine soft finish to the hair as well.

We have a book on the Hair and Scalp which you may obtain free upon request. If you do not obtain all the benefits you expected from the use of the Vigor, write the doctor about it. Address, DR. J. C. AYER, Lowell, Mass.

Just What Was Wanted.

It is related of a Hibernian parade in Chicopee that one of the officers of the day telephoned an order to a Holyoke stable for 15 white horses for the use of marshals, aids, etc. The liverymen filled the order, but it somewhat taxed their resources to find so many white horses. Judge of their surprise a day before the parade to receive an order for five more white horses.

The liverymen deal quite extensively in horses and had but that day received a consignment of young and untried animals. Consequently they were doubtful about sending any of them to take part in the parade. They sent word to Chicopee that it would be impossible to fill the second order, as they had "nothing but green horses on hand."

Instantly back came word, "We'll take the green horses—all you've got."—Springfield Homestead.

AWED BY THE AUTHORS.

But By and By Mr. Williams Got Over His Timidity.

Some day perhaps Jesse Lynch Williams may follow his book of newspaper stories with some sketches of magazine office life. He has had experience, and he can write them.

Here is one of them: "When I first went to Scribner's Magazine," he said, "I was a walking interrogation point. The editor would toss a letter across the table just like a common piece of paper, saying: 'Here's a letter from Kipling. It's all right.' It might as well have been a note from his tailor."

"I stood by and shivered at the sacrilege. And the typewriters! They would pound out letters to Meredith, Stockton, James, Howells and Kipling just as they might have done to me, without changing a feature or missing a punctuation mark, and I marveled at their nerve. One day a stout, middle aged man brushed by me in the office. We begged each other's pardon.

"Hold on a minute," called the editor. "I want to speak to you, Howells."

"Is that Howells? I asked the office boy.

"Sure."
"Mr. Howells?"
"Yes."
"Mr. W. D. Howells?"
"Cert."
"Mr. William Dean Howells?"
"The same."

"And I softly caressed the sleeve that the novelist had brushed against as if it had been touched by a saint. But after awhile the feeling of awe wore off. We deal in authors. That's our business."—Philadelphia Saturday Evening Post.

A Mother's Duty

It is so to it that her children begin early in life to shampoo their heads regularly once a week. In each instance, after the hair is thoroughly dry, some mild, health-giving tonic should be applied to the scalp to aid nature in creating the best possible growth of uniformly colored, lustrous, healthy hair—the most important feature in the make-up of beautiful women and handsome men. For more than fifteen years, the

Sutherland Sisters' Scalp Cleaner

has stood at the apex of all shampoo washes, while the "HAIR GROWER" has been equally successful in its efforts to return the injured scalp and almost lifeless hair to their original healthfulness.
